## ANNUAL REPORT

OF THE

# COMPTROLLER OF THE CURRENCY

TO THE

### SECOND SESSION OF THE FIFTY-SECOND CONGRESS

OF

### THE UNITED STATES.

**DECEMBER 5, 1892.** 

IN TWO VOLUMES.

VOLUME I.

WASHINGTON:
GOVERNMENT PRINTING OFFICE,
1892.

TREASURY DEPARTMENT, Document No. 1565, 3d ed. Comptroller of the Currency. 332.1 Un3 1891/92

## TABLE OF CONTENTS.

	Page.
Report submitted to Congress	3
Trade balance and condition of the national banks	3, 4
Cash held by national banks	
Currency and exchanges	
Paper money in circulation	
Coinage of silver.	_
Profit on circulation of national banks.	
Funding of the national debt.	
Statistical information with respect to financial institutions organized under State statutes	
Clean money	16
Statement of national banks organized during the year.	17
States leading in numerical accessions, capital, and deposits	
Number and capital of national banks organized and closed since establishment of system	
Amendments to present laws	
United States attorneys as statutory counsel for receivers.	
Closed national banks	
Domestic exchanges	
Amount of drafts drawn by national banks, comparison for three years and rates of ex-	
change	
Substitutes for money	
Imprudent mcthods of banking	
Directors and officers	
Excessive loans	
Examiners	
Comparative statements of the national banks	
Extension of the corporate existence of national banks	
Circulating notes	49
Increase or decrease of circulation	
Banks without circulation	
Security for circulating notes	52
Interest-bearing funded debt of the United States and amount held by national banks	, 54
Market prices of United States bonds	
Investment value of United States bonds	56
Issues and redemptions	57
Additional circulation issued and retired during the year	58
National-bank notes received and destroyed yearly since the establishment of the system	
Redemption of notes of banks reducing circulation, and of failed and liquidating banks	60
Tax upon circulation, redemption charges, assessments, and amounts collected.	
Loans by national banks in reserve cities and country.	
Failed banks	65
Causes of failure	
Dividends paid to creditors of failed banks	
Inactive receiverships	
Banks in liquidation	75
Legislation	
Legal decisions	
Clearing-house associations	
State, savings, private banks, loan and trust companies.	83_80

Washington Loan and Trust Company, and The American Security and Trust Company, of	
the District of Columbia.	249-252
Condition of the Canadian banks	252
Statements of condition of the banks of the United States and State banks, 1774 to 1892	253
Aggregate resources and liabilities of national banks from 1863 to 1892	
Summary of the state and condition of national banks on dates of report during past year	
General index	399
Condition of each national bank at close of business September 30, 1892	Vol. 11

### REPORT

OF

# THE COMPTROLLER OF THE CURRENCY.

DEPARTMENT OF THE TREASURY,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, D. C., December 5, 1892.

SIR: I have the honor to submit for the consideration of Congress, in compliance with the provisions of section 333 of the Revised Statutes of the United States, the thirtieth annual report of the Comp

troller of the Currency.

The year covered by this report ended October 31, 1892. The crop of 1891 was phenomenal in all the great staples produced by this country, and at the same time a partial failure of the cereal crop in Europe created an unusual demand for our food products. The total value of our merchandise exports for the fiscal year ended July 1, 1892, exceeded one billion dollars—\$1,030,335,000.

	1891.	1892.
The merchandise balance of the United States (excess of exports over imports) for the fiscal year ended July 1.  Excess of exports over imports, gold and silver.  Trade balance	\$39, 565, 000 72, 703, 000 112, 268, 000	\$202, 914, 000 13, 352, 000 216, 266, 000

The remarkable feature is that we were compelled to add to an export merchandise balance of \$242,000,000 over \$86,000,000 in gold and silver.

Europe's short crop followed a serious financial crisis, which unsettled values, disturbed confidence, and entailed heavy losses. Instead of paying for our cereals from their surplus, they were obliged to draw upon their principal.

In a normal condition of affairs this large merchandise balance in our favor would have resulted in large gold imports; instead, they sent us

our securities.

The interest upon American securities held abroad aggregates a large amount, and its payment forms a continuous factor in international balances. The return of any portion of our securities increases our wealth at home, and the retention of the earnings of such securities

adds to our home prosperity. The absorption and assimilation of so large an amount in so short a period of time may have produced tem-

porary disturbance, but the permanent effect is beneficial.

The financial needs of Russia, and the accumulations of gold by Austria-Hungary, with a view to the resumption of specie payments upon a gold basis, caused a premium to be paid for gold exports, and was an important cause of its outflow.

Distrust of our monetary legislation, and the fear on the part of Europe that we were drifting towards a silver basis, also had an impor-

tant influence upon gold exports.

The national banks held on September 30, 1892, nearly \$22,000,000 more gold than on September 25, 1891. This, coupled with the known fact that many State banks and trust companies have also fortified themselves with a gold reserve during the year, shows that the fear that we were drifting towards a silver basis was not confined to foreigners.

All periods of monetary stringency, which necessarily restrain and

curtail business ventures, are followed by a plethora of money.

On June 18, 1892, the total deposits in the associated banks of the city of New York were \$543,663,100. The highest amount ever reached before was \$455,306,300 on December 26, 1891. The same plethora of money existed in all money centers; the rate of interest for the year averaged, on demand loans, 1½ per cent to 3 per cent, and time loans and commercial paper ranged about 2 per cent higher.

The cholera at home and abroad, with attendant quarantine restrictions, has held trade in fetters, and, to some extent, impaired the business of the year. The vigorous measures adopted by our authorities reduced it to control and kept its baleful influence at a minimum.

With conditions in the United States favorable for a year of unusual prosperity, speculation has been held in check and business kept within conservative limits. The lessons taught by the monetary stringency of 1890-'91, which fell so heavily upon all whose business was too much extended, have not yet been forgotten. A hardening process has obtained, and yet the record of the year covered by the report characterizes it as one of growth and prosperity.

COMPARATIVE STATEMENT OF THE CONDITION OF THE NATIONAL BANKS WITH RESPECT TO CERTAIN ITEMS AT NEARLY CORRESPONDING DATES FOR THE YEARS 1891 AND 1892.

		1891.	1892	Increase.	Decrease,
Capital stock Bonds deposited to se Bank notes outstand Lawful money depos	existence October 31 ecure circulation ing sited with the Treas-	3, 694 \$684, 755, 865 152, 950, 350 172, 184, 558	3, 788 \$693, 868, 665 164, 883, 000 172, 432, 146		
tion outstanding	s to redeem circula-	35, 430, 721	25, 191, 083		\$10, 239, 638

#### CURRENCY.

The business of banking is exchanging a generally known value or credit for a local value or credit. This definition applies equally to the money changers of the temple and to the banks of to-day. In the wonderful development of commerce and manufactures which has followed increased facilities for communication and transportation, banking, though hand in hand with trade, is ever in the lead; for credit, or money, is the motor which moves the wheels of progress, and all financial transactions, whether local, national, or international, have become mainly a matter of bookkeeping. Throughout the United States every locality has its bank, and most people, however limited their business transactions, have bank accounts, through which they pay their indebtedness. Bank accounts are generally used as the most convenient and most accurate method of keeping a cash account. This practice does not obtain in European countries in any such proportion. In this country, in the village having a single bank, the artisan pays the merchant by check, or vice versa, and the payment is usually consummated by a transfer of credit upon the books of the bank. Thus does the single bank become a clearing house for the community, and the actual transfer of money is minimized.

The day's exchanges in our larger cities are adjusted through a clearing house, where each bank is credited with the total demands it holds against all other banks, in the same place, and is debited with the total demands which the other banks hold against it, and either pays or receives the balance, simply, in money. The aggregate clearing-house transactions for the year ended October 31, 1892, in 57 clearing-house cities, were \$61,017,839,067, the balances were (partly estimated) \$4,881,777,289. Thus, by a simple device of bookkeeping, this immense volume of business was done by means of 8 per cent of actual

money.

Our international banking and commercial transactions are settled upon a system of balances through a few leading banks and banking houses that deal in foreign exchange. When the exchange market affords no bill of exchange to be remitted, gold is shipped to settle the balance of trade existing against such nation, and when so shipped, whether bars or coin, it goes simply as commodity, at its market value,

precisely like merchandise.

Thus it appears that the bulk of the world's business transactions is done upon credit, witnessed by bookkeeping, and the percentage represented by actual money transfer is very small, in the United States

less than 8 per cent.

A man goes to his bank with his note, a local credit, and procures its discount, receiving the proceeds in a generally known credit or value, namely, a bank draft, or certificate of deposit, or money—something available for the contemplated business. The bulk of all business transactions is adjusted by the contracting parties, whether banking or other-It is the portion in which money passes that appeals to the Government for regulation. It is the recognized constitutional duty of government to furnish for its citizens a circulating medium adequate to their needs and convenient for their use. Gold and silver are the recognized money of the world, because they possess value in themselves, are conveniently coined, not easily counterfeited, exist in quantity sufficient to supply the demand, and are not so redundant as to unduly impair their value. Such money is adequate to the public want, but not convenient for public use, except in small change transactions. Paper money is a business necessity. Paper money possesses no value, simply represents value.

A currency to serve the demands of business must be sound—no doubt of its redemption. It should be elastic, that it may expand and contract, as the tide of business ebbs and flows. If supplied by the Government, the expense is borne by the taxpayers. If supplied by banks, it must possess an element of profit. It will readily issue so long as there is a profit. It may be made to contract by fixing a standard of issue and taxing the excess, so that the excessive issue would be retired with the cessation of the necessity which called it into ex-

istence.

The amount of paper money in circulation October 31, 1892, was:

National-bank notes	\$172, 432, 146
United States notes (greenbacks)	332, 080, 234
Treasury notes	114, 567, 423
Gold certificates	
Silver certificates	
Currency certificates	10, 550, 000

1, 074, 437, 684

Per cent of national-bank notes, 16.04.

The Government can not issue money gratuitously. It can only put it in circulation in exchange for some value or obligation. It can not

pay its bonds in anything other than coin of standard value.

By the terms of the act of February 28, 1878, the Secretary of the Treasury was directed to purchase and coin into silver dollars silver bullion not less in value than \$2,000,000 worth and not more than \$4,000,000 worth monthly. This act was supplanted by the act of July 14, 1890. While in force the Government purchased silver and coined 378,166,793 standard dollars, the seigniorage on which (that is, the difference between the price paid for the silver and the face value of the coinage) was \$69,967,531.

Total coinage of silver dollars under act of February 28, 1878	\$378, 166, 793
Total cost of silver bullion used in such coinage	
Seigniorage or apparent profit	69, 967, 531
Bullion value of such silver October 31, 1892	250, 493, 936
Difference between actual cost and market value October 31, 1892	57, 705, 326

This coinage accumulated in the Treasury vaults until the happy device was conceived of putting it in circulation by the use of paper substitute. As shown above, \$324,552,532 are serving the people by

proxy.

Under the act of July 14, 1890, the Government purchases monthly 4,500,000 ounces of silver, and pays for the same in Treasury notes issued for that purpose and equal at par to the cost of such silver. Thus the currency of the country is arbitrarily increased monthly. Up to November 1, 1892, the total issue of such notes has been \$116,611,233. The present market value of the silver purchased is \$102,648,944, showing a depreciation in value of \$14,134,646. This act was a compromise measure, designed to prevent the unlimited coinage of a dollar of full debt-paying power containing less than a dollar's worth of silver. From its nature (arbitrarily adding a large amount to the currency monthly) it is evident that it was intended to be temporary. The severest commentary upon our silver coinage is the fact that it offers an inducement to the counterfeiter to coin a dollar exactly reproducing the genuine in quality and intrinsic worth, as well as form and design, the profit to the counterfeiter being represented by the difference between the market value of the silver contained in the coin and its face value, which was October 31, 1892, 331 cents.

In view of the above statistics, the silver currency furnished by the Government will hardly commend itself to the public on the score of economy. It is in sharp contrast with the national-bank currency,

which has paid into the Treasury in taxes \$72,670,412.30.

What the settled policy of Congress as to the future currency may be remains to be seen. If furnished by the Government, it will possess the quality of soundness, for nothing can be better than the Government under which we live; but it cannot possess elasticity. Elasticity means conformity to business wants, the supply quickly responding to the demand, and not conformity to fixed rules and statutory laws. Government in the very nature of things cannot supply such currency as the public requires. The national banks can and with proper legislation would supply this want fully and completely. Large appreciation of the price of United States bonds, the basis for circulation, large depreciation of the rates of interest, and onerous taxation have made circulation unprofitable, and the volume has fallen from \$362,889,134, September 30, 1882—the highest amount in circulation at any one time—to \$172,426,610 at the close of the last fiscal year. The volume would have been much more contracted but for the fact that all national banks, whether they take out circulation or not, are obliged to own and assign to the Treasurer of the United States in trust interest-bearing bonds of the United States, and in case their capital is \$150,000 or less, to the amount at par of one-fourth their capital stock. If the capital exceeds \$150,000, they are required to have on deposit in the Treasury not less than \$50,000 in Being obliged to own these bonds, to measureably lessen the cost of carrying such high-priced securities, they take out circulation.

The following carefully prepared tables show the profits upon circulation based upon a deposit of \$100,000, bonds. June 30 was selected, as it marks the close of an interest period for Government bonds.

JUNE 30, 1892-2 PER CENTS.	
	\$2,000.00
Loanable circulation at 6 per cent	5, 130. 00

Sinking fund reinvested semiannually to liquidate premium. 1,972.94	3, 071. 42
Net receipts	8, 058. 58 6, 840. 00
Profit on circulation	1, 218. 58
Total profit on \$11,600,000* bonds, \$127,219.75. Percentage on maximum circulation obtainable, 1.218 per cent.	,

#### RECAPITULATION.

Profit on the three classes of bonds, maximum circulation 90 per cent-

2 per cent bonds, \*\$21,837,000—\$19,653,300, maximum circulation at 0.03152 per

cent, \$6,194.72. 4 per cent bonds, \*\$129,759,000—\$116,783,100, maximum circulation at 0.33016 per cent, \$335,571.08.
6 per cent bonds, \*\$11,600,000—\$10,440,000, maximum circulation at 1.21858 per

cent, \$127,219.75.

Total of bonds, \$163,196,000—\$146,876,400, maximum circulation at 0.353 per cent, \$518,985.55.

It will be noted that by taking out circulation the banks realize in each case more than 6 per cent on the money invested in bonds. The money invested in the purchase of bonds as a basis of circulation yields in the case of 2 per cent bonds 6.032; in case of 4 per cent bonds, 6.33; in case of 6 per cent bonds, 7.218.

Since the 5 per cent redemption fund counts as part of a bank's reserve as well in hands of the Treasury as in vaults of the banks, it would have been proper not to make the deduction above. This would add materially to the profit of circulation. The \$43 average cost of examinations of banks with \$100,000 capital is not wholly an incident of circulation.

In the above tables money is assumed to be worth 6 per cent. the prevailing rate was less than 6 per cent a bank could better afford to take out circulation. If the prevailing rate was more than 6 per cent a bank could less afford to take out circulation. By allowing circulation to the par of bonds and removing the tax on circulation it would be possible for banks located in sections where rates of interest are high to take out circulation without loss.

Since the organization of the national banks \$1,521,437,753 have been issued and redeemed without loss to any bill-holder. There can be no loss upon national-bank circulation. All the solicitude as to what shall serve as a basis for circulation when Government bonds cease to exist is premature. The 44 per cent bonds (act July 14, 1870) matured September 1, 1891; \$25,364,500 were continued at the pleasure of the Government at 2 per cent interest; interest upon the balance ceased; \$24,520,900 have been redeemed and \$983,800 remain outstanding; \$3,617,700 have been redeemed since October 31, 1891. No bonds have been purchased by the Government during the past year, the interestbearing debt has not been reduced, and with the diminished revenues, under the act of October 1, 1890, and swelling volume of annual expenditure, there is likely to be no reduction in the immediate future. The trend of public opinion is decidedly in favor of limiting our revenues to the current needs of the Government. The currency sixes that begin to mature in 1896 are primarily obligations of the subsidized Pacific railroads. The railroads will hardly be prepared to pay these bonds at maturity, and they will likely be continued like the 43 per cent bonds, at the option of the Government, at a low rate of interest.

By relieving national-bank circulation, as above suggested, these bonds could be extended at a very low rate of interest—too low for investment purposes, yet available as a basis of circulation. Of the \$25,-364,500 of 2 per cent bonds outstanding October 1, \$22,050,350 were held by national banks to secure circulation. The 4 per cent bonds do not mature until July 1, 1907. Since December 6, 1890, the Government has been out of the market as a purchaser of its own bonds, and the price then paid for 4 per cent bonds (\$123.356) has fallen to \$114.625. The lower the price of the bonds the more available they become as a basis of profitable circulation. If happily the time arrives when the United States

<sup>\*</sup> Total amount of each class of bonds held to secure circulation June 30, 1892.

Government has no bonded debt, or not sufficient to be available as a basis for circulation, there will, of necessity, be other choice securities

available for such purpose.

In my judgment the Government should issue 2 per cent bonds, running twenty, thirty, and forty years, and with the proceeds purchase the 4 per cent bonds outstanding. This would result in a saving of interest to the Government, distribute the maturity of the bonds over a proper period, and furnish the best conceivable basis for circulation. The Government could hardly have floated a 2 per cent bond but for the needs of the national banks, and with liberal yet conservative laws as to circulation it is possible that a bond bearing a slightly lower rate than 2 per cent could be placed at par.

A United States 4 per cent bond of 1907, in order to yield interest at the rate of 2 per cent per annum for the remaining period it has to run, must have been purchased October 1, 1892, for \$125.492. In other words, the Government could have exchanged a 2 per cent bond, at par, maturing July 1, 1907, for the 4 per cent bond of 1907, at \$125.492, without loss or gain. The exchange would have been equal. The 4 per cent bonds on October 1, 1892, were worth \$114.625. The extended 2 per cent bonds, payable at the pleasure of the Government, were worth, on the same date, 101. Could the Government have exchanged a 2 per cent bond maturing July 1, 1907, for the outstanding issue of 4 per cent bonds upon the basis of the quotations just given, it would have resulted in saving to the Government (that is, the taxpayers) the enormous sum of \$67,161,551.47, as appears from the following computation:

Par value of outstanding 4s, October 1, 1892	641, 426, 312. 18 635, 075, 556. 62
Quarterly interest paid on 4s.  Quarterly interest that would be paid on 2s.	5, 595, 867. 50 3, 175, 377. 78
Quarterly saving of interest	
Present value, as of October 1, 1892, of these savings of interest to maturity, money at 2 per cent, reinvested quarterly	123, 406, 683. 57
2s in excess of principal of 4s, money at 2 per cent, reinvested quarterly	56, 245, 132. 10
Present value of net saving to the Government in accordance with the above statement	67, 161, 551. 47

While the principal of the indebtedness would be increased, the interest reduction would be so great for the remaining fifty-nine interest quarter periods, from October 1, 1892, to July 1, 1907, as to show a net saving of \$67,161,551.47.

A 4 per cent bond at 1145, on October 1, 1892, would pay an investor,

interest at the rate of 2.793 per cent.

It is probable, from the above statistics, that investors would not exchange 4 per cent bonds for 2 percents, but the fact that banks own, for the purpose of securing circulation, nearly 87 per cent of the continued 2 per cent bonds in preference to the 4 per cents, shows that they prefer a bond at par, with a lower rate of interest, as a basis for circulation. A fixed period to run, and a long period would add to the value of the bond.

With so great a saving possible, the interests of economy, as well as all public and private interests that depend for prosperity upon a sound

and elastic currency, emphasize the wisdom of settling this question of a proper basis for national-bank circulation by the issue of bonds having a long time to run, at a low rate of interest, with which to retire

the outstanding issue of 4 per cent bonds.

The national banks for a long series of years have demonstrated their ability to furnish the country with currency ample in amount, elastic in volume, sound beyond peradventure, and every dollar of which, every moment of its existence, was worth par throughout the length and breadth of the land. A change from such a currency to another less secure is certainly an unwise experiment. It is proposed to restore State bank circulation by removing the 10 per cent tax imposed March 3, 1865. There is no fairer test of men or methods than the record they make for themselves. Every item of assets and liabilities, as shown by the trial balance of their general ledgers, of every national bank, for the whole period of their existence, has five times each year been published in the locality, reported to the Comptroller of the Currency, and become a matter of record. Additional tables resolve all composite items into detail. Additional statistical tables complete the history and workings of such banks. Special reports show the course of trade and exchange. In case of failure, equally explicit information is obtained from receiver's reports, total claims, total assets, percentage paid, percentage of loss, items of expense, including receiver's fees, and attorneys' fees.

All this information is annually reported to Congress and spread before the country. The course of trade, the material condition, the prosperity or depression of the country, are truthfully reflected in the condition of its banks. And the publication of the above conditions, in the reports of these banks, has been of inestimable value to publicists and economists. This is the record of national banks under Federal authority and Federal supervision. To compare the present national banking system with the old State banking system is to compare order with confusion—perfect system, under central control, with imperfect system, under diversified control. The banking systems of the different States, during the period that they were banks of issue, differed essentially. Some had excellent banking laws; others had very crude laws. Some had effective supervision, and some had none, or worse than none. In no State was the aggregate or percentage of loss to note-holders of State banks reported, nor the losses to creditors or stockholders. The most careful research reveals only general statements, or estimates of loss, in the current financial literature of the time.

Congress, by resolution in 1832, directed the Secretary of the Treasury to procure and publish statistics relating to banks in the several States. Such publication was made more or less complete, with the exception of some years, until 1864\*; then followed an interval until 1873, when the Comptroller of the Currency was directed to procure from official and other reliable sources and report to Congress information in relation to State banking institutions. The statistics in relation to State banks prior to 1864 have been the subject of much

<sup>\*</sup>When is stated that the statistics relating to the period prior to 1864 are mainly unofficial, it will be understood that the information conveyed is only approximately correct. The principal sources of information in compiling these statistics have been the reports of the Secretary of the Treasury to Congress since 1832, Baker's work on Banks and Banking, Blodgett's Economica, Elliott's Funding System, Thompson's Banknote Reporter and Counterfeit Detector, the Banker's Magazine, Hodges' new Banknote Safeguard, Consideration on the Currency and Banking Systems of the United States, by Albert Gallatin; History of Banking in the United States, by John Jay Knox.

study and research on the part of my predecessors. The Comptroller's report for 1876 contains elaborate tables upon this subject. The question of restoring State bank circulation gives especial value to all information of this character, and I have therefore carefully studied and analyzed all the statistics attainable upon this subject, showing the condition of State banks prior to 1864, and publish in the Appendix of this report, arranged in convenient form, tables presenting such information.

The most notable feature of the State-bank circulation was the violent

expansion and contraction to which it was subject.

The charter of the United States Bank expired March 4, 1811. Mr. Gallatin made the following estimate of the total circulation of the country, including notes of the Bank of the United States: In 1811, \$28,100,000; in 1815, \$45,500,000; in 1816, \$68,000,000; and in 1820,

\$44,863,000.

In 1840, according to Knox, there were in Ohio thirty-seven banks, with \$10,000,000 capital. January 1, 1845, there were but eight banks in operation, with a capital of \$2,171,807. Up to and including 1856 thirty-six of the banks organized under the laws of that State had failed, their notes being wholly worthless, and eighteen more had failed, their notes being worth 50 to 75 cents on the dollar. From January 1, 1857 the circulation of the whole country shrank from \$214,788,892 to \$155,208,744 on January 1, 1858, a decrease of over \$59,000,000 in one year (Report of Secretary of the Treasury). The circulation of Illinois increased from \$5,500,000 in 1857 to \$12,300,000 in 1861. (Knox.) Much of this circulation was secured by various forms of security, and its redemption provided for by State authority. Yet it was seldom that this security proved adequate. The Bankers' Magazine for February, 1858, advertised a list of twenty-eight suspended banks in Indiana whose notes would be redeemed by the auditor of that State at the following rates: ten at par, and the remainder at prices ranging from 97 down to 39. According to the same authority, in July, 1859, a convention of Wisconsin bankers, held at Milwaukee, fixed the discount on Illinois bank bills at 1 per cent until September 20, and at 3 per cent thereafter. This action was retaliatory, and simply established the same discount upon Illinois bills that Illinois had adopted as to Wisconsin. In April, 1859, the Indiana banks determined not to accept the notes of Illinois or Wisconsin. bank notes of interior banks were at a discount in New York (many unsalable) from 50 per cent down to the current exchange, which was charged against the notes of perfectly solvent banks.

The above instances illustrate the friction existing between different

States.

The cost of exchange on commercial centers was greatly increased under State-bank circulation. Now a man in Montana deposits his money in his local bank and buys Chicago exchange. His money is as good in Chicago as Helena, and he simply pays the cost of transmittal. In fact, the competition for business is so intense and the indulgence of banks correspondingly great that frequently when an interior merchant goes to New York to buy goods he takes a letter of introduction from his home bank to their New York bank correspondent, draws checks for the amount of his purchases upon his home bank, which are paid by the New York correspondent and debited to the home bank. Thus the item of exchange disappears entirely.

The dangers of counterfeiting under the national-banking system are at a minimum. The bills are printed by the Government upon

carefully prepared paper made by the Government and never out of the Government's possession. If circulating notes were to be printed by the forty-four different States, the opportunities for counterfeiting would be multiplied. Under the old State-bank system counterfeiting was an established industry, and a description of the methods and devices possesses the qualities of a romance. From January 1 to April 1,1859,\* there appeared 242 new counterfeits. Hon. John Jay Knox (whose long incumbency of the office of Comptroller of the Currency, as well as his qualities as a student of finance, entitles his judgment to highest consideration) estimates the average loss to note-holders under the old State-bank system at 5 per cent. As before remarked, no estimate can be made of the loss to creditors and stockholders. By advertising for the redemption of circulating notes the statutory period and refusing all later presentations, it frequently happened that the stockholders reaped large profits where the note-holders met almost total loss.

I have given the above random illustrations as suggestive simply of the evils attendant upon the old State-bank circulation. It is by no means exhaustive. I am aware that the present can hardly be compared to antebellum times, and that the changed conditions which now exist would necessarily obviate some and soften many of the evils at-

tendant upon State-bank circulation.

In order to furnish a modern standard of comparison between national banks and those other than national, Comptroller Knox reported statistics, showing the number of failures of State, savings banks, and private bankers, for the three years ending January 1, 1879. The number of failures was 210; total claims, \$88,440,028; amount paid and to be paid, \$58,152,638; losses, \$32,616,661; upon which he comments:

The average annual loss sustained by creditors during the past sixteen years by the insolvency of national banks throughout the United States has been \$390,012, and that occasioned by the failures of banks other than national, as shown by the incomplete data obtained by the Comptroller, has for the last three years been not less than \$10,872,220.

Hon. Edward S. Lacey, in his report as Comptroller for the year 1891, gave a list of failures in the United States of bankers, brokers, trust companies, and savings banks, for the year ended June 30, 1891. "These number, in all, 117 institutions, having liabilities estimated at

\$38,271,511, and assets valued at \$20,794,092. (Bradstreet.)".

Through the courtesy of Bradstreet I am able to report, in a table to be found in the Appendix, the failures of State, savings, and private banks, and loan and trust companies for the year ended June 30, 1892. The number is sixty-nine. Aggregate liabilities, \$11,024,628. Estimated value of assets, \$6,125,189. The percentage of assets to liabilities 55.56.

The seventeen national banks that failed during the last report year had aggregate liabilities amounting to \$12,538,448. Estimated value of assets, \$10,750,347. Percentage of assets to liabilities, 85.74.

However recent the comparison the conclusion is in favor of the

national-bank system.

If the forty-four States are to furnish the currency of the country, then we will have a chain of sovereignties furnishing our circulating medium, each with varying laws and varying supervision, and, like all chains, the system as a whole would be no stronger than its weakest link. Disorganized finance in one State would affect all. Argentine

<sup>\*</sup> Thompson's Bank Note Reporter and Counterfeit Detector.

financial troubles precipitated the Barings failure at a time when this country was generally prosperous; and yet it produced a quasi panic in the United States and cast a cloud over the financial horizon of the whole world which has not yet fully disappeared. Banking is not a philanthropical business and banks will not issue circulating notes unless it is profitable. Manifestly issuing notes would be most profitable where greatest latitude was allowed or greatest laxity prevailed, and with the circulation of any State discredited or the particular banks of any State discredited, conservative bankers and conservative

business men would have to discriminate against such bills.

We all know the practical machinery employed to enforce such discrimination. Our State boundaries and commercial centers would be policed with brokers' offices, and commerce would be compelled to pause at State lines and pay the exchange demanded in order to provide itself with money acceptable in the locality where proposed business was to be done. The bill of a perfectly solvent bank in Oregon would be worth just as much less than its face in Chicago or New York as it would cost to send such bill to Oregon for redemption and secure the proceeds in return—cost of transmission each way and interest for the time required—in short, exchange. It would be precisely on a par with the note of any equally reputable business firm. The only way this discount could be avoided would be to provide for the redemption of such notes in Chicago, New York, Boston, and other money centers. Should interior and far Western banks make their bills worth parthroughout the country by providing for their redemption at convenient money centers, it would compel them to keep an amount of idle reserve with their redemption agents that would seriously impair the profits on circula-And the United States Government would not facilitate banking transactions then, as it does now, by receiving money at its subtreasuries and transporting the same to any part of the country for the

meager charge of 15 to 50 cents per \$1,000.

A bank bill or note is a noninterest-bearing obligation payable to bearer upon demand, in lawful money, title to which passes by delivery. The value of such note depends upon the financial credit of the bank issuing the same, the special provision of law for its redemption, the security set apart for such purpose, the fidelity with which such laws are enforced, as to redemption, the character of supervision, and the degree of conservative banking thereby insured. The profit to a bank issuing such bills depends altogether upon the length of time they remain outstanding before being presented for redemption. With the facilities afforded by railway and express companies for presenting such notes for redemption, it is probable that they would speedily find their way back to the place of issue. This would seriously impair the profits and would necessitate more favorable conditions of issue in order to render the issuing of circulation profitable. No circulation will issue unless there is a profit in it. The fact of the probable and speedy return of this circulation to the locality of issue is made an argument in its favor, inferring therefrom that each locality would be abundantly supplied with money. A bad penny always returns, and the tinge of doubt that would attend this State-bank circulation would doubtless give it a homeward impetus. But bear in mind that it would be worth no more at the place of issue, though passing at par, than in Boston or New York. By just such a percentage as its purchasing power was diminished in our commercial centers, by just that percentage would the price of commodities be appreciated where it passed at par. This is an inevitable law attendant upon depreciated currency.

The stream that flows from the mountain to the sea obeys no more natural law than that which accumulates currency in commercial centers. If the water stood in pools on the mountain it would necessarily be pretty damp at the seaboard, and, if these localities that so loudly clamor for more money had all the currency they wanted, that same currency would be a drug in banking centers. There is money enough, and the range of interest for the past year has been phenomenally low, and, as before stated, any bank in any part of the country could have had any quantity of money transported to it at the moderate charge of 15 to 50 cents per \$1,000. But such bank must have the equivalent of money; it must have securities, or receivables, or some form of credits, acceptable, in order to get the money. And right here is the trouble. This clamor for more money comes from the newer, lessdeveloped sections of the country, and from people who have something to sell that no one wants to buy. The securities they offer do not commend themselves to investors. No amount of currency would correct this. They say, "Money is plenty while the crop is being moved, but we want it plenty at all times." When the crop is gone, what have they to represent money, with which to buy money? People can get money for their labor and for their produce. They can borrow upon good collaterals, real or personal. People with any equivalent of money can get it. This whole trouble is born of the heresy, which has a strangely extended hold upon the public mind, that the Government can create wealth and that if there were more money people could, in some unexplained way, obtain it without rendering an equivalent.

A conditional repeal of this 10 per cent tax is proposed, conditioned upon compliance by the State banks with certain regulations imposed by Congress, designed to secure circulation and protect note-holders Such State banks would then be national banks for the purpose of issuing circulating notes, and Congress must provide for their supervision and examination, to see that the laws are complied with. Can currency be better taken out by a bank organized under a State law than under an act of Congress? Would Congress or the country gain anything by the proposed divided jurisdiction over these banks of issue? Would not division lead to conflict and confusion? All national banks make reports of condition to the Comptroller, on a past day, fixed by him, in such form as the Comptroller prescribes, and upon blanks furnished by him. These forms are very complete as to balance sheet and detail. In order to comply with these calls a bank's books must be so kept as to furnish the required information. These reports are of very great value to the banks themselves, in systematizing their bookkeeping and insuring good and uniform methods of business. information reported, all on the same date, is of great value to the pub-What would be gained by denationalizing our banks in all respects. except as to circulation? Can the various State legislatures be depended upon to provide better laws and better supervision than Con-

It is argued that 92 per cent of all business transactions consummated through banks are represented by credits—that is, exchanges and offsets—and that 8 per cent only is represented by money. The Government does not assume to regulate the 92 per cent. Why should it the 8 per cent? Why not as well allow State bank notes to circu-Their acceptance is purely voluntary. That statement is theoretically true, but practically it is wholly false. A banker, or large merchant or manufacturer, may be in a position, equipped with skilled men or expert information, to exercise discrimination between the strong and the weak banks. But what can the artisan, the day laborer, the miner, or the farmer know of such a matter? From the nature of their calling they can exercise no discrimination. They know, and they can only know, that the Government allows such bills to circulate, in form and semblance of money, and they have the right to hold the Government responsible that it be worth 100 cents on the dollar, whether it comes from New York or New Mexico.

The Constitution of the United States prohibits the States from coining money or making anything except gold and silver legal tender. State-bank bills could not become a legal tender. Neither are nationalbank bills. State-bank bills when issued add just so much to the liabilities of the bank. They would circulate freely in times of prosperity and confidence. In times of monetary stringency and general distrust they would return to the banks for redemption. They would have to be redeemed in legal-tender money provided by Congress. Congress must, under the Constitution, provide all the money that possesses a full debt-paying power. By every consideration of sound business principles it should provide all the money that the country requires. No public interest can be served by dividing this function with the forty-four States. Every period of financial depression in the past resulted in the suspension of specie payments, more or less general, by the banks; that is, resulted in the inability of the banks to redeem their notes. The same conditions would produce similar results in the future. If State-bank notes are allowed to circulate, their acceptance is not voluntary; it becomes a business necessity. Many mine-owners, manufacturers, and large employers of labor practiced paying their help in store orders, in order to control their trade and make the extra profit. Surely, under the law, the acceptance or rejection of such orders was purely voluntary, and yet their acceptance for fear of losing their employment was general.

So great did this abuse become that many States have enacted laws compelling corporations to pay their laborers, at regular intervals, in money. The wealthy class could provide themselves with the means of discriminating against the notes of weak banks, and if they found themselves possessed of any would proceed to work them off upon their less fortunate neighbors. That is the record of the past. It would be the experience of the future. To the average laboring man a bank-note reporter and detector would be as inexplicable as the binomial theorem. When a bank suspends, the fact that the note is secured and will be eventually paid is poor consolation to the laborer who needs his money for his daily use. The note of a failed national-bank is as good as that of any bank in the system. The restoration of State-bank circulation portends disaster to that class of our citizens who most need and have most right to ask protection from the Government. State-bank circulation loses its money power in a crisis. It is a source of weakness and adds to the danger. Instead of paying debts it comes forward itself to be paid.

#### CLEAN MONEY.

Currency, as applied to the money of a country, has been defined as a "continuous succession of uses." A little reflection upon such continuous use, the journey from hand to hand, till to till, pocket to pocket, over the damp counter of the saloon, through the necessarily soiled hands of honest industry, treasured by the poor and carried in close proximity to the person, it is easy to realize that it becomes "filthy lucre." Soiled

paper money is popularly believed to be a potent means of disseminating infectious and contagious diseases. The Bank of England never reissues a note.

The statute provides for the redemption of United States notes when they-"are so mutilated or otherwise injured as to be unfit for use," and for the redemption of national-bank notes when they are "worn, defaced, mutilated, or otherwise unfit for circulation." A note with the accumulated filth of continuous use is unfit for circulation and should be redeemed. Send in the old and let the people have new and clean money. My experience as examiner in the discount and savings banks of New York has impressed this matter upon me.

The following table gives the number of banks organized during the year ended October 31, 1892, in each State and Territory, with their

aggregate capital:

States and Territories.	No. of banks.		States and Territories.	No. of banks.	Capital.
Texas. Iowa. Indiana Ohio. Pennsylvania Illinois. Minnesota Washington Massachusetts Wisconsin West Virginia Colorado Idaho New Hampshire New-Jersey Kansas Montana Tennessee Maine. Indian Territory	13 12 11 10 9 9 8 7 7 5 5 4 4 4 3 3 3 3 3	\$1, 445, 000 725, 000 1, 110, 000 2, 000, 000 700, 000 700, 000 650, 000 500, 000 260, 000 250, 000 250, 000 250, 000 250, 000 250, 000 250, 000 250, 000 160, 000 150, 000 150, 000	New York California New Mexico Oklahoma Wyoming Missouri Virginia Georgia North Carolina Arizona Alabama Florida Rentuck Maryland Michigan Noth Dakota Utah	2 2 2 1 1 1 1 1 1 1 1	\$300, 000 150, 000 100, 000 100, 000 200, 000 125, 000 100, 000 100, 000 100, 000 100, 000 100, 000 50, 000 50, 000 50, 000 50, 000 50, 000

In point of numerical accessions to the system, Texas leads with twenty-two banks; Iowa, Indiana, Ohio, and Pennsylvania following in the order named. Illinois, however, provided the largest amount of capital. It has been noticeable for several years that the large proportion of increase in the number of active national banks is assignable to those States and Territories located West of the Mississippi River and in the Southern States. Of the one hundred and sixty-three banks organized during the past year, eighty-two are located in States and Territories west of the Mississippi, and thirty-six are located in the Southern States. Pennsylvania still has the greatest number of national banks in operation, Massachusetts the greatest aggregate capital, and New York the largest amount of deposits. As prosperity and population increase in the western portion of the country, extending from north to south, so the privileges of the national banking system are availed of in contrast with private banks and other financial corporations organized under State laws. During the past year the seventeen failures were widely distributed, there having been three in Kansas; in New Mexico and Texas two each, and in other States only one. The following table exhibits the number of banks organized, failed, and in voluntary liquidation, and the net increase or decrease, numerically, each year since 1863:

NUMBER AND AUTHORIZED CAPITAL OF BANKS ORGANIZED AND THE NUMBER AND CAPITAL OF BANKS CLOSED IN EACH YEAR ENDED OCTOBER 31 SINCE THE ESTAB-LISHMENT OF THE NATIONAL BANKING SYSTEM, WITH THE YEARLY INCREASE OR DECREASE.

Total net increase						,	*3, 786	†551, 128, 782		

\*Two banks restored to solvency, making 3.788 going banks. † The total authorized capital stock on October 31 was \$693,868,665; the paid-in capital, \$692,812,330, including the capital stock of liquidating and insolvent banks which have not deposited lawful money for the retirement of their circulating notes.

As stated elsewhere with more particularity, the failures during the past year were not disastrous, and in proportion to the number in active operation were not so numerous as in some preceding years.

#### AMENDMENTS TO THE LAWS.

The Comptroller of the Currency is required annually to report "any amendments to the laws relative to banking by which the system may be improved, and the security of the holders of its notes and other

creditors may be increased."

(1) In my judgment the law should be amended so as to provided as follows: That the minimum deposit of Government bonds, required by national banks, be reduced to \$1,000 in case of banks of \$50,000 capital, and to \$5,000 in cases of banks whose capital exceeds \$50,000. Such deposit would be sufficient to guarantee the payment of all expenses and assessments imposed by law. Banks are no longer organized for the purpose of issuing circulation, and when organized to do business as banks of discount and deposit it is clearly a hardship to require them to purchase these high-priced Government bonds beyond the amount above suggested.

(2) That any national bank be allowed to issue notes equal to the par value of the United States bonds which it may purchase and assign to the Treasurer of the United States for the purpose of securing circulation.

- (3) That the monthly withdrawal of bonds pledged to secure circulation shall not exceed four and a half millions in the aggregate. Should withdrawals equal the amount named in any month (which is unlikely) such amount would be offset by the additional circulation issued under the second amendment suggested.

(4) That the tax on national bank circulation be repealed. The banks have already paid into the Treasury \$72,670,412.30 in taxes upon circulation. The banks should only be assessed an amount sufficient to defray the actual cost to the Government of providing circulation.

(5) That the limit of the amount which may be loaned to any person, company, corporation, or firm, to 10 per cent of the capital stock of the bank, be so amended as to read "capital and surplus." There should be an additional amendment making an exception in favor of temporary loans, secured by collateral, in our largest business centers.\*

(6) That the Government issue bonds, with a long period to run and at a low rate of interest, with which to retire the present bonded debt of the United States, and which bonds may be used as a basis to

secure national-bank circulation.\*

(7) That the Comptroller of the Currency, with the approval of the Secretary of the Treasury, be empowered to remove officers and directors of a bank for violations of law, leaving the vacancy to be filled in the usual way; first giving such officers and directors an opportunity to be heard.

(8) That bank examiners be required to take an oath of office before entering upon the discharge of their duties, and to give a bond in such amount and with such sureties as the Comptroller of the Currency may

require.

(9) That the Comptroller of the Currency be allowed to appoint two general examiners, of conspicuous ability and experience, to be paid out of the public funds, whose duty it shall be to visit, assist, and supervise the various examiners in their several districts, in order to secure uniformity in method and greater efficiency in work.

(10) That the law be so amended as to prohibit officers or employés of a bank from borrowing its funds in any manner except upon appli-

cation to and approval by the board of direction.

(11) In order to facilitate the collection of assessments upon shareholders in failed national banks, that the receivers of such banks be required to file with the county clerk or register of each county where any shareholder may reside a statement showing the names of shareholders residing in such county and the amount of stock held by them respectively; the filing of such statement to constitute a lien upon the realty of such shareholders, which lien may be vacated, upon motion, by giving proper bond, and which shall be discharged, by the receiver, upon payment of the assessment.

(12) Section 380, United States Revised Statutes, reads as follows:

All suits and proceedings arising out of the provisions of law governing national banking associations, in which the United States or any of its officers or agents shall be parties, shall be conducted by the district attorneys of the several districts, under the direction and supervision of the Solicitor of the Treasury.

Under this section it is claimed that United States district attorneys are ex-officio attorneys of the receivers of all failed national banks

located within their respective districts, and that all suits and proceedings must be instituted by or through them. It is difficult to believe that the courts will finally sustain such a construction, that a simple action for debt, which can be maintained in a State court as well as in the United States court, and is not based upon any provision of the national-bank act, falls within the provisions of said act, or that a receiver of a failed national bank is an "agent" of the United States

It is difficult to believe that Congress has the power to impose the services of any attorney upon such a trust, where the assets are wholly private property, belonging to creditors and shareholders. Certain it is that had Congress intended that such a broad construction would be put upon this section it would have made some provision for exceptional cases. It is a physical impossibility for the various United States attorneys to act as attorney or counsel for the receiver. In many instances they reside several hundred miles distant from the trust. In other instances there are so many trusts within a single district that the United States attorney can not attend to all the business to be done. The result in such cases is that where United States attorneys insist upon being employed they become attorneys of record, nominally appearing in all actions or proceedings, while some resident attorney does the actual work. As a consequence the trust is obliged to pay double fees for having its work done.

If the United States attorney must be employed in accordance with the above section, then every time there is a change in such officer it would necessitate the substitution of his successor in office, thus bringing in an entirely new man, with no familiarity with the pending litigation. Under such circumstances the usual practice has been to retain the ex-district attorney as counsel, thus producing a double

charge for the services rendered.

within the meaning of said section.

Many United States attorneys make no claim to be employed. Others when confronted with the situation relinquish their claim, but still others insist upon being employed, and, when not employed, insist upon being paid a fee for every act that is done by the attorney in the regular administration of the affairs of the trust. The Department has in its possession bills rendered by United States attorneys who have never performed any act for the benefit of the trust, have never been consulted by the receiver, and never in any way had any connection with the affairs of the failed bank, except to ascertain from the record what suits and proceedings had been instituted and then have made such suits and proceedings a basis of claim for compensation.

I append a table showing the various failed banks, their location, and the location of the different United States attorneys who would have to be employed by the receiver in case the construction sought to be placed upon section 380 is a proper one. Also, the distance at which such United States attorneys are located from the respective

trusts.

From this table will clearly appear the physical inconvenience, if not impossibility, of these United States attorneys acting as attorneys for various receivers. Surely these attorneys ought not to be paid for what they can not and do not do. These trusts should not be subjected to double fees, and the above section should be amended so as to provide that attorneys other than United States attorneys may be employed by receivers of failed banks, whenever in the opinion of the Comptroller of the Currency such employment will be for the interest of a trust.

#### CLOSED NATIONAL BANKS.

The following statement exhibits the title, capital, and circulation issued, redeemed, and outstanding of associations which were closed to business during the year ended October 31, 1892. Of these 70 associations, 53 went into voluntary liquidation and 17 into the hands of receivers.

The gross liabilities of the seventeen banks which failed during the year were \$12,538,448. The estimated value of the assets is \$10,750,347, or \$5.74 per cent of the liabilities.

Five of these banks failed prior to December 1, and their failure was the result of the quasi panic of 1890 and 1891, and a continuation of the bank failures which characterized the year immediately preceding.

The Maverick National Bank of Boston had liabilities of \$8,727,833, or more than two-thirds of the total liabilities of the banks failing during the year. Aside from that institution the failures were inconsequential in amount, and, as noted above, the probable loss to creditors is less than the average for previous years.

No bank has failed since July 6, 1892.

### DOMESTIC EXCHANGES.

One of the great values which the national-bank system possesses is the facility it affords for obtaining accurate statistical information as to the course and character of business. With nearly four thousand banks, representing nearly every locality and every business interest, under central supervision, it is within the power of the Comptroller of the Currency to obtain data showing exact conditions of business at stated time or times.

For the purpose of showing the course and magnitude of business of the banks, my predecessors have called for the exchanges drawn by the different banks upon each other and upon the reserve and central reserve cities for a certain year. These exchanges represent the settlement of balances between the different banks and correspond exactly with the cash balances paid or received by the different banks, in settlement of their exchanges in our clearing-house cities. My immediate predecessor, Mr. Lacey, called for such information for the year ended June 30, 1890, and June 30, 1891.

Thinking that the monetary stringency that prevailed in the fall of 1890 and the early part of the year 1891 might be thought to impair the value of statistics for these years, as a criterion, I have also obtained like information for the year ended June 30, 1892. Thus we have three successive years, covering what may be fairly termed a sample period, and the information set forth in the following tables may be accepted as fairly reflecting the volume and character of the business of the banks for the periods covered, hence it will be unnecessary to call for similar information from the banks for some years to come.

Out of the 3,759 banks called upon, 3,647 complied with the Comptroller's request and furnished the data for the following table:

AMOUNT OF DRAFTS DRAWN BY NATIONAL-BANKING ASSOCIATIONS UPON NEW YORK, CHICAGO, ST. LOUIS, THE OTHER RESERVE CITIES, AND ON ALL OTHER LOCATIONS, THE NUMBER OF BANKS DRAWING UPON EACH CITY, AND THE PERCENTAGES OF DRAWINGS IN 1892.

· · · · · · · · · · · · · · · · · · ·

Total		12, 782, 212, 495	100.00		11, 550, 898, 255	100.00	

<sup>\*</sup>The total amount of drafts drawn upon other reserve cities (not shown in detail in 1890) in 1891 was \$3,101,005,735 and the percentage 24.25.

From the preceding table it will be observed that the percentage of exchange drawn upon New York, Boston, and Philadelphia shows a slight loss each year, while the percentage drawn upon Chicago and St. Louis shows a slight increase, indicating that, with the growth and increase of wealth in the interior of the country, the proportionate amount of business done by these large interior cities is increased out of proportion to the seaboard cities.

The following table shows the number of banks drawing and the amount of exchange drawn by all the national banks reporting, classified by States and arranged in the order of the total amounts drawn, further subdivided so as to show the operations of the banks in reserve cities, and other banks, separately, during the year ended June 30, 1892, to which has been added a column giving corresponding totals

for the years 1891 and 1890:

AMOUNT OF DRAFTS DRAWN BY ALL REPORTING BANKS IN 1892, 1891, AND 1890.

In connection with these tables, showing the vast volume of business done by these banks, the question naturally suggests itself: What is the cost of this business to the public and what character of service is rendered to the public by these banks?

Answering this question the Comptroller, in 1890, obtained data from which he submitted a table showing the amount of premium charged on each \$100 of exchange drawn, stated in cents, fractions thereof being omitted.

The table referred to is here reproduced.

Cents.   C	States and Territorics.	Rate of ex- change on \$100.	States and Territories.	Rate of ex- change on \$100.
7	New Hampshire Delaware Maryland District of Columbia Kentucky Massachusetts Connecticut Vermont New York New Jersey Ohio Missouri Maine Pennsylvania Kansas Nebraska Illinois Virginia Indiana Minnesota Utah. Washington Wisconsin	1 1 4 4 4 5 5 6 7 7 7 8 8 8 8 8 9 9 9 9 9 9 10 10 10 11 11 11 11 11 11 11 11 11 11	North Dakota South Dakota Michigan West Virginia California Montana Wyoming Colorado Idaho. Louisiana South Carolina Mississippi Oregon. Florida Tennessee Alabama Georgia North Carolina North Carolina North Carolina Alabama Georgia North Carolina New Mexico Arkansas Arizona Nevada Texas	11 11 12 12 12 12 13 13 13 14 14 14 15 15 17 17 18 18 18 18 18 18 20 20

This table shows an average of 8½ cents on each \$100 of exchange drawn by all of these banks; that is, exchange drawn on each and every one of their correspondents with whom they may have had deal-

ings during the year.

In order to give a more full and practical illustration of this subject, I have this year prepared data showing the total amount of exchange drawn by the various banks reporting to have been \$12,994,959,590, and the total commissions charged to have been \$3,343,736, or an average of .03 of 1 cent on the \$100 of exchange.

Contrasting the current rates charged by the banks (when they make any charge at all) with the statement just made, and we see what a vast amount of exchange is drawn without any compensation whatever. The following statement shows in fractional parts of a cent the average charge per \$100 for exchange drawn by national banks in each State during the year ended June 30, 1892:

States and Territories.	Average charge per \$100.	States and Territories.	Average charge per \$100.

Missouri	. 02	Average United States	.03

In order to mark the progress made in banking and emphasize the improvement in the service which railroad, express companies, and telegraph facilities afford and bring into proper prominence the extent to which the bank service to the public has been cheapened, as well as enlarged and improved, I insert here, for the purpose of comparison or contrast, two tables taken from Elliott's Funding System, showing the cost of exchange and the charges which the public were required to pay at the dates therein mentioned.

<sup>\*</sup> New York, resumption, May, 1838. † General resumption, February, 1839. ‡ Resuspension, November, 1839.

The competition for bank accounts takes various forms. Interest is paid upon average balances, exceeding certain amounts, in many cases. But the usual method of rewarding depositors for keeping balances is taking their collection items and crediting the same as a cash deposit, and giving them the exchange required in course of business at par. The fact that the average commission received by the banks on each \$100 of exchange sold is three hundredths of 1 cent shows conclusively what an enormous amount of business is done by the banks gratuitously, or without direct charge. The number of banks reporting exchange drawn this year (3,647) is 10 greater than last year. The volume of exchange drawn is greater by \$212,747,095. If to the \$12,994,959,590 reported by the 3,647 banks we add for the remaining 112 national banks, and then take into consideration the exchange that must have been drawn by the 4,520 private bankers and State banking institutions other than savings banks, whose general condition is set forth in a subsequent portion of this report, we shall have a grand total of exchange drawn by all the banks, approximating \$17,500,000,000. A bank having a balance to settle with another bank does so by remitting a draft upon some bank where it has a balance, usually upon New York City. Drafts on New York are at a premium in most parts of the country, seldom at a discount in any place. Thus by a system of draft remittances the obligation of one interior bank to another drifts into our money centers for collection, goes into the volume of the exchanges, enjoys the economy of every possible offset, and this great volume of business is transacted and all balances adjusted by the actual shipment of a very small amount of money.

### SUBSTITUTES FOR MONEY.

The subject of the currency of the country, always one of interest and importance, is especially so at the present time, because of the differences which obtain in the minds of the people in regard to what the currency should be and under what authority it should be created.

It will appear from the statistics given in this report to what extent the use of money is minimized by means of clearing-house organizations in our principal cities, and, for the purpose of showing to what a limited extent actual money enters into the business transactions of the country, I have followed the precedent set by my predecessors in office in 1881 and 1890 and asked all the banks under the supervision of this

Bureau to report all receipts for the 15th day of September, 1892,

separately stated and classified.

My object in this report has been to furnish reliable data from which the public could see and realize how small a percentage of business transactions are represented by actual money, and how impossible it is for the Government to furnish a volume of currency sufficient to meet the wants of the people at all times—that is, in time of general distrust or quasi panic.

Over 90 per cent of all business transactions are done by means of credit. When the public lose confidence and credit is impaired and refused, over 90 per cent of all business transactions are directly affected. It is easy to realize how impossible it is for the remaining 10 per cent of money to carry on the business of the country without mon-

etary stringency and financial distress.

The refusal to extend or continue credit, the demand for payment in money, leaves the actual money or currency of the country, be it \$24 per capita or \$50 per capita, utterly powerless to supply business needs.

Out of the 3,759 banks reporting their condition on July 12, reports were received from only 3,473 in time for insertion in this report. Those failing to report were the newer and less important institutions, hence the data received may be taken as fairly representing the business of the country.

The total receipts of the 3,473 banks on September 15, 1892, were \$331,205,213. September 17, 1890, 3,474 banks reported total receipts of \$327,278,251. The classification is the same and the percentage

slightly varies.

The following table shows the character, amount, and percentage of receipts of national banks on September 15, 1892:

	September	15, 1892 .
Character of receipts.	3,473 banks.	Percentage of total receipts.
Gold coin. Silver coin. Gold Treasury certificates Silver Treasury certificates. Legal tenders. Treasury notes National bank notes United States certificates of deposit for legal tenders. Checks, etc Clearing-house certificates Exchanges for cleaning house Miscellaneous	1, 372, 054 3, 407, 340 6, 537, 015 8, 531, 514 2, 675, 269 3, 454, 483 2, 210, 000 154, 959, 059 2, 691, 829	. 88 . 44 1. 00 1. 9' 2. 56 . 8 1. 00 . 6' 46. 7' . 8 42. 8'
Total	. 331, 205, 213	100.

From the above table it appears that 9.39 per cent of the transactions were represented by actual cash, the balance by checks, drafts, exchanges, and other substitutes for money.

The following table shows the character, amount, and percentage of receipts of national banks in the central reserve cities, etc., on September 15, 1892:

Character of receipts.	New York.	Chicago.	St. Louis.	Other reserve cities.	Country.	Total.	Percent- age of total re-

The following table compares the several cities with the total country banks:

Number of Banks, Total Receipts and Percentage of such Total, of Checks, etc., Received in New York and 22 of the Other Principal Cities, September 15, 1892.

Cities.	No. of banks.	Receipts.	Percent- age of checks, etc.
New York.	48	\$130, 976, 963	92.36
Chicago St Louis Boston Albany Philadephia Pittsburg Baltimore Washington New Orleans Louisville Cincinnati Cleveland Detroit Milwaukee Kansas City St Joseph Omaha Brooklyn St Paul Minneapolis San Francisco	3 9 4 9 4 5 7 2	25, 078, 114 2, 390, 070 27, 339, 245 1, 175, 496 23, 369, 882 4, 102, 424 4, 836, 972 1, 498, 735 950, 421 6, 137, 507 1, 835, 994 1, 658, 194 684, 552 4, 168, 021 610, 775 3, 190, 258 1, 124, 720 2, 382, 940 2, 195, 787 510, 393	94. 52 87. 83 93. 11 95. 32 90. 02 82. 46 66. 65 87. 16 91. 86 92. 79 91. 82 90. 93 93. 46 91. 63 95. 76 81. 55 97. 00 96. 60 83. 33
Total	281	333, 440 116, 514, 324	92.74
Total all cities Banks elsewhere	329 3, 144	247, 491, 287 83, 713, 926	92.54 84.91
Total United States	3, 473	331, 205, 213	90.61

It will be noted that 74.72 per cent of the total receipts are reported by the 329 city banks, showing an increase of over 2 per cent by the country banks and a corresponding loss by the city banks, as compared with 1890, thus indicating a greater percentage of growth by the

county banks.

In order to facilitate comparison the following table is given comparing the data obtained for September 15, 1892, with both July 1 and September 17, 1890, showing the proportions of gold coin, silver coin, paper money, and checks and drafts, including clearing-house certificates, to the total receipts in New York City, in other reserve cities, and in banks elsewhere, separately, and also the proportions for the United States:

JULY 1, 1890.

In order to further facilitate comparison, a series of tables has been prepared, the first of which shows the amounts received by banks located in the city of New York on each of the five dates, June 30 and September 17, 1881, July 1 and September 17, 1890, and September 15, 1892, separately stating gold coin, silver coin, paper currency, and checks and drafts:

Y 1 00	June 30, 1	881.	September 1	7, 1881.	July 1, 1	890.
New York City.	48 bank	S.	48 bank	s.	47 bank	is.
Gold coin	\$460, 994 15, 997 1, 706, 604 165, 254, 164 167, 437, 759	Per ct. . 27 . 01 1. 02 98. 70	\$905, 588 7, 857 1, 071, 316 163, 208, 586 165, 193, 347	Per ct54 .01 .65 98.80	\$140, 574 32, 758 -6, 396, 749 159, 353, 301 165, 923, 382	Per ct. .08 .02 3.86 96.04
New York City	у.		September 1		September 1	
Gold coin			\$70, 173 20, 948 5, 174, 467 115, 185, 884 120, 451, 472	Per ct. . 05 . 02 4. 29 95. 64	\$87, 636 50, 331 9, 863, 806 120, 975, 190 130, 976, 963	Per ct 07 04 7 . 53 92 . 36 100 . 00

The changes indicate a marked increase in the amount of paper currency received, the extremes being represented by .65 per cent on September 17, 1881, and 7.53 per cent on September 15, 1892. The decrease in gold coin is more marked than in the increase in silver.

The diminished proportion of receipts in checks and drafts is very remarkable, the average per cent for the two days in 1881 being 2.91

per cent greater than for the average of the two days in 1890; Septem-

ber 15, 1892, is 3.28 less than September 17, 1890.

Another fact which attracts attention is that the receipts of the forty-seven banks on July 1, 1890, are very nearly the same in the aggregate as those reported by forty-eight banks on September 17, 1881, and slightly less than for June 30, 1881. The receipts for September 17, 1890, show a very marked falling off in amount, but the percentages differ very slightly from those shown on July 1, 1890. The increase in paper currency (3.24) nearly equals the decrease in checks, as shown September 15, 1892. The receipts of the banks in all reserve cities, exclusive of New York, similarly arranged, appear below:

All reserve cities * except New	June 30, 1	.881.	September 1	7, 1881.	July 1, 1890.

#### PERCENTAGE OF TOTAL RECEIPTS BY ALL BANKS.

Banks in four principal cities and elsewhere.	June 30, 1881.	September 17, 1881.	July 1, 1890.	September -17, 1890.	September 15, 1892.
New York Boston Philadelphia Chicago Average of four cities Other reserve cities Average of all reserve cities All other banks	58. 81	55. 95	39. 34	36. 80	39, 55
	11. 62	8. 16	10. 30	8. 11	8, 23
	6. 34	6. 04	9. 03	7. 11	7, 07
	2. 86	4. 41	5. 78	6. 92	7, 57
	19. 91	18. 64	16. 11	14. 74	15, 60
	6. 26	7. 78	13. 73	14. 73	12, 30
	5. 37	5. 15	3. 55	3. 35	3, 35
	14. 11	17. 66	21. 82	26. 33	25, 28

The most conspicuous change to be noted in the above table is the increase in the percentage of country banks from 14.11, June 30, 1881, to 25.28 on September 15, 1892.

The variation in the percentage of the different kinds of money, checks, and drafts received, as shown in the statistics for September 15, 1892, do not essentially vary from those of 1890 and 1881. They fully confirm the general character of the banks' transactions. There has been a noted decrease in the amount of national-bank notes received and a corresponding increase in silver certificates and Treasury notes, caused by the retirement of national-bank circulation and its supplanting by money issued directly by the Government. The percentage of checks and drafts in New York in September, 1881, was 98.80; in September, 1890, 95.64, and in September, 1892, it was 92.36, showing a decrease for each of the three years reported, and a corresponding increase in the amount of cash received by the banks over their counters, which brings the cash receipts of the banks in the city of New York very near to the average of the whole country. The average percentage for all other reserve cities shows no material change.

### IMPRUDENT METHODS.

The management of the national banks, as a whole, is entitled to the highest commendation for efficiency and conservatism. Banks that were disastrously affected, by continual crop failures, in certain sections of he country, are realizing the benefit of last year's bountiful harvest, and when their patrons realize upon this year's crop it is confidently expected that their condition will be made satisfactory. The maxim that disaster usually overtakes any business when too much extended applies equally to banking, and syndicate banking illustrates this rule. Where the same parties organize a series of banks it usually transpires that they are not seeking investment for their own capital, but seeking the capital of others to invest. Such banks afford unusual facilities for "kiting," and it is with this class that much trouble is experienced. The competition for bank accounts among banks in reserve cities is so intense that "promoters" find it easy to establish a bank, open an account with their reserve-agent bank in some city, and the president or cashier secures from such reserve-agent bank a loan upon his stock as collateral. By opening several such accounts the entire stock in some instances is used as collateral, and these "promoters" need but the 10 or 20 per cent margin required (in other words, \$5,000 or \$10,000) in order to start a bank. The opening of such accounts and making of such loans are coincident in point of time, or so nearly so that the creditor bank must know that they are furnishing capital with which to float the new enterprise. This results in organizing many banks where they are not needed, and are too frequently attended by loss to all parties connected with the enterprise.

Another practice that is made possible only by the assent of creditor banks, is borrowing money on certificates of deposit. A country bank wants to borrow money, issues its certificate of deposit, either time or demand, in favor of the city correspondent, and sends the same forward, accompanied by bills receivable as collateral, and requests the loan, which is granted. As a result, the country bank adds to its liabilities by increasing the amount due depositors, and adds to its assets by increasing the amount due from banks, and its published report of condition shows no bills payable. In other words, does not show the true condition of the bank. It is perfectly legitimate and proper for a bank to rediscount its receivables or borrow money, and all interior banks do at certain seasons of the year, when crops are being moved, for instance. Whatever the form of instrument used in borrowing money,

it is a bill payable and should be so reported. Reserve banks can aid the cause of good banking by requiring notes instead of certificates of deposit. Happily this practice is rapidly diminishing.

#### DIRECTORS AND OFFICERS.

The statute provides that five or more persons may organize a na-When it is fully organized and all preliminary requirements have been complied with, the Comptroller issues his certificate of authorization to commence the business of banking. The management of the bank is vested in a board of direction, who act through their executive officers, president and cashier. The common and statute law define their powers and prescribe the range and limits within which they may do business. Shareholders invest their money because of their faith in the efficiency of the manngement, their ability to acquire business, and successfully and profitably to manage it. It is a business venture on the part of the shareholders, with which the Government has no more to do and no more solicitude than it has with the purchase of a farm or stock in a manufacturing enterprise. The shareholders elect the board of direction, and through such board manage their banks. Hence for them to claim protection, through Government control, would be to claim protection against their own acts. But these banks issue notes which circulate as money, and it being the duty of the Government to provide and regulate a circulating medium for the people, the Government examines and supervises these banks to see that all laws in respect to circulation are fully complied with.

This is apparently all that was originally contemplated as to national banks. But these banks furnish the instrumentality of exchange—the means of collection and payment of debts. They become large depositaries of the people's money (\$1,765,422,983.68 at date of last report), by means of which their business is largely transacted. They are so intimately connected with business transactions and their soundness so essential to business prosperity that governmental control has gone one step further and seeks to protect the public against loss—to protect a bank's creditors. To this end all shareholders in national banks are liable to an assessment for the purpose of paying creditors, to an amount equal to their stock holdings. Thus the entire capital stock, plus an assessment for an equal amount, becomes a guaranty of the faithfulness of the direction. The function of the Government is to restrain, to insure good banking, by enforcing the prohibitions against unsafe practices, which the law provides. The affirmative action of the banks in their competition for business is left to the enterprise of their managers, prompted by the desires of shareholders for dividends.

Directors give direction and control to the business of a bank, accept or reject credits, and should understand its general condition. The detailed workings of the banks must be intrusted to the officers and employés. We can have nothing better than men. Men make our laws and men enforce them. Men manage our banks. No matter how elaborate the system, how numerous the checks upon error or upon wrongdoing, or however perfect the machinery, the machinery must be set in motion and the system be enforced by men. There is in every system a point where good or ill results depend upon the character of the men in charge. If an engineer wants to ditch his train he can do so. If the president or cashier of a bank wants to rob it, he can. Well-devised systems may make it difficult. Efficient supervision may make it dangerous. The law may punish and risk thus be reduced to a minimum,

but nothing can prevent a dishonest man in charge from mismanaging. Hence the chief and most important duty of directors is to select officers of character as well as experience and ability. They can best protect themselves and best serve the public by so doing. Our worst bank failures reveal criminal conduct on the part of the directors, or neglect of duty approximating criminality. Serious as this defect is, its correction by legislation involves a counter danger. Legislation aimed at a few banks affects all.

In our large cities it is very difficult to get the most desirable men to act as directors. Those most actively engaged in business are the best judges of credit, can least afford to give attention to the duties of the office, and would most readily decline to serve. Legislation increasing the financial responsibility of directors for losses to creditors would depreciate the character of boards of direction and render the task of

getting good, responsible men more difficult.

There is no reason why a director should not borrow money of his bank upon the same terms and conditions that other patrons are accommodated. There is every reason why he should not take advantage of his position to secure better rates or greater accommodations than his bank equities entitle him to. Officers of a bank should not be allowed to borrow money by overdrawing their accounts, by putting tickets in the cash, by discounting their own notes, or by discounting their business paper, or in any way except by application to the board of directors; and a law regulating such loans would be a wise enactment.

### EXCESSIVE LOANS.

# Section 5200 United States Revised Statutes reads as follows:

The total liabilities to any association, of any person, or of any company, corporation, or firm for money borrowed, including, in the liabilities of a company or firm, the liabilities of the several members thereof, shall at no time exceed one-tenth part of the amount of the capital stock of such association actually paid in. But the discount of bills of exchange drawn in good faith against actually existing values and the discount of commercial or business paper actually owned by the person negotiating the same shall not be considered as money borrowed.

As the volume of business has increased the magnitude of individual transactions has proportionately increased, in fact the concentration of capital under single management, by means of large corporations and by combinations, has been phenomenal. The natural economies attendant upon wholesale business, the lower rates of transportation and facilities of distribution, which location at metropolitan and railroad centers insures, is fast driving the small manufacturers out of business and concentrating business in metropolitan centers. All this increases the magnitude of separate transactions. Hence if 10 per cent of the capital stock was a proper limit to individual loans in 1864, the percentage of limitation should now be increased in our larger cities.

There is another important reason for such an increase. In the "sixties" banks did business upon their capital, supplied the wants of their customers, and earned their dividends with the money which shareholders supplied. Now, capital is made just sufficient to command public confidence. Usually a large surplus is accumulated, but the business is done upon depositors' money. Every symmetrical and well-managed business has its flush season, when its bank account should show a good balance and its want season, when it legitimately calls upon its bank for funds. Thus the balances of certain industries supply the wants of others and large bank capital is not required. Sur-

plus belongs to the shareholders, and, aside from statutory definition, is as much capital as the money originally paid in by shareholders. The section quoted should at least be amended so as to read, "one-tenth of the capital and surplus." It should be noted that many banks, upon advice of counsel, insist that "surplus" is "capital" within the meaning of said section.

In addition to including surplus with capital, as noted above, an exception to the one-tenth limit should be made in favor of temporary

loans, well secured with collateral, in our largest cities.

In my judgment, the limit to 10 per cent of capital and surplus is none too small for rural and interior banks. The above section may be amended as to the large cities, so as to conform to the necessities of business and still be in strict accord with the requirements of conservative banking.

When so amended, there would be no more wholesome provision of the banking law, for, while there are instances where banks with welldistributed assets have failed, caused by repeated crop failures or extreme monetary stringency, or some cause affecting the whole community, the common history of bank failures reveals as the superinducing cause the concentration of the bank's funds in a few hands or

in a few interests.

Experience has demonstrated that a strict compliance with the 10 per cent limit is impracticable in our large cities, for the reason that it is contrary to the necessities of business. A bank with a million capital could loan but \$100,000 to any individual, company, corporation, or firm. Single business transactions involving a larger amount are of frequent occurrence, and to divide one transaction between two or more banks would prove troublesome and is not demanded by conservative banking. For instance, a draft may be made against one consignment of grain for \$200,000, and the consignee needs to borrow \$150,000 upon the bill of lading as security. The security can not be divided; neither can the loan, in a practical sense.

Bank managers can not always gauge the business wants of the day, and frequently find, late in the day, that they have more money than their required reserve. Rather than carry it over night in their vaults they make over night loans as best they can. This necessarily results in loans in excess of the 10 per cent limit. A lower rate of interest is usually realized on such loans than obtains earlier in the day, and the

loan is expected to be, and usually is, paid the next day.

The penalty for the violation of this law—the commencement of an action by the Comptroller of the Currency, through the Attorney-General, to forfeit the bank's charter—is so severe as to render it nugatory. It was doubtless made severe to prevent vexatious interference with the affairs of the banks. It is difficult to fix a cast-iron rule, with inflexible penalties, without doing more harm than good. During the quasi panic of 1890 many perfectly solvent firms were embarrassed for want of money, and but for indulgences and aid upon the part of the banks must have failed. They already had their full complement of bank accommodation. The banks found upon investigation that they were solvent, and, taking security, gave them additional accommodations, thus protecting themselves, saving these concerns from failure, and relieving the public generally from loss and injury, which each successive failure at such a time entails. Like other business, banking has its emergencies, and when they arise discretion should be allowed to act without incurring criminal liability.

Officers and directors are not apt to allow persons with whom they

are not financially interested to abuse the bank. Where loans to directors or officers are well secured there is no way of reaching such a case, as the law now exists, and, so far as safety is concerned, perhaps no need. - In such case, if the loans are not well secured and the examiner and Comptroller are not satisfied that they are good, the bank could be required to charge them off and make an assessment upon their shareholders to make good the impairment, if impairment existed, or appoint a receiver, in case the capital was thus wiped out. The latter course would involve a question of credit and values sometimes difficult to determine, and it frequently happens that the shareholders need protection rather than punishment. The circumstances attending loans made in excess of the 10 per cent limit are so various and diverse that they defy classification. It is difficult to frame a general rule that will correct the evil resulting therefrom and not itself be productive of bad results. Our country is so large and the contrast between city and country—between the immense volume and varied transactions of the one and the lesser volume and more uniform transactions of the otherso great, that a uniform law that can wisely be applied to both must of necessity possess wide latitude.

I think this whole difficulty, as well as others that arise, might be substantially reached if the Comptroller, with the approval of the Secretary of the Treasury, were given power, after a hearing, to remove bank officers and directors for violations of law, leaving the vacancy to be filled in the regular way. It is a power that would be seldom exercised. The existence of the power would deter many who now

keep the letter, only to violate the spirit of the law.

#### · EXAMINERS.

There are in the employ of this Bureau forty-two examiners. The position is responsible and honorable, and calls for the exercise of energy, tact, discretion, and firmness, as well as business experience and technical knowledge of banking. In order that he may discharge his duties with ease and confidence, familiarity with the mechanism of banking is indispensable. Our best examiners are those in the prime of life, who work with energy and fidelity, hoping to demonstrate their ability and worth, thereby securing for themselves a desirable and permanent position in some good bank. This incentive and this ambition insures the best work. As a body they are competent, conscientious, painstaking, and fearless in the discharge of their duties. They enjoy the full confidence of the Comptroller, and constitute his main reliance in all matters of discipline, and hence it is the purpose of this office to insist upon the highest standard of efficiency.

A bank-examiner may own property and have interests that require the usual banking facilities and be entitled to such accommodation as he would receive were he not an examiner. But unsecured loans to an examiner, which, but for his position, would likely be refused, are wrong and destroy confidence in his work. No relation should exist that would tend to restrain an examiner's freedom in making criticisms or impair the force of his criticism when made. But criticism does not necessarily mean pointing out wrongdoing. It means the comment which an expert business man would naturally make upon the business under review. An examiner's work is not espionage. The national banks are the backbone of the financial system of the country, the conservators of public credit, officered by men of the highest integrity, who are striving to earn dividends for their shareholders by fostering

and building up the business of their clients as well as their banks. The exceptions to such honorable conduct only prove the rule. Examiners should work with the banks, with a disposition to aid in every proper way. They should get the confidence of bank officers by demonstrated and the statement of the confidence of bank officers by demonstrated and the confidence of bank of th

strating their entire fitness for the work intrusted to them.

While this Bureau accepts any system of doing business which is accurate and proves; still examiners, with their facilities for observation, should note the best methods and be able to render valuable aid by suggesting improvements. While the subject of credits is to be delicately treated, the knowledge an examiner acquires will enable him to make valuable suggestions on this subject. The banks pay for the examiner's services and are entitled to his good offices. The best service an examiner can render a bank, as well as this Bureau, is by doing thorough and painstaking work. He should obtain possession of the bank's assets and retain the same until his work is completed. In the smaller banks the securities, loans, and discounts should be placed in front of the examiner when he commences on the cash. In the larger banks, where more than one day is required to complete the work, he should obtain and keep possession of the assets by means of keys or seals. He should know that no change is made in the assets, except in the regular course of business. Nothing should be done on the installment plan. Instead of objecting to this, the better the bank the more acceptable will it prove.

It is a satisfaction to a bank to have a competent examiner in absolute possession of their assets until the same are proven and he is able to assure them that the items for which their books call are all there. An inventory is the foundation of all examinations. All the items of assets are aggregated under their appropriate bookkeeping heads to prove the asset side of the bank. This is but half the work. Every item of liability should be inventoried and aggregated to prove the liability side. Every individual and every bank balance should be taken off and every liability account proved. An examination that does not include this is imperfect. Experience shows that defalcations

are oftenest hidden in the liability side of the bank.

Examiners are given detailed instructions, which, if fully complied with, would render their work very thorough and searching. The efficiency of the force is constantly improving, and it is alike for the interest of the banks and this Bureau to have it attain the highest standard of excellence. This office will be pleased to have the coöperation of and receive suggestions from bank officers upon this subject.

## COMPARATIVE STATEMENTS OF THE NATIONAL BANKS.

The resources and liabilities of the national banks for fourteen years, at nearly corresponding dates, from 1879 to 1892, inclusive, are exhibited in the following table, and the same information with respect to preceding years will be found in the Appendix, page 129.

It is noticeable that the resources of the system were increased nearly \$300,000,000 during the past year notwithstanding the fact that seventy banks went into voluntary liquidation or became insolvent, such increase being strongly in contrast with that of any previous year covered by the statement. Proportional increase is common to nearly all the items, the principal decrease occurring in clearing-house exchanges.

The following table presents an abstract of the resources and liabilities of the national banks at the close of business on September 30, 1892, the condition of the banks in New York City, in the three central reserve cities, in other reserve cities, and of country banks shown

separately:

	Central res	serve cities.				
	New York City.	New York, Chicago, and St. Louis.	Other reserve cities.*	Country banks.	Aggregate.	
-	48 banks.	80 banks.	263 banks.	3,430 banks.	3,773 banks.

<sup>\*</sup> Other reserve cities are Boston, Philadelphia, Baltimore, Albany, Brooklyn, Pittsburg. Washington, New Orleans, Louisville, Cincinnati, Cleveland, Detroit, Milwaukee, Des Moines, Minneapolis, St. Paul, Kansas City, St. Joseph, Omaha, and San Francisco.

The following statement has been presented for several years, intended to show in a condensed form the principal changes in items of resources and liabilities of the national banks, comparison being made between the conditions existing January 1, 1866, and at the date of the last call for reports from national banks preceding the compilation of the Comptroller's annual report:

HIGHEST AND LOWEST POINTS REACHED IN THE PRINCIPAL ITEMS OF RESOURCES AND LIABILITIES SINCE THE ESTABLISHMENT OF THE SYSTEM.

Specie	16, 909, 363			Sept.30,1892		Oct. 1, 1875	

The capital, surplus, undivided profits, and deposits amounted to \$995,542,378 on January 1, 1866, and on September 30, 1892, were \$2,792,520,177. The loans and discounts have more than quadrupled. the number of active banks having increased from 1,582 to 3,773. The holdings of bonds have decreased from \$712,437,900, the maximum, to \$183,439,550, the latter amount representing an increase of \$8,532,000 over the preceding year, resulting from accessions of new banks.

The specie held by the banks reached the highest point September

30, 1892, and amounted to \$209,116,379.

The following statement shows by comparison the percentages of loans and discounts, United States bonds, and specie to the aggregate fund of the banks, composed of capital, surplus, undivided profits, circulation, and deposits.

The percentage of circulation to capital, surplus, and undivided profits has decreased from about 45 per cent in 1866 to 14 per cent in

1892.

## EXTENSION OF THE CORPORATE EXISTENCE OF NATIONAL BANKS.

Under the provisions of the act of July 12, 1882, eighty-seven associations applied for and obtained an extension of their corporate existence during the past year. The following table shows the number and capital of all extended banks and their geographical location:

States and Territories.	No. of banks.	Capital.	States and Territories.	No. of banks.	Capital-
Alabama Arkansas California Colorado Connecticut Delaware District of Columbia Georgia Illinois Indiana Iowa Riaho Kansas Kentucky Louisiana Maine Maryland Massachusetts Michigan Minnesota	6 2 2 5 5 73 111 5 5 8 79 45 46 1 1 9 22 5 5 5 4	\$885, 000 350, 000 2, 000, 000 960, 000 960, 000 1, 750, 000 9, 693, 000 4, 120, 000 100, 000 525, 000 6, 411, 500 2, 300, 000 9, 630, 000 2, 300, 000 12, 069, 000 2, 390, 000 2, 390, 000 5, 7, 262, 500 2, 390, 000 5, 265, 500	Montana Nebraska New Hampshire New Jersey New York North Carolina South Carolina Ohio Oregon Pennsylvania Rhode Island Tennessee Texas Utah Vermont Virginia West Virginia Wisconsin Total	1 8 38 38 53 224 4 8 101 1 174 559 11 1 31 14 13 21	\$500, 000 1, 400, 000 4, 905, 000 10, 783, 350 72, 772, 460 850, 000 1, 460, 000 250, 000 250, 000 250, 000 250, 000 675, 000 500, 000 500, 000 1, 491, 000 1, 491, 000 1, 495, 000 370, 308, 005

#### CIRCULATING NOTES.

The actual circulation outstanding on September 30, 1892, for which the banks were responsible was \$147,191,593, this amount being exclusive of \$25,595,167 also in circulation but represented by lawful money deposited by the banks for redemption of notes whenever presented to the Treasurer of the United States.

The minimum deposit of bonds required of the 3,773 national banks in operation September 30, 1892, was \$107,064,207, upon which only \$96,357,787 of national-bank circulation could be issued. These banks held on September 30, \$163,275,300 of bonds, and were actually responsible for \$50,589,983 of circulation more than the minimum. It is not imperative upon banks to take circulation, and a few do not avail themselves of the privilege.

Of the 3,773 banks 2,737 have a capital not exceeding \$150,000 nor less than \$50,000, which is the lowest amount any bank in the system may have, the aggregate capital amounting to \$221,057,830. The re-

maining 1,036 have a capital of over \$150,000 each, the aggregate amounting to \$465,515,185. If an amount of bonds equal to the total capital were deposited to secure circulation the whole body of banks might have a circulation amounting to \$617,915,714, or \$521,557,927 more than the present minimum. A table in the Appendix, page 148, shows by States and geographical divisions this information in detail.

In preceding reports a table was presented showing what advantage was taken by newly organized banks of the provisions of section 8 of the act of July 12, 1882, fixing a minimum requirement with respect to the amount of bonds to be deposited. The percentage of excess is now so small that a perpetuation of the table does not seem necessary. During the year ended June 30, 1892, 177 banks were organized and commenced business; 106 having a capital of \$50,000 each, aggregating \$5,300,000; 55 with a capital of over \$50,000 and not exceeding \$150,000, aggregating \$5,430,000; and 16 with an aggregate capital of \$5,150,000. Only 4 of the 161 banks with a capital of \$150,000 or under deposited bonds in excess of the requirement. The 16 banks with a capital of over \$150,000 each, deposited the exact amount of bonds required.

The following table shows by comparison for nine years the amounts of lawful money deposited and the consequent decrease or increase of

circulation:

DECREASE OF INCREASE OF NATIONAL-BANK CIRCULATION DURING EACH OF THE YEARS ENDED OCTOBER 31, FROM 1884 TO 1892, INCLUSIVE, AND THE AMOUNT OF LAWFUL MONEY ON DEPOSIT AT THE END OF EACH YEAR.

The gross increase of circulation, including the notes of gold banks and those of failed and liquidating associations, was \$247,588.

### BANKS WITHOUT CIRCULATION.

A few national banks have never issued circulating notes. Some others have deposited lawful money and surrendered their circulation. A list of these banks with capital and bonds is as follows:

Title of bank.	Capital.	Bonds.
Chemical National Bank, New York, N. Y Mechanics' National Bank, New York, N. Y Merchants' National Bank. New York, N. Y National City Bank, New York, N. Y National Park Bank, New York, N. Y National Bank of Washington, D. C Chestertown National Bank, Chestertown, Md First National Bank, Butte, Mont First National Bank, Houston, Tex. Citizens' National Bank, Englewood, N. J National Bank of Cockeysville, Md	1, 000, 000 2, 000, 000 200, 000	\$50, 000 50, 000 50, 000 50, 000 50, 000 50, 000 12, 500 25, 000 12, 500 12, 500

### SECURITY FOR CIRCULATING NOTES.

The security for circulating notes of national banks is limited to United States registered bonds bearing interest, and the following table shows the amount of such bonds held by the Treasurer of the United States as security on June 30 of each year from 1865 to 1892, inclusive, and the amount owned and held by the banks for other purposes, including those deposited with the Treasurer to secure public deposits:

Years.	United	5 per cent bonds.	4½ per cent bonds.	4 per cent bonds.	Total.	United States bonds held for other purposes at nearest date.	Grand total.

<sup>\*</sup> Three and one-half per cent.

A table will be found in the Appendix, page 130, showing on the first day of each month, from January 1, 1871, to November 1, 1892, the amount of authorized capital stock of the national banks, the amount of bonds on deposit to secure circulation, the amount of circulation secured by the bonds, the amount of lawful money deposited to redeem outstanding circulation, and the total amount outstanding, including notes of gold banks.

### INTEREST-BEARING FUNDED DEBT OF THE UNITED STATES.

The public debt reached the maximum August 31, 1865, and amounted to \$2,844,649,626. The noninterest-bearing obligations amounted to \$461,616,311, the interest-bearing debt being \$2,383,033,315. On October 31, 1892, the interest-bearing debt amounted to \$649,655,532.

The classes of bonds available as security for the circulating notes of national banks are shown in the following table, dates of authorizing acts, maturity of bonds, and rates of interest also being given:

The Navy pension fund, amounting to \$14,000,000 in 3 per cents, the interest upon which is applied to the payment of naval pensions exclusively, and \$78,320 of refunding certificates are not included in the table.

### MARKET PRICES OF UNITED STATES BONDS.

The following statement prepared by the Actuary of the Treasury exhibits the market prices of United States bonds during the year covered by this report. The 2 per cents have steadily remained at par, with slight fractional increase during the month of October. The fluctuations in 4 per cents were not marked, the price with few exceptions having gradually declined about 2 per cent.

OPENING, HIGHEST, AND LOWEST PRICES OF UNITED STATES REGISTERED 2 PER CENT AND 4 PER CENT BONDS, IN NEW YORK, FOR EACH WEEK FROM NOVEMBER 6, 1891, TO OCTOBER 28, 1892.

### INVESTMENT VALUE OF UNITED STATES BONDS.

The investment value of United States bonds increases as the relative market price declines, and the following statement, also prepared by the actuary of the Treasury, exhibits the fluctuations in price and investment value of the 4 per cents from 1885 to 1892 inclusive. A comparison will show the exact increase or decrease in investment value for each quarterly period. The Government was not a purchaser of bonds during the year, but of \$4,601,500 of 4½ per cents, which were outstanding on November 1, 1891, and on which interest had ceased at date of maturity, all but \$983,800 were presented for redemption. All of this class of bonds which were held by the national banks as security for their circulation have been withdrawn. The total withdrawals from the three classes of bonds available as security for circulation during the year were \$4,387,600. Of this amount \$807,950 was deposited in substitution. Table on page 52 shows the net increase of bonds deposited during the year.

Total		1, 521, 437, 753. 75	172, 063, 931. 25				

The apparent discrepancy in the amount of circulating notes outstanding October 31, which will appear when the several statements in this report are compared, is explained as follows:

In the table on this page notes of national gold banks amounting to \$104,952 are not included, and the table on page 51 includes \$263,263, representing notes of other banks redeemed and destroyed, to be reissued

The total issues of incomplete currency during the year are shown by the vault account, as follows:

National-bank currency in vault October 31, 1891	\$43, 035, 720
Amount received from the Bureau of Engraving and Printing during the year ended October 31, 1892	
Total	, ,
T, 010, 010	
Balance in vault October 31, 1892	45, 293, 400

The following table shows the amount of new currency issued to replace notes redeemed and destroyed under the provisions of the act of June 20, 1874, the amount issued to replace notes redeemed by lawful money deposited under the act of July 12, 1882, and the amount issued to both old and new banks upon bonds deposited for the purpose of obtaining additional circulation. The table also shows the amount of circulation redeemed under the act of June 20, 1874, establishing the National-bank Redemption Agency of the Treasury at Washington:

TABLE SHOWING BY STATES THE AMOUNT OF "ADDITIONAL CIRCULATION" ISSUED AND RETIRED DURING THE YEAR ENDED OCTOBER 31, 1892, AND TOTAL AMOUNT ISSUED AND RETIRED SINCE JUNE 20, 1874.

Notes of gold banks are not included in the above table.

Of the total circulation issued as shown by the foregoing table, \$2,867,620 were issued to banks organized during the year or just prior to November 1, 1891, and \$10,856,244 to other banks which deposited bonds for the purpose of increasing their circulation. The provisions of law relating to the redemption of national-bank circulation remain as heretofore, a redemption fund of 5 per cent on the total circulation being maintained with the Treasurer of the United States, and a pro rata annual assessment paid as the cost of redemption, amounting to \$1.464 on each \$1,000 during the year ended June 30, 1892.

During the past year the receipts of the National bank Redemption Agency amounted to \$70,434,334, of which amount \$31,218,977, or 44 per cent, was received from New York City. The amount received from Boston was \$8,475,354; from Philadelphia, \$5,053,891; from Chicago, \$5,052,376; from Cincinnati, \$2,138,337; from Baltimore, \$2,100,453; from St. Louis, \$1,224,285; from New Orleans, \$936,217;

from Providence, \$924,501; and from Pittsburg, \$495,629.

Of the total amount received during the year, notes representing \$18,583,320 were fit for circulation and returned to the banks originally

issuing them.

The following table exhibits the amount of national-bank notes received monthly for redemption by the Comptroller of the Currency during the year ended October 31, 1892, and the amount received during the same period at the redemption agency of the Treasury, together with the total amount received since the passage of the act of June 20, 1874:

REDEMPTION OF NOTES OF BANKS REDUCING CIRCULATION, OF THOSE IN VOLUNTARY LIQUIDATION, AND OF FAILED BANKS, UNDER THE ACT OF JUNE 20, 1874, AND OF BANKS THE CORPORATE EXISTENCE OF WHICH HAS BEEN EXTENDED UNDER THE ACT OF JULY 12, 1882.

No change has occurred in the provisions of law with respect to a reduction of the outstanding circulation of an association upon the deposit of lawful money with the Treasurer of the United States in a sum not less than \$9,000, nor in the provisions of the act of July 12, 1882, requiring a deposit of lawful money for the retirement of the old circulation of such banks within a period of three years. Under these provisions of law \$458,024,277 of lawful money has been deposited with the Treasurer on account of liquidating and insolvent banks, including \$2,663,720 deposited for the redemption of notes of national gold banks and \$97,714,449 for the redemption of national-bank notes under the act of July 12, 1882. During the year ended October 31, 1892, \$1,063,300 in lawful money was deposited by banks reducing circulation, \$1,341,880 by banks in voluntary liquidation, \$12,328 by extended banks retiring old circulation, and \$761,820 on account of insolvent banks, making a total of \$3,179,328.

The total amount deposited prior to and under the acts of June 20, 1874, and July 12, 1882, is \$472,269,087, and of this \$73,792,900 was deposited by banks in liquidation. Deducting the amount of circulating notes redeemed and destroyed without reissue, which was \$447,078,004, from the total deposit, there remained in the hands of the Treasurer, on October 31, 1892, \$25,191,083 in lawful money for the redemption and retirement of national-bank circulation, including \$104,952 for the redemption of outstanding circulating notes of national gold banks.

Prior to June 20, 1874, \$10,431,135 of national-bank notes were redeemed and destroyed without reissue, and \$436,646,869 have been so retired since that date. In the latter amount are included \$2,558,768 of the notes of national gold banks and \$82,081,203 of notes of associations which extended their corporate existence.

Under the act approved February 14, 1880, authorizing the conversion of gold banks and extending to them all the privileges applicable

to any national-banking association, the national gold banks either availed themselves of the opportunity thus afforded to convert or passed out of existence. As stated elsewhere, there still remains on deposit with the Treasurer of the United States in lawful money \$104,952 for the redemption of notes issued by national gold banks which are still outstanding.

# TAX UPON CIRCULATION, REDEMPTION CHARGES, AND ASSESSMENTS.

No change has occurred in the provisions of law requiring national banks to pay a semi-annual duty of one-half of 1 per cent upon the average amount of their notes in circulation, and expenses incident to the redemption of such notes annually determined by the Treasurer of the United States, and a pro rata assessment levied upon the banks, based upon the exact status of each with respect to the amount redeemed. The banks pay the fees allowed to national-bank examiners, as ascertained under the law, by means of drafts forwarded to the Comptroller, who in turn remits the proceeds to the examiners as their reports are received and accounts rendered. The amounts collected from the banks during the fiscal year from these sources and for the expense connected with the preparation of plates for circulation were as follows:

Semi-annual duty on circulation.  Cost of redemption of notes by the United States Treasurer.  Assessment for cost of plates, new banks.  Assessment for cost of plates, extended banks.  Assessment for examiners' fees (sec. 5240, Revised Statutes).	100, 593. 70 15, 700. 00 8, 100. 00

The following table is a comparative statement of taxes assessed as semi-annual duty on circulation, cost of redemption of notes, cost of plates, and examiners' fees for the past ten years:

Years.	Semi-annual duty on cir- culation.	Cost of redemption of notes by the United States Treasurer.	Assessment for cost of plates, new banks.	Assessment for cost of plates, ex- tended banks.	Assessment for exam- iners' fees (sec. 5240, R. S.).	Total.

Prior to the act of March 3, 1883, the banks were required to pay a tax on capital and deposits in addition to that on circulation. The total tax collected on capital amounted to \$7,885,887.74; on deposits, \$60,940,067.16; and up to July 1, 1892, \$72,670,412.30 on circulation, making a total of \$141,466,367.20.

The subjoined tables bring forward to the latest date the usual summary of information as to the course of deposits and reserve since the act of June 20, 1874, went into effect. They show the amount of deposits and the state of the reserve at about October 1 of each year, in each central reserve city, in all the reserve cities, and in the States and Territories, with a general summary embracing all active national banks:

NEW YORK CITY.

In the preceding tables the specie held represents the aggregate of gold and silver coin, Treasurer's certificates, and clearing-house gold certificates. A table will be found in the Appendix, page 153, showing the amount of each kind of coin and certificates held by the banks in each State and reserve city in October, 1888, September, 1889, October, 1890, September, 1891, and September, 1892.

#### FAILED BANKS.

Seventeen national banks, with an aggregate capital of \$2,450,000, were placed in the hands of receivers during the year, as shown by the following statement. In one case creditors have received dividends amounting to principal and interest in full; in another case principal in full; in another, 85 per cent; in another, 70 per cent; in two cases, 50 per cent; in five cases, 30 per cent; in two cases, 25 per cent, and in one case 20 per cent.

#### CAUSES OF FAILURE.

The doors of the Maverick National Bank of Boston, Mass., were closed on the last day of the report year (October 31, 1891, too late to be included in the annual report) by the national bank examiner, acting under instructions from the Comptroller of the Currency. For some months the condition of the bank had been a source of anxiety to the Comptroller on account of excessive loans to certain of its directors. The aggravated character of these loans, however, was not revealed to the Comptroller, either through the reports of the examiner or the attested reports of condition. The bank had a large volume of business and did a large collection business throughout the country. Speculative banking and excessive loans to directors for speculative purposes were the causes of failure. Conservatively managed, its volume of business and good will would have possessed very great value. Its assets were easily convertible. The receiver has paid to creditors 85 per cent, and expresses the opinion that an additional dividend will

be paid, not exceeding 5 per cent, dependent upon the result of pending litigation and the amount realized from the assessment upon shareholders. An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection

appearing in the table on page 224 of the Appendix.

The doors of the Corry National Bank of Corry, Pa., were closed to business November 7, 1891. The entire management of the bank had been practically confided to the president and cashier, whom it appears were highly respected and enjoyed the full confidence of the community until their disastrous administration of affairs of the bank became known. A good many loans were made in excess of the 10 per cent limitation. False debits were made to other banks, and a corresponding credit given to certain individuals for the purpose of making a showing which would justify the payment of dividends to shareholders. Large rates of interest were paid on certificates of deposit, and the expenses of the bank were extravagant. A large amount of paper of bad character had been kept alive by renewals, interest in many cases being included in the renewals. The discoveries of the examiner, indicating criminal violations of law, were promptly reported to the United States attorney.

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing

in table on page 224.

Dividends amounting to 50 per cent have been paid to creditors.

The doors of the California National Bank of San Diego, Cal., were not opened after close of business November 11, 1891. The failure was regarded as a great calamity by the local community, and considerable effort was made, in which many creditors joined, to accomplish a resumption of business. Under the peculiar circumstances and in view of repeated assertions in communications to the Comptroller from interested parties that a sufficient cash fund would be made immediately available to restore the impaired capital, as much time was given before the appointment of a receiver as seemed to be consistent with the Comptroller's discretion under the law. When it became known, upon thorough examination, that the entire capital and surplus of the bank had been lost and all efforts to resume had proved futile, the president of the bank, who had personally exerted himself in the interests of resumption of business, committed suicide. The funds of the bank were used to promote local enterprises of a public character involving large sums of money, and during a period characterized by a marked increase in prices and unusual activity in business. Succinctly stated, the president of the bank, in conjunction with one or more directors, at the date of its organization inaugurated schemes or deals in the interest of themselves and the local community which involved large sums of money. The necessary loans were for a time obtained from the Eastern States, but as these matured and demand for payment was made recourse was had to this bank. The local boom collapsed before any of these enterprises became paying investments. At length, the extreme danger to the bank became apparent to the management, and it appears that the president alone was forced to assume the attendant responsibility, and finally being unable to contend with the reduction in deposits and shrinkage in values suspension became inevitable.

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing

in table on page 224.

Dividends amounting to 30 per cent have been paid to creditors.

The Cheyenne National Bank of Cheyenne, Wyo., closed its doors to business November 13, 1891, a run having been caused by the suspension of the California National Bank of San Diego, Cal. A few days later the cashier committed suicide. The president of the California National Bank of San Diego was likewise the president of the Cheyenne National Bank, and the character of management in both cases was almost identical. The personal presence of the president, his correct manner of life, and his energetic attention to business are said to have given him the entire confidence of the community and enabled him to consummate questionable transactions without suspicion. From the first, the funds of the bank were diverted to his use. One common method was to purchase stocks of little or no value, sell them to irresponsible persons, taking notes in payment, which notes he caused to be discounted by this bank. He borrowed money in the Eastern States with which to purchase a controlling interest in the stock of the bank, using this stock as collateral. When demand was made, he would pay the loans with funds belonging to the bank realized upon accommodation paper obtained from his immediate friends. The cashier became a large and irresponsible debtor, and together these officers misappropriated an amount equal to the entire capital of the bank. Many bad loans were made, business was unduly extended, and the management was reckless and extravagant.

Dividends amounting to 25 per cent have been paid to creditors.

The doors of the First National Bank of Wilmington, N. C., were closed by order of the board of directors November 24, 1891. The reason given to the public was that the capital had been impaired by heavy losses incurred in previous years, from which the bank could not recover. No dividends had been paid since 1887. After a thorough investigation, the receiver reported that the failure was due to bad loans extending over a number of years, and to peculation and robbery by the cashier, a fugitive from justice. The directors took no interest in the management, and the cashier had been given complete control. A large part of the assets consisted of worthless bills receivable, which had been carried for a long time by renewal. Excessive loans had also been made. False entries were made upon the books to conceal the actual liability from the examiner, and it was found that the cashier had so manipulated the accounts as to successfully postpone the collapse for a considerable length of time. It now appears that the directors were aware to a certain extent of the condition of the bank, but relied upon the hope that it would under most favorable circumstances recover. The class of assets relied upon as good at date of failure amounted to only about 25 per cent of the whole, and the receiver up to date has been unable to collect more than 15 per cent of

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing in table on page 224.

Dividends amounting to 30 per cent have been paid to the creditors. The doors of the Huron National Bank of Huron, S. Dak., were closed to business by the national-bank examiner December 18, 1891.

The examiner found that for some time prior to that date the bank had been in a crippled condition, but thought, with careful and economical management, the affairs could be placed upon a safe footing. The shareholders finally voted to go into voluntary liquidation, but upon the disclosure that a large indebtedness due from the officers and their friends was not collectible, the Comptroller was compelled under

the law to appoint a receiver. It appears that the local community lost confidence in the bank from the fact that the management was supposed to be pecuniarily interested in a very spirited controversy and rivalry that existed between several cities over the location of the capital of the State, and this with other causes tended to make the business of the bank unprofitable. The farming interests in the surrounding country were largely indebted to the bank, and the continued crop failures made the loans almost worthless. It did not appear that there had been criminal violations of law, but it did appear that the suspension was due to bad loans and unremunerative business, which had been unduly extended.

The doors of the First National Bank of Muncy, Pa., were closed to business January 11, 1892, by a national-bank examiner who had for sometime been in attendance for the purpose of ascertaining the exact condition as to solvency. Criminal violations of law were apparent, and prompt communication was had with the United States attorney. There appeared to be a large shortage in cash as represented by the books of the bank. On the day upon which the examiner closed its doors, the want of public confidence was manifested by a slight run. The causes of failure may be stated as reckless management, incorrect bookkeeping, declaration of dividends that had not been earned, failure to charge off bad debts, and a persistent practice of allowing overdrafts in large amounts.

Had the management of the bank been good and efficient, the appointment of a receiver would have been unnecessary and the bank might have been put in a sound condition by levying an assessment to

make good the impairment of capital.

No assessment was levied upon the shareholders as the assets of the bank were sufficient to pay creditors in full. The remaining assets have been turned over to an agent selected by the shareholders and the trust closed, principal and interest having been paid in full on all

proved claims.

The doors of the First National Bank of Downs, Kans., were closed January 23, 1892, by the national-bank examiner, upon discovering that the bank was insolvent. Bad management, frequent irregularities, and indications of collusion to violate the law were apparent, and the information was promptly reported to the United States attorney for that district. On or about the date of organization the assets of another bank were purchased, a considerable portion of which proved to be worthless; accommodation notes were taken to cover up large loans to certain individuals, the paper representing the actual loans being held as collateral. The management was extravagant and the cashier was reckless, his personal reputation being such as not to inspire confidence. Before the doors were closed an effort was made by some of the shareholders to change the management and restore the capital by voluntary assessment, but a large part of the stock being held by nonresidents the attempt was unsuccessful and suspension became inevitable.

A dividend of 25 per cent has been declared to creditors.

The Bell County National Bank of Temple, Tex., was closed by the national-bank examiner January 30, 1892. The causes necessitating this action were numerous; bad and excessive loans, violations of correct business principles, and the indifference of the directors, permitting the president and cashier to dominate the board, made it comparatively easy to wreck the bank. These officers permitted no interference, and would not allow a duly appointed finance committee to

perform its duty. Many of the shareholders were nonresidents and gave their proxies to the president and cashier, who were thus able to elect such directors as they chose. By means of this power the board was reduced in number in order to dispose of a few directors who insisted upon a knowledge of the condition of the bank or were desirous of performing their whole duty. The personal extravagance indulged in by the officers resulted in the discounting of worthless paper prepared for the purpose, the borrowing of money from other banks at high rates of interest, the general welfare of the bank being wholly disregarded. Soon after the receiver took charge, these officers were arrested for violations of law and bound over for trial. The most culpable management was apparent, false entries in the books had been made to conceal misappropriations, and forgery had been resorted to.

Dividends amounting to 30 per cent have been paid to creditors. The doors of the First National Bank of Silver City and the First National Bank of Deming, N. Mex., were closed to business on February 4, 1892. The same person was president of both banks and represented the entire management, the boards of directors practically exercising no control. For several years he had borrowed the funds of the banks on notes of his own and worthless accommodation paper made by relatives, friends, and clerks, until more than the combined capital of the banks had been obtained for investment in speculative enterprises, such as wild lands, cattle ranches, prospective railroad construction, etc. Fraudulent entries were made on the books and dividends not earned regularly paid to the shareholders, who being mostly nonresidents took no other interest in the management. Charges of embezzlement and misappropriation of funds were promptly placed in the hands of the United States attorney.

An assessment of 82 per cent has been levied upon the shareholders of the First National Bank of Deming. Dividends amounting to 25 per cent have been paid to creditors of that bank, and 20 per cent to

the creditors of the First National Bank of Silver City.

The doors of the Lima National Bank of Lima, Ohio, were closed to business March 1, 1892. From the date of its organization the management of the bank continuously provoked criticism by the Comptroller of the Currency for apparent violations of the restrictive provisions The president, possessing considerable wealth and business sagacity, was the principal promoter of a number of local and foreign enterprises, and diverted the funds of the bank to his individual uses. At times he would crowd paper, based on these outside schemes, into the bank to the almost entire exclusion of other and legitimate loans. Accommodation notes of clerks and other employés were resorted to, until the president's methods became a matter of public notoriety. The depositors necessarily lost confidence, and deposits were withdrawn to such an extent as to force the bank to rediscount all its good paper. When this crisis was reached an attempt was made to place the bank in voluntary liquidation, but failed because it was impossible at the time to realize from the assets the necessary funds for the prompt payment of creditors. A sharp run, which exhausted nearly all the cash on hand, precipitated its closing.

Dividends amounting to 50 per cent have been paid to creditors.

The doors of the Cherryvale National Bank of Cherryvale, Kans., were closed June 10, 1892, by a national-bank examiner acting under instructions from the Comptroller of the Currency. For some time the management of the bank had subjected it to criticism, and upon an examination made in December, 1891, its condition was unsatisfactory and the capital was found to have become impaired. An assessment was

ordered by the Comptroller, the management taking exception, insisting that there was no impairment and requesting a reexamination. The request was granted, but the result still showing an impaired capital, the Comptroller insisted upon the payment of the assessment, and shortly after the cashier made oath that it had been fully paid. subsequent examination disclosed the fact that the assessment had not, in fact, been paid, whereupon the examiner was instructed to take charge. The condition of the bank was mainly due to the reckless management of the president, who for his own use discounted worthless accommodation notes. A strenuous effort was made to prevent a receivership by inducing creditors to accept obligations other than cash for their claims. Inasmuch as the assets of the bank were not sufficient to even permit of voluntary liquidation, no proposition other than immediate payment of creditors in full could be entertained. The president and cashier were afterwards arrested for embezzlement, perjury, and false entries in the books, and bound over for trial.

The doors of the First National Bank of Rockwall, Tex., were closed by the national-bank examiner June 11, 1892. A former president of the bank, who was the original promoter, was engaged in wild speculations during his incumbency, and through loans to men of straw, for his own use, absorbed the capital and earnings of the bank. Having accomplished this result, he sought other fields of operation, leaving the bank in such a crippled condition that a new management found it impossible to place it on a solvent footing. The amount of deposits had become insignificant, being at date of closing only \$6,000, so that cur-

rent business could not support the bank.

The doors of the National Bank of Guthrie, Territory of Oklahoma, were closed by its officers June 13, 1892. Certain information having come to the knowledge of the Comptroller, a national-bank examiner had been directed to make an examination. He arrived on the day the bank suspended business, and found that a receiver had been appointed by a Territorial court. It was claimed that creditors had been paid in full, and therefore the Comptroller had no jurisdiction. It appeared that a receiver had been appointed by the court upon a petition presented in the supposed interest of some of the shareholders who were friendly to the management. The Comptroller appointed a receiver, and a demand for possession of the records and assets of the bank was made and refused. The court maintained that it had jurisdiction in the matter, and up to this time the Comptroller has been unable to place a receiver in charge.

The doors of the First National Bank of Erie, Kans., were closed to business June 25, 1892. The failure was due to the payment of exorbitant rates of interest on deposits, and the injudicious manner in which funds of the bank were loaned to officers and directors, who were large borrowers at a lower rate of interest than the bank itself paid for rediscounts. The immediate cause of failure was the large loss on these loans which had been made without proper security. It was developed that the stock held by the officers had been purchased with borrowed money. the stock being pledged as collateral, and that their financial resources

had always been very limited.

On July 5, 1892, the president of the Vincennes National Bank of Vincennes, Ind., committed suicide. The bank had become insolvent. A national-bank examiner was immediately directed to take charge of affairs and closed the bank on the morning of July 7. For some years prior to insolvency a former president and large shareholder of the bank was connected with firms engaged in grain speculations, and it appears that his successor, the late president, was connected with him

in similar speculation. Correspondence was found which connected the president with heavy losses, and it would appear that the cause of failure was his connection with board of trade speculations. Various means were resorted to in using bank funds and considerable ingenuity was exercised in covering up shortages. Successful attempts were made to deceive the national-bank examiner, and it is stated to the Comptroller that there was a systematic misappropriation of funds, which was acquiesced in, or known, to some extent by other officers and employés of the bank. In addition to this, large loans were made without proper security and in violation of law. The bank at one time purchased a large block of its own stock, paying a high premium therefor. An administrator was promptly appointed for the estate of the late president, who immediately offered restitution to the fullest possible extent, it being his desire to make as full a settlement as practicable, without reserve and without litigation.

A dividend amounting to 30 per cent has been paid to creditors.

The affairs of eight national banks have been closed during the past year and final dividends have been paid to their creditors.

Name and location of bank.	Date of appointment of receiver.	Total dividends on principal.	Proportion of interest paid.
Asbury Park National Bank, Asbury Park, N. J First National Bank, Buffalo, N. Y Central National Bank, Chicago, Ill First National Bank, Corry, Pa. First National Bank, Dansville, N. Y First National Bank, Muncy, Pa. National Bank of Shelbyville, Tenn Vermont National Bank, St. Albans, Vt	Apr. 22, 1882 Dec. 1, 1877 Oct. 11, 1887 Sept. 8, 1887 Feb. 9, 1892	65. 57 92. 75	Per cent.

Out of 4,811 national banks organized since February, 1863, 181, or about 3.76 per cent, have been placed in the hands of receivers. This includes 9 which had previously been placed in liquidation by the shareholders, but upon their failing to pay depositors the Comptroller appointed receivers to wind up their affairs. Of the 181 failed banks 38 have paid creditors in full, principal and interest; 6 have paid principal and a part of the interest, and 13 have paid the principal only. The affairs of 110 of the 181 banks have been finally closed, leaving 70 in process of settlement, of which 16 are virtually closed, with the exception of pending litigation, leaving 54 receiverships in active operation. In one case the receiver was withdrawn and the bank permitted to resume business.

The total amount so far paid to creditors of insolvent national banks has been \$48,052,938 upon proved claims, amounting to \$70,830,366. The amount paid during the year has been \$8,103,498, besides \$1,320,317 paid for dividends declared prior to November 1, 1892, on claims proved since that date. Assessments amounting to \$17,925,850 have been made upon shareholders of insolvent national banks under section 5151 of the Revised Statutes of the United States. From this source the gross collections amount to \$7,623,760, of which there has been received during the past year \$1,002,351. Suits are pending in some cases.

In the Appendix, p. 214, a table will be found showing, under various heads, amounts collected from the assets of each of the 181 insolvent national banks, the amounts disbursed, and the purpose. All moneys and assets are accounted for, and the figures supply all information necessary to the ascertainment of percentages and loss.

#### INACTIVE RECEIVERSHIPS.

Sixteen banks remain in the hands of receivers, the affairs of which are practically wound up, and the trusts are kept on the inactive list because of pending litigation or of the possession of assets, an immediate disposition of which would entail unnecessary sacrifice. The expenses of a trust in this condition are nominal and limited to what is actually necessary to proper and careful attention to the matters in abeyance. Titles to property pass through a receiver and the courts, but final dividends are sometimes paid from the office of the Comptroller, especially in the event of a considerable lapse of time after a receiver has realized upon all available assets.

By comparison with the report of 1891 it will be observed that only two of the banks then reported on the inactive list have been stricken out. In two other cases the receiverships will be terminated within thirty days. It is expected that the unsettled affairs of other banks in the list will

be disposed of within the next year and the receiverships formally terminated.

The following is a list of receiverships in an inactive condition:

Name and location of bank.	Date of appointment of receiver.	Dividends paid.

The total number of national banks organized since February 25, 1863, is 4,811, of which 3,788 are now in operation, 1,023 having passed out of the system, accounted for as follows:

Passed into voluntary liquidation to wind up their affairs.  Less number afterward placed in the hands of receivers	671
Passed into liquidation for purpose of reorganization Passed into liquidation upon expiration of corporate existence* Placed in hands of receivers.	102
Less number restored to solvency and resumed business	
Total passed out of system	1,053

#### LEGISLATION.

During the past year provision was made by Congress, in an act approved May 12, that any national bank located in the city of Chicago and State of Illinois might be designated by the World's Columbian Exposition to conduct a banking office upon the Exposition grounds, such designation to be approved by the Comptroller of the Currency, and the branch bank to be subject to the same restrictions and to have the same rights as the bank to which it belongs. The Chemical National Bank of Chicago was designated October 18, 1892. The text of the act is as follows:

That any national bank located in the city of Chicago and State of Illinois may be designated by the World's Columbian Exposition to conduct a banking office upon the Exposition grounds, and upon such designation being approved by the Comptroller of the Currency, said bank is hereby authorized to open and conduct such office as a branch of the bank, subject to the same restrictions and having the same rights as the bank to which it belongs: Provided, That the branch office authorized hereby shall not be operated for a longer period than two years, beginning not earlier than July first, eighteen hundred and ninety-two, and closing not later than July first, eighteen hundred and ninety-four.

<sup>\*</sup> Sixty of these have been reorganized.

Under the act approved July 28, provision was made for the redemption of certain national-bank notes which had been issued to, or received by, any national bank, but were either lost or stolen from the bank and put in circulation without signature by the officers or upon forged signatures. The text of the act is as follows:

That the provisions of the Revised Statutes of the United States, providing for the redemption of national-bank notes, shall apply to all national-bank notes that have been or may be issued to, or received by, any national bank, notwithstanding such notes may have been lost by or stolen from the bank and put in circulation without the signature or upon the forged signature of the president or vice-president and cashier.

In the Comptroller's report for 1890 comments were made upon the provisions of section 3 of the act approved June 30, 1876, affecting the rights of shareholders of an insolvent national bank after creditors had been paid in full, principal and interest, under a receivership. few cases shareholders had declined to elect an agent, and there seemed to be no means for distributing cash on deposit with the Treasurer of the United States for the benefit of the trust among shareholders by the payment of dividends. There were other difficulties in the application of the law with respect to title to real property passing through an agent, legal questions arising which provoked litigation. The amendment, which is in fact in full substitution of the entire section referred to, is as follows:

That section three of an act entitled "An act authorizing the appointment of receivers of national banks, and for other purposes, approved June thirtieth, eighteen hundred and seventy-six," is hereby amended so as to read as follows:

"Sec. 3. That whenever any association shall have been or shall be placed in the hands of a receiver, as provided in section fifty-two hundred and thirty-four and other sections of the Revised Statutes of the United States, and when, as provided in section fifty-two hundred and thirty-six thereof, the Comptroller of the Currency shall have paid to each and every creditor of such association, not including shareholders, who are creditors of such association, whose claim or claims as such creditor shall have been proved or allowed as therein prescribed, the full amount of such claims, and all expenses of the receivership and the redemption of the circulating notes of such association shall have been provided for by depositing lawful money of the United States with the Treasurer of the United States, the Comptroller of the Currency shall call a meeting of the shareholders of such association by giving notice thereof for thirty days in a newspaper published in the town, city, or county where the business of such association was carried on, or if no newspaper is there published, in the newspaper published nearest thereto. At such meeting the shareholders shall determine whether the receiver shall be continued and shall wind up the affairs of such association, or whether an agent shall be elected for that purpose, and in so determining the said shareholders shall vote by ballot in person or by proxy, each share of stock entitling the holder to one vote and the majority of the proxy, each share of stock entiting the holder to one vote and the majority of the stock in value and number of shares shall be necessary to determine whether the said receiver shall be continued or whether an agent shall be elected. In case such majority shall determine that the said receiver shall be continued, the said receiver shall thereupon proceed with the execution of his trust and shall sell, dispose of, or otherwise collect the assets of the said association, and shall possess all the powers and authority, and be subject to all the duties and liabilities originally conferred or imposed upon him by his appointment as such receiver, so far as the same remain applicable. In case the said meeting shall by the vote of the majority of the stock, in value and number of shares, determine that an agent shall be elected the said meeting shall thereupon proceed to elect an that an agent shall be elected, the said meeting shall thereupon proceed to elect an agent, voting by ballot, in person or by proxy, each share of stock entitling the holder to one vote, and the person who shall receive votes representing at least a majority of stock in value and number shall be declared the agent for the purposes hereinafter provided, and whenever any of the shareholders of the association shall, after the election of such agent, have executed and filed a bond to the satisfaction of the Comptroller of the Currency, conditioned for the payment and discharge in full of each and every claim that may thereafter be proved and allowed by and before a competent court, and for the faithful performance of all and singular the duties of such trust, the Comptroller and the receiver shall thereupon transfer and deliver to such agentall the undivided or uncollected or other assets of such association then remaining in the hands or subject to the order and control of said Comptroller and said receiver, or either of them; and for this purpose said Comptroller and said receiver are hereby severally empowered and directed to execute any deed, assignment, transfer, or other instrument in writing that may be necessary and proper, and upon the execution and delivery of such instrument to the said agent the said Comptroller and the said receiver shall by virtue of this act be discharged from any and all liabilities to such association, and to each and all the reditors and shareholders thereof. Upon receiving such deed, assignment, transfer, or other instrument, the person elected such agent shall hold, control, and dispose of the assets and property of such association which he may receive under the terms hereof, for the benefit of the shareholders of such association, and he may in his own name, or in the name of such association, sue and be sued, and do all other lawful acts and things necessary to finally settle and distribute the assets and property in his hands, and may sell, compromise, or compound the debts due to such association, with the consent and approval of the circuit or district court of the United States for the district where the business of such association was carried on, and shall at the conclusion of his trust render to such district or circuit court a full account of all his proceedings, receipts, and expenditures as such agent, which court shall, upon due notice, settle and adjust such accounts and discharge said agent and the sureties upon said bond. At such meeting, held as hereinbefore provided, administrators or executors of deceased shareholders may act and sign as the decedent might have done if living, and guardians of minors and trustees of other persons may so act and sign for their ward or wards or cestui que trust. The proceeds of the assets or property of any such association which may be undistributed at the time of such meeting or may be subsequently received shall be dist

"First. To pay the expenses of the execution of the trust to the date of such pay-

ment.

"Second. To repay any amount or amounts which have been paid in by any share-holder or shareholders of such association upon and by reason of any and all assessments made upon the stock of such association by the order of the Comptroller of the Currency in accordance with the provisions of the statutes of the United States; and

"Third. The balance ratably among such stockholders in proportion to the number of shares held and owned by each. Such distribution shall be made, from time to time, as the proceeds shall be received and as shall be deemed advisable by the said Comptroller or said agent."

#### LEGAL DECISIONS.

A digest of prominent national-bank cases up to date will be found in the Appendix, p. 95. This digest has become necessary in view of considerable inquiry by the general public, and it affords a convenient and ready source of reference to every national bank. It is not practicable to include the syllabus of every decision affecting a national bank, and generally those which are not an exposition of United States statutes are excluded. Much interest has been evinced during the past few years by bank officials and the general public as to the duty of directors, and the Supreme Court of the United States recently determined that the directors of a national bank must exercise ordinary care and prudence in the administration of the affairs of the bank, and this includes something more than officiating as figureheads; that they are entitled under the law to commit the banking business as defined to the duly authorized officers, but are not absolved from the duty of reasonable supervision, nor permitted to be shielded from liability because of want of knowledge of wrongdoing, if that ignorance is the result of gross inattention.

#### CLEARING-HOUSE ASSOCIATIONS.

In our smaller cities it is the custom of banks to send all claims against other banks in the same place by runners or messengers to such banks for payment. In such manner are their exchanges consummated, and in such cases the payment of these claims represents a

money transaction. In our larger cities, in order to save time and labor and avoid the risk attendant upon the transporting of money about the streets, and minimize the amount of actual money required to adjust its exchanges, clearing-house associations have been established, wherein each bank is credited with what claims it has against the other members of the association, and debited with the amount that each of the other members of the association hold against it. The balance only is paid or received in money. Thus each bank adjusts its day's exchanges, as though all transactions were with one bank instead of with many banks which constitute the other members of the association.

The total clearing-house transactions in the fifty-seven clearing-house associations in the United States for the past year aggregate the enormous sum of \$61,017,839,067, and this great volume of business was transacted by the use of only about 8 per cent in currency or money. These clearing-house transactions have such a direct and important bearing upon the currency of the country that a report upon the currency would be incomplete that did not include the history of the clearing-house transactions for a year. For that reason the following tables, giving full information upon the subject, are submitted.

# TRANSACTIONS OF THE NEW YORK AND OTHER CLEARING-HOUSE ASSOCIATIONS.

The present membership of the New York Clearing-House Association comprises 46 national banks, 18 State banks, and the subtreasury at New York, 65 members in all. There are 48 national and 46 State banks in New York City, and 2 national and 28 State banks not being members, clear through other banks which are members of the association.

The following information with respect to the operations of the clearing-house associations in the United States has been kindly furnished, upon request, by Mr. William Sherer, manager of the Clearing-House Association at New York City:

COMPARATIVE STATEMENT FOR TWO YEARS OF THE TRANSACTIONS OF THE NEW YORK CLEARING HOUSE, SHOWING AGGREGATE AMOUNT OF CLEARINGS, AGGREGATE BALANCES, AND THE KINDS AND AMOUNTS OF MONEY PASSING IN SETTLEMENT OF THESE BALANCES.

<sup>\*</sup> For nine months.

In 1891 there was a notable decrease in the volume of exchanges, amounting to over \$3,000,000. The year 1892 being placed in comparison, there has been an increase of over \$3,800,000.

#### CLEARING HOUSE OF THE NEW YORK STOCK EXCHANGE.

There was organized on the 17th day of May, 1892, a Stock Clearing House Association in the city of New York, which has since been in very successful operation. The object of this association was to avoid the personal delivery of stocks and enable each broker to adjust his deliveries and receipts of stocks in precisely the same manner as he would do were all his transactions of a day with a single broker, instead of the various brokers belonging to the association. The principle is the same as that which controls the bank clearing house, and the saving in time, labor, risk, and use of money or certified checks is equally as great.

The following statement shows the transactions from date of organi-

zation to October 31:

Date.	Shares cleared both sides.	Total value both sides.	Share balances one side.	Value share balances one side.	Cash balances one side.	Number stocks cleared.
May 17 to Octo- ber 31, 1892	84, 808, 800	\$5, 591, 048, 200	9, 202, 400	\$576, 110, 200	\$7,661,400	4 to 16

The practical good accomplished by this exchange is very apparent and the wisdom of its establishment can not be too highly commended. When perfected and extended so as to clear all stocks dealt in upon the exchanges it will practically do away with the evil of overcertification of checks. During the brief period of its existence it is estimated that it has reduced bank clearing house transactions \$1,643,000,000 and avoided certification of checks to that amount.

# SAVINGS BANKS AND LOAN AND TRUST COMPANIES OF THE DISTRICT OF COLUMBIA.

By act of Congress certain financial institutions, other than national banks, doing business in the District of Columbia, are placed under the supervision of the Comptroller of the Currency, report to him, and are examined precisely the same as national banks. These consist of The National Savings Bank, The National Safe Deposit, Savings and Trust Company, The Washington Loan and Trust Company, and The American Security and Trust Company. A detailed report of their condition on the 30th day of September, 1892, will be found in the Appendix.

### STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES.

Conforming to the provision of law that devolves upon the Comptroller of the Currency the duty of obtaining and publishing in his annual report to Congress statements showing the condition of banks and banking institutions incorporated under State authority, the desired information has been procured, through the courtesy of public officials, in all but nineteen States and Territories. Of the States from which no official returns have been received two are located in the

Middle, eight in the Southern, and nine in the Pacific and Territorial geographical divisions. To statements received from official sources have been added like information received directly by this Bureau from incorporated and private banks and bankers, located in States in which there are no provisions of law requiring such information to be reported to the State authorities. Over 6,000 such banks and bankers have been called upon to furnish statements for this report.

The number of incorporated banks in existence on June 30, 1892, was 4,668. The number of banks, statements of whose condition have been received by this Bureau, either directly or by means of their official reports to their respective State governments, showing their condition on or about the close of the fiscal year ended June 30, last, is 4,418, or over 94 per cent of all engaged in business at that time. The increase this year over last in number of reporting banks is 664, the material increase being accounted for, partially, by the fact that in one State (Nebraska) the banking department, in its abstract, included private with incorporated banks.

Statements showing the condition of 5,579 incorporated and private banks have been received, the aggregate resources amounting to \$3,751,649,173. The principal items of assets are \$828,739,486 loans on real estate; \$388,749,959 loans on collateral security other than real estate; \$984,274,847 other loans and discounts; \$154,025,395 United States bonds; \$403,224,457 State, county, and municipal bonds; \$379,077,437 railroad, bank, and other stocks and bonds; \$261,278,559 due from banks and bankers; \$97,070,359 real estate, etc.; \$197,789,384 cash and cash items. The aggregate capital employed amounts to \$386,394,845; surplus and undivided profits, \$323,715,176; deposits, \$2,911,594,571. Of the 5,579 reports 3,191 are made by State banks having an aggregate capital of \$233,751,171; surplus and undivided profits \$90,358,180; deposits, \$648,513,809. The resources of 168 reporting loan and trust companies are \$600,244,908; the capital \$80,645,972; surplus and undivided profits \$61,768,148, and deposits \$411,659,996.

The condition of the savings banks of the country is of special interest owing to the enormous volume of funds in their custody, and to the further fact that these funds are largely the savings of people of limited means. Reports have been received from 1,059 savings institutions, including 416 stock savings banks, which associations do both a commercial and savings business. Of this number 643 are conducted, presumedly, in the sole interest of the depositors, and are classified as mutual savings banks. The resources of the latter class amount to \$1,605,415,679, being nearly 82 per cent of the total assets of both classes. An examination of the abstract of the reports of these banks shows that of this class 450 are located in the Eastern, 181 in the Middle, 1 in the Southern, and 11 in the Western geographical divisions.

A noticeable feature in this connection is the approximately uniform average deposit, in these banks, in the Eastern, Middle, and Western divisions, being \$356.87, \$352.28, and \$376.58 respectively and the average in all such banks being \$356.65. It is also noteworthy that while the entire deposits in mutual institutions are savings accounts, but 82 per cent of the deposits in stock savings banks, as shown by the reports, are of that class, and the actual percentage is undoubtedly much less, for the reason that in a number of States, notably Vermont, Iowa, and California, no classification of deposits is made, although accounts of a commercial nature are taken. The average rate of interest paid or credited to depositors in mutual savings banks appears to be about 4 per cent; simi-

lar information is not at command, in respect to stock savings associations, to enable even an estimate to be made, although it would seem that the rate is slightly in excess of that paid by the former class. Stock savings banks, with the exception of 15 in the Eastern and 15 in the Middle States, are located in the Southern, Western, and Pacific States and Territories.

The aggregate resources of all savings banks amount to \$1,964,044,861, of which loans on real estate amount to \$714,832,576; loans on collateral security other than real estate, \$79,173,174 and other loans and discounts, \$229,711,725. The following figures represent their investments in bonds, stocks, etc.: In United States bonds, \$133,344,199; State, county and municipal bonds, \$393,190,240; in all other bonds and stocks, \$246,001,306. The amount invested in real estate is \$33,097,998 and the funds deposited in other banks and cash on hand, \$81,576,253 and \$33,208,271 respectively. Of the liabilities of these 1,059 institutions, \$37,407,475 represents their capital, \$132,880,724 surplus, \$27,448,960 other undivided profits, \$1,712,769,026 savings deposits and \$45,560,592 other deposits.

Of the 5,579 reports of condition received by this Bureau 1,161 were from private banks and bankers having an aggregate capital of \$34,590,227 surplus and undivided profits \$11,259,164, deposits \$93,091,148.

The following tables present summaries of this information:

AGGREGATE RESOURCES AND LIABILITIES OF ALL STATE BANKS, LOAN AND TRUST COMPANIES, SAVINGS AND PRIVATE BANKS, 1891-'92.

<sup>\*</sup>Includes all banks other than national.

The population of the United States by States and Territories on June 1, 1892, as estimated by the Government actuary, the aggregate capital, surplus, undivided profits, and individual deposits of national and State banks, loan and trust companies, and savings and private

banks of the United States at date of reports of the various classes nearest thereto, the average of these per capita, and the per capita average of such funds in each class of banks are shown in detail in the following table. It appears that the population of the country on the date named was 65,593,000 and the total banking funds \$6,390,094,128, an average of \$97.42. The per capita averages in each class of banks are: National banks, \$42.21; State banks, \$14.83; loan and trust companies, \$8.45; savings banks, \$29.81 and private banks, \$2.12. The table referred to is presented herewith:

Table showing, by States and Territories, the Population of each on June 1, 1892, and the aggregate Capital, Surplus, Undivided Profits, and Individual Deposits of National and State Banks, Loan and Trust Companies, and Savings and Private Banks in the United States on or about June 30, 1892; the Average of these per capita of Population, and the per capita Averages of such Resources in each Class of Banks and in all.

<sup>\*</sup>Estimated by Mr. Joseph S. McCoy, Government actuary. † Average of all banks other than national.

In the Appendix 227 tables will be found showing, by States, Territories, and geographical divisions, the condition of banks other than national, as obtained from both official and unofficial sources; aggregate resources and liabilities of each class; comparative statements of condition of State banks, 1872 to 1892; loan and trust companies, 1887-'88 to 1891-'92; savings banks, 1887-'88 to 1891-'92; private banks, 1888 to 1892; deposits in savings banks, number of depositors, and average amount due each, by States, in 1890-'91 and 1891-'92; the growth of savings banks in the United States as shown by the number of associations, number of depositors, and amount of deposits in the years 1820, 1825, 1830, 1835, 1840, and 1845 to 1892, inclusive; the number, liabilities, and assets at date of failure of State, savings, private banks, and loan and trust companies in each State that failed during the year ended June 30, 1892; the aggregate number, liabilities, assets and percentage of assets of State, etc., banks that failed during the fiscal years ended on June 30, 1891 and 1892; reports of condition of The First Bank of the United States in January, 1809 and 1811; principal items of resources and liabilities of The Bank (second) of the United States 1817 to 1840; number of banks, amount of specie, circulation, and capital in 1774, 1784, and 1790 to 1804; the number and capital of banks by States, etc., at eight different periods from 1792 to 1830; the number, capital, circulation, deposits, loans, and specie of banks at various periods from 1811 to 1840; the principal items of resources and liabilities by States, of banks in the United States in 1819, 1834 to 1863, and 1873 to 1892; the number of State banks in the United States and their principal resources and liabilities in the years 1834 to 1863 and 1873 to 1892, inclusive; the number, average capital, and deposits of all banks, other than national, as shown by reports to the Internal Revenue Bureau on November 30, 1875 and 1876, and on May 31, 1877 to 1882, inclusive; percentage of depreciation of bank notes during the suspension of specie payments from 1814 to 1817; discount of bank notes in New York in January, 1835 to 1838, inclusive; highest and lowest price of bank notes in Philadelphia in each year from 1814 to 1823 and from 1834 to 1838.

#### CONCLUSION.

Prior to the passage of the free-banking act a deep-rooted prejudice obtained against national banks as monopolies. They were believed to possess special privileges inimical to the interests of the general public. The act of January 14, 1875, removed all restrictions and extended the powers and privileges of a national bank to any five reputable men who might choose to organize such an institution, thus remov-

ing all proper ground of criticism.

All prejudices are long lived, but the one against national banks has possessed unusual vitality. There are many strong and excellently well managed State banks. Some of our States have good banking laws, well enforced, with competent and effective supervision. It is undeniable, however, that away from its immediate locality, a national bank enjoys greater prestige than a State institution. The system lends a credit and standing to its individual members. The actual advantage which national banks possess have won favor, and the prejudice once so strong, has yielded and is fast disappearing before the commercial advantages which the system affords. The large percentage of increase in national banks formed is found in sections where the prejudice was once strongest. It is very gratifying to note this. There is no possible conflict of interests between the national system

and State systems of banking. National banks do a purely commercial business. The various other banking functions are performed by State institutions, and the different boards of direction are so interwoven as to indicate the utmost harmony between State and national institutions.

More liberal provisions of law as to circulation or a reduction of the amount of United States bonds which national banks are compelled to own, would result in largely increasing the number of banks. As it is, each year marks a steady growth in number and in public confidence in the system. They have given the country the best currency and the best commercial service it has ever had, and the good solid business sense of the country can be relied upon to protect and preserve the system.

The work of the Bureau of the Currency is well systematized and is performed by a thoroughly competent and well equipped force of em-

ployés.

This force consists of ninety employés, the number having diminished from one hundred and twenty-five in 1876 to ninety at the present time, notwithstanding the fact that the large increase in the number of associations, under the supervision of the Bureau, has necessarily increased the amount of labor to be performed.

I have found all subordinates competent, courteous, and faithful in the discharge of their duties, and it is with pleasure that I acknowledge the valuable aid rendered by those charged with the labor of pre-

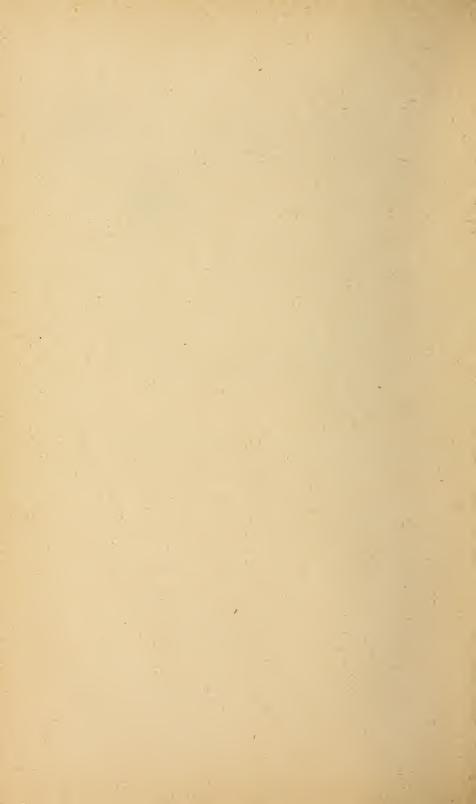

paring the statistical matter which appears in this report.

In the second volume of this report, comprising over 1,300 pages, will be found a detailed statement of the condition of all the national banks, as shown by the report of condition of September 30, 1892, arranged by States alphabetically and properly indexed.

A. B. HEPBURN, Comptroller of the Currency.

Hon. CHARLES F. CRISP, Speaker of the House of Representatives.

## A DIGEST OF NATIONAL-BANK CASES.

#### CONTENTS.

#### I. Constitutional law.

(1) Powers of Congress; (2) Powers of the States.

#### II. Powers and liabilities of national banking associations.

(1) Implied powers; (2) As to collateral securities; (3) Special deposits; (4) Government securities; (5) Certified check; (6) Purchasing check; (7) Stock; (8) Deposits to secure performance of contract; (9) Loans in excess of one-tenth capital; (10) Real estate; (11) Certificates of deposit; (12) Lien on dividends; (13) Contracts and obligations of old corporation; (14) Place of business; (15) Circulating notes; (16) Business of liquidating association.

#### III. Ultra vires.

(1) Dealing in stocks; (2) Purchasing negotiable paper; (3) Lending credit; (4) Mortgages on real estate; (5) When association can not set up want of power.

#### IV. Stock.

(1) Purchasing its own stock; (2) Lien on stock; (3) May be attached; (4) Capital set free belongs to sharcholders; (5) Contract to give shares for business; (6) Transfer of stock; (7) Subscriptions to increase of capital stock; (8) Specific performance of contract to sell.

#### V. Shareholders.

(1) Estopped to deny incorporation; (2) Individual liability; (3) When liability disqualifies from voting; (4) Right to inspect books.

#### VI. Officers.

Tenure of office; (2) Bonds of officers; (3) Directors must act as a board;
 Borrowing of association; (5) Liability for violations of law; (6) Directors of converted banks; (7) Retirement of directors.

#### VII. Interest.

(1) What interest associations may take; (2) On claims against insolvent and liquidating associations; (3) Usury.

#### VIII. Insolvent associations.

(1) Not subject to bankrupt act; (2) What constitutes insolvency; (3) Assets a trust fund; (4) United States has no priority; (5) Claims for torts; (6) Preferences; (7) Bases for estimation of dividends; (8) Set-off; (9) Claim for breach of contract of lease.

#### IX. Receiver.

(1) Officer of the United States; (2) Whom he represents; (3) How far subject to Comptroller's orders; (4) Power of courts to appoint; (5) Debtors of association can not question legality of appointment; (6) Receiver's decision not final; (7) Sale by; (8) Contracts of; (9) Expenses of receivership for association which has gone into liquidation.

95

#### X. Taxation.

(1) What may be taxed; (2) Rate; (3) Valuation; (4) Exemptions; (5) Collection of tax from association; (6) License tax; (7) Powers of taxing officers; (8) Enforcement of taxes; (9) Location of association for taxing purposes.

#### XI. Jurisdiction.

(1) Jurisdiction of Federal courts prior to the act of July 12, 1882; (2) Jurisdiction of Federal courts subsequent to act of July 12, 1882; (3) Jurisdiction of State courts; (4) United States can not be subjected to jurisdiction of court; (5) Citizenship.

#### XII. Suits.

By and against associations;
 By shareholders;
 By creditors of insolvent association;
 For usury;
 To enforce liability of shareholders;
 Execution;
 Attachments;
 Abatement;
 Estoppel;
 Suits against liquidating associations;
 Transitory and local suits;
 Survival of suits.

#### XIII. Evidence.

(1) Certificate of Comptroller; (2) Evidence of insolvency; (3) Necessity for assessment by Comptroller.

#### XIV. Crimes.

(1) Under United States laws; (2) Under State laws; (3) Term "United States currency" in penal statutes.

#### I. CONSTITUTIONAL LAW.

#### 1. Powers of Congress:

(a) Congress has the constitutional power to incorporate banks. (McCulloch v. Maryland, 4 Wheat., 316; Osborne v. Bank of the United States, 9 Wheat.,

(b) Congress has power to clothe national banking associations, as to their contracts and dealings with the world, with any special immunities and privileges exempting them, in their trade and intercourse with others, from the laws and remedies applicable in like cases to other citizens. (The Chesapeake Bank v. The First National Bank of Baltimore, 40 Md., 269.)

(e) Thus, the provision of the banking law that no attachment, injunction, or execution shall issue against a national banking association before final judgment in any suit, action, or proceeding in a State court is constitu-

tional. (Ibid.)

(d) The tax imposed on State or national banks paying out the notes of individuals or State banks for circulation is constitutional. (Veazie Bank v.

Fenno, 8 Wall., 533.)

(e) So is the tax imposed on them for paying out the circulating notes of municipal corporations. (Merchants' National Bank of Little Rock v. United States, 101 U. S., 1.)

(f) Such a tax is not a direct tax within the meaning of the clause of the Constitution which declares that "direct taxes shall be apportioned among the several States according to their respective numbers." (Veazie Bank v. Fenno and Mechanics' National Bank of Little Rock v. United States, supra.)
(g) Congress having, in the exercise of andisputed constitutional powers, un-

dertaken to provide a currency for the whole country, may secure the benefit of it to the people by appropriate legislation. (Veazie Bank v. Fenno,

supra.)

(h) Congress has the power to divest the United States courts of their jurisdiction of suits by or against national banking associations. (National Bank of Jefferson v. Fare et al., U. S. C. C. (E. D. Texas), 25 Fed. Rep., 209.)

#### 2. Powers of the States:

(a) National banking associations, being instruments designed to aid the Government in the administration of a branch of the public service, can not be controlled by the States, except in so far as Congress may see proper to permit. (Farmers and Mechanics' Bank v. Dearing, 91 U. S., 29.)

(b) No authority from the State is necessary to enable a State bank to convert itself into a national banking association. (Casey v. Galli, 94 U. S.,

673.)

(e) National banking associations located outside of a State are subject to its restraining acts prohibiting all corporations, not authorized by the law of the State, from keeping therein offices for the purpose of discount and deposit. (National Bank of Fairhaven v. The Phanix Warehousing Company, 6 Hun, 71.)

(d) It is competent for a State by penal enactments to protect its citizens in their dealings with national banking associations located within the State.

(State v. Fuller, 34 Conn., 280; see also Taxation and Jurisdiction.)

#### II. POWERS AND LIABILITIES.

#### 1. IMPLIED POWERS:

To the enumerated powers of national banking associations are to be superadded all the powers incidental to the business of banking. (Pattison v. Syracuse National Bank, 80 N. Y., 82.)

#### 2. As to collateral securities:

(a) A national banking association may take stock of a corporation as collateral security for a loan. (Shoemaker v. The National Mechanics' Bank, 2 Abb. U. S., 416; Canfield v. The State National Bank of Minneapolis, U. S. C. C. (Dist. Minn.), Thomp. Nat. Bank Cas., 312.)

#### 2. As to collateral securities—Continued.

(b) And it may take for such purpose the stock of another national banking association. (National Bank v. Case, 99 U. S., 628.)

Note.—But this point was not necessary to the decision of the case.

(c) A national banking association may take a pledge of personal chattels as security for a loan. (Pittsburg Locomotive and Car Works v. State National Bank of Keokuk, U. S. C. C. (Eighth Circuit, 1875), 2 Cent. L. J., 692; 1 New York Weekly Digest, 332.)

(d) A national banking association may take as security for a loan the indorsement of a married woman, charging her separate estate. Such security is to be treated as personal security, within the meaning of the banking law, and not as a mortgage. (Third National Bank v. Blake, 73 N. Y., 260.)

(e) A national banking association may take as collateral security for a loan a warehouse receipt for merchandise. (Cleveland, Brown & Co., v. Shoeman,

40 Ohio St., 176.)
(f) A national banking association may take as security for a loan the stock of a corporation whose entire capital is vested in real estate. Such a loan does not amount to a lending upon mortgage. (Baldwin v. Canfield, 26 Minn., 43.)

(g) An agreement by a national banking association to the effect that, in case a note discounted by it shall not be paid, a mortgage given by the maker to his indorser shall inure to the benefit of the association, is not inhibited by the national banking law. (First National Bank v. Haire, 36 Iowa, 443; see also National Bank v. Matthews, 98 U. S., 621.)
(h) A national banking association having taken a mortgage on real estate to

secure a debt previously contracted may, in order to protect itself, pay off a prior lien on the said real estate; and the lien which it thus acquires it may enforce. (Ornn v. Merchants' National Bank, 16 Kans., 341; Holmes v. Boyd, 90 Ind., 332.)

(i) Where a national banking association has taken collaterals to secure a

loan, and, after the loan has been repaid, holds them to secure future advances, it is not a gratuitous bailee; and it is responsible for the loss of such collaterals occasioned by its lack of ordinary care and diligence, though at the time the bailor was not indebted to it. (Third National Bank of Baltimore v. Boyd, 44 Md., 47.)

#### 3. Special deposits:

(a) A national banking association may receive special deposits. The provision in section 5228, Revised Statutes, authorizing an association "to deliver special deposits" implies that it may receive them as a part of its legitimate business; and this implication is as effectual as an express declaration to the same effect would have been. (National Bank v. Graham, 100 U.S., 699.)

(b) National banking associations have power to receive special deposits either gratuitously or otherwise. (Pattison v. Syracuse National Bank, 80 N. Y., 82.)

(c) But the executive officers of an association can not bind it as a gratuitous bailee, unless they have a special authority from the board of directors so to do, or there exists a general custom or usage to that effect. (First National Bank of Lyons v. Ocean National Bank, 60 N. Y., 278.)

#### 4. GOVERNMENT SECURITIES:

(a) National banking associations can engage in the business of dealing in and exchanging Government securities (Van Leuven v. First National Bank, 54 N. Y., 671; Yerkes v. National Bank of Port Jervis, 69 N. Y., 383; Leach v. Hale, 31 Iowa, 69.)

(b) And where an association receives United States bonds of one class for the purpose of having them converted into bonds of another class, it is not a mere mandatary, but is responsible for the failure to deliver the bonds on demand. (Leach v. Hale, supra.)

#### 5. CERTIFIED CHECK:

A national banking association may "certify" a check. A "certified" check is not within the meaning of section 5183, Revised Statutes, which prohibits the issuing of post-notes or any notes to circulate as money other than such as are authorized by the national banking law. (Merchants' National Bank v. State National Bank, 10 Wall., 604.)

#### 6. Purchasing Check:

A national bank may buy a check drawn upon another bank; and whether the check is payable to order or to bearer is immaterial. (First National Bank of Rochester v. Harris, 108 Mass., 514.)

#### 7. STOCK:

(a) A national banking association, in the compromise of a claim growing out of its legitimate business, may take railroad stock. (First National Bank of Charlotte v. National Exchange Bank of Baltimore, 92 U. S., 122.)
(b) And when necessary to do so, it may pay the difference between the value

of the stock and the amount of the claim. (Ibid.)

(c) A national banking association may take and hold the coupons of municipal bonds, and may maintain actions thereon. (First National Bank of North Bennington v. Town of Bennington, U. S. C. C. (Dist. Vt.), Browne's N. B. Cas., 437; see also Lyons v. Lyons National Bank, 19 Blatch., 279.)

#### 8. Deposits to secure performance of contract:

A national banking association may receive a deposit to be held by it as security for the faithful performance of a contract between the depositor and another. (Bushnell v. The Chautauqua County National Bank, 10 Hun, 378.)

Note.—But the court put the decision upon the further ground that even were the contract ultra vires, the association, having received the deposit, was estopped from setting up its want of power.

#### 9. Loans in excess of one-tenth capital:

(a) Sec. 5200, Revised Statutes, which provides that the total liabilities to any association of any person, etc., shall not exceed one-tenth part of the eapital stock paid in, was intended only for the guidance of the association, and, though its franchises may be liable to forfeiture for violation of the law, the association may recover of the borrower the full amount of the loan. (Gold Mining Company v. Rocky Mountain National Bank, 96 U. S., 640; O'Hare v. Second National Bank of Titusville, 77 Penn. St., 96; Shoemaker v. The National Mechanics' Bank, 2 Abb. U. S., 416; Stewart v. National Union Bank of Maryland, 2 Abb. U. S., 424.)

(b) A note is not illegal because at the time it was discounted by the associa-

tion the maker was indebted to the association in a sum equal to more than one-tenth part of its capital. (O'Hare v. Second National Bank of Titusville,

(c) And a court of equity will not enjoin an association, at the instance of the borrower, from transferring to innocent third persons notes and securities, on the ground that the notes represent part of a loan made in excess of 10 per cent of the capital of the association. (Elder v. First National Bank of Ottawa, 12 Kans., 238.)

(d) Where a State bank makes a loan to one person of an amount in excess of one-tenth part of its capital, and is afterward converted into a national bank, it may, after conversion, extend the time for payment of such loan without violating section 5200, Revised Statutes. (Allen v. The First Na-

tional Bank of Xenia, 23 Ohio St., 97.)

#### 10. REAL ESTATE:

(a) Where a national banking association acquires real estate which it is not authorized to take, the conveyance to it is not void, but only voidable. And the title of the association to such real estate is good until assailed in a direct proceeding by the Government. (Reynolds v. Crawfordsville Bank, 112 U. S., 405; see also National Bank v. Matthews, 98 U. S., 621; National Bank v. Whitney, 103 U. S., 99; Swope v. Leftingwell, 105 U. S., 3; Fortier v. New Orleans Bank, 112 U. S., 439.)

(b) The amount of real estate which a national banking association may purchase to secure a pre-existing debt is not limited to the exact amount of the debt, but as much may be purchased as is necessary to secure the debt due, so long as the security of such debt is the real object of the purchase.

(Upton v. National Bank of South Reading, 120 Mass., 153.)

(c) Where the purpose is to secure a debt previously contracted, a national banking association may take a conveyance of real estate worth more than the debt, and pay the difference between the debt and the value of the property. (Libby v. Union National Bank, 99 Ill., 622.)

(d) Where a national banking association sells real estate it may take a mortgage thereon to secure the payment of the purchase-money. (New Orleans National Bank v. Raymond, 29 La. Ann., 355.)

#### 11. CERTIFICATES OF DEPOSIT:

National banking associations may issue certificates of deposit. Such certificates are not post-notes within the prohibition of section 5183, Revised Statutes. (Hunt v. Appellant, 141 Mass. 515; Riddle v. First National Bank, 27 Fed. Rep., 503.)

#### 12. Lien on dividends:

An association has equitable lien upon dividends declared for any just debt due to it from the shareholders. (Hager v. Union National Bank, 63 Mc., 509.)

#### 13. Contracts and obligations of old corporation:

(a) Where a State bank has been converted into a national banking association it may enforce all contracts made with it while a State corporation. (City National Bank v. Phelps, 97 N. Y., 44.)
(b) And it is liable, after the conversion, for all the obligations of the old insti-

tution. (Coffee v. The National Bank of Missouri, 46 Mo., 140; Kelsey v. The National Bank of Crawford, 69 Penn. St., 426.)

(c) A national banking association organized as the successor of a State bank may take and hold the assets of the bank whose place it takes, though there was not in form a conversion from a State to a national corporation, but the organization of a new corporation. (Bank v. McIntire, 40 Ohio St., 528.)

(d) And such association will be liable to the depositors of the former bank.

(Eans v. Exchange Bank, 79 Mo., 182.)

#### 14. Place of business:

(a) The provisions requiring "the usual business" of the association to be transacted "at an office or banking-house in the place specified in its organization certificate" must be construed reasonably; and a part of the legitimate business of the association which can not be transacted at the banking-house may be done elsewhere. (Merchants' Bank v. State Bank, 10 Wall., 604.)

(b) Although the general business of a national banking association is to be transacted at its place of business, yet if the association is fully advised of the facts, and does not object, and there is no fraud, its officers, when acting within the general scope of their authority, may bind it by acts done at another place. (Burton v. Burley, 9 Biss., 253.)
(c) Under Revised Statutes, section 5190, providing that "the usual business

of each national banking association shall be transacted at an office or banking-house located in the place specified in its organization certificate," a national bank can not make a valid contract for the cashing of checks upon it at a different place from that of its residence, through the agency of another bank. (Armstrong v. National Bank of Springfield, 38 Fed. Řep., 883.)

(d) Whatever the terms of such an arrangement being made before the date of the drawee bank's certificate of authorization, it is invalid under Revised Statutes, section 5136, providing that no banking association "shall transact any business except such as is incidental and necessarily preliminary to its organization, until it has been authorized by the Comptroller

of the Currency to commence the business of banking." (Ibid.)

#### 15. CIRCULATING NOTES:

The circulating notes of a national banking association are valid though they do not bear the imprint of the scal of the Treasury. Such imprint was intended to be simply evidence of the contract, and forms no part of the contract itself. (United States v. Bennett, 17 Blatch., 357.)

#### 16. Business of liquidating association:

After an association goes into liquidation there is no authority on the part of its officers to transact any business in its name so as to bind its shareholders, except that which is implied in the duty of liquidation, unless such authority has been expressly conferred by the shareholders. (Richmond v. Irons, 121 U.S., 27.)

#### III. ULTRA VIRES.

#### 1. Dealing in Stocks:

(a) A national banking association is not authorized to act as a broker or agent in the purchase of bonds and stocks. (First National Bank of Allentown v. Hoch, 89 Penn. St., 324; Weckler v. The First National Bank of Hagerstown,

(b) A national banking association can not deal in stocks. The prohibition is to be implied from the failure to grant the power. (First National Bank v.

National Exchange Bank, 92 U.S., 122.)

NOTE.—But see, as to its power to deal in Government securities, Powers, 4.

#### 2. PURCHASING NEGOTIABLE PAPER:

A national banking association can not purchase negotiable paper. (Lazear v. National Union Bank of Baltimore, 52 Md., 78; First National Bank of Rochester v. Pierson, 24 Minn., 140; see also Farmers and Mechanics' Bank v. Baldwin, 23 Minn., 198. But see Smith v. The Exchange Bank of Pittsburg, 26 Ohio St., 141.)

#### 3. LENDING CREDIT:

(a) A national banking association can not lend its credit. (Johnson v. Charlottesville National Bank, 3 Hughes, 657; Seligman v. Charlottesville National Bank, 3 Hughes, 647.)

(b) A national banking association can not guaranty the paper of a customer

for his accommodation. (Seligman v. Charlottesville National Bank, supra.)
(c) The accommodation paper of a national banking association is void in the hands of one who takes it with knowledge of its character. (Johnson v. Charlottesville National Bank, supra.)

#### 4. MORTGAGES ON REAL ESTATE:

(a) National banking associations are by implication prohibited from taking mortgages on real estate as security for contemporaneous loans. (National Bank v. Matthews, 98 U. S., 621; Fowler v. Scully, 72 Penn. St., 456; Kansas Valley National Bank v. Rowell, 2 Dill., 371; Commonwealth Bank v. Clark, 4 Mo., 59; Crocker v. Whitney, 71 N. Y., 161; Fridley v. Bowen, 87 Ill., 151.)

(b) But where such security has been taken, no one but the Government can

be heard to complain that the association has exceeded its powers. (National Bank v. Matthews, supra; National Bank v. Whitney, 103 U. S., 99; Swope v. Leffingwell, 105 U. S., 3; Reynolds v. National Bank, 112 U. S., 405; Fortier v. National Bank, 112 U. S., 439.)

Note.—These decisions overfule, on this point, Kansas Valley National Bank v. Rowell, 2 Dill., 371; Crocker v. Whitney, supra; Fowler v. Scully, supra; Matthews v. Skinner, 62 Mo., 329; Woods v. People's National Bank of Pittsburg, 83 Penn. St., 57; Fridley v. Bowen, supra.

### 5. When association can not set up want of power:

Where a national banking association has entered into a contract which it was not authorized to make, a party who has enjoyed the benefit of such contract can not question its validity. (Casey v. La Société de Credit Mobilier, 2 Woods, 77; German National Bank v. Meadowcroft, 95 Ill., 124.)

#### IV. STOCK.

#### 1. Purchasing its own stock:

Where a national banking association purchases shares of its own stock, and divides them among its directors, to whom the shares are transferred upon the stock books, the transaction is void, and no title passes. (Meyers v. Valley National Bank, U. S. D. C. (E. Dist. Mo.), 13 National Bankruptey Register, 34.)

#### 2. LIEN ON STOCK:

(a) A national banking association can not acquire a lien on the stock of a shareholder. And a by-law prohibiting a transfer until all liabilities of the shareholder to the association are discharged, or a provision to that effect in the certificates of stock, is void. (Bullard v. National Bank, 18 Wall., 589; Bank v. Lanier, 11 Wall., 369; Conklin v. The Second National Bank, 45 N. Y., 655.)

(b) A national banking association can not take a pledge of its stock to seenre

a deposit made by it with another bank. Such a transaction amounts to a lending upon the security of its own shares. (Bank v. Lanier, supra.)

(c) Though a bank is prohibited from lending money upon the security of its own shares, yet, if the shares have been sold and the proceeds applied to the payment of the debt, the courts will not aid the shareholder to recover the value of the shares. He can dispute the validity of the transaction only while the contract is executory, and the security still subsists in the possession of the bank. (National Bank of Xenia v. Stewart, 107 U. S., 676.)

#### 3. MAY BE ATTACHED:

The stock of a shareholder indebted to it may be attached by the association and-sold on execution. (Hager v. Union National Bank, 63 Me., 509.)

# REPORT OF THE COMPTROLLER OF THE CURRENCY.

#### 4. Capital set free belongs to shareholders:

When a national banking association reduces its capital stock the amount of capital thus released belongs to the shareholders pro rata and must be returned to them; and it cannot be retained by the association for a surplus. (Seeley v. New York National Exchange Bank, 8 Daly, 400; S. C., 4 Abb. N. C., 61; affirmed, 78 N. Y., 608.)

#### 5. CONTRACT TO GIVE SHARES FOR BUSINESS:

Where an association has made or ratified a contract to give a person a certain number of the shares of its stock, upon condition that he will continue to do his business with it, and derives the benefit from this contract, the other party may recover of the association the value of the shares. (Rich v. State National Bank of Lincoln, 7 Nebr., 231.)

(a) The transfer of shares in national banking associations is not governed by different rules from those which are ordinarily applied to the transfer of shares in other corporate bodies. (Johnson v. Laftin, 103 U. S., 800.)

(b) The entry of the transaction in the books of the association is required, not for the translation of the title, but for the protection of the parties, and others dealing with the association, and to enable it to know who are its

stockholders. (Ibid.)

(c) A shareholder in a national bank, while it is a going concern, has the absolute right, in the absence of fraud, to make a bona fide and actual sale and transfer of his shares, at any time, to any person capable in law of purchasing and holding the same, and of assuming the transferrer's liabilities in respect thereto; and this right is not, in such cases, subject to the con-

trol of the directors or other stockholders. (Johnson v. Laflin, 5 Dill., 65.)
(d) Under the pretense of prescribing the manner thereof, an association can not clog the transfer with useless restrictions. (Johnson v. Laflin, supra.)

(e) When a shareholder, acting in good faith, delivers his certificates of stock, with a blank power of attorney for making the transfer, and receives the purchase-mouey, the sale is complete and the title passes. (*I bid.*) (f) Where a cashier who is intrusted by the directors with the duty of trans-

ferring the stock of the association refuses, for insufficient reasons, to transfer shares, and the association subsequently becomes insolvent, the owner of the shares may maintain an action against the receiver for the injury sustained. (Case v. Citizens' Bank, 100 U.S., 446.)

(g) Where a shareholder who has sold his stock has delivered to the bank the certificates of stock and a power of attorney, with the request that the transfer be made upon the books of the bank, and has had no reason to suppose that such transfer was not made, he will not, should the bank afterward become insolvent, be held liable as a shareholder, although he still appears as such on the books of the bank. (Whitney v. Butler, 118

(h) But where the president of the bank is himself the purchaser of the stock, then the delivery of the certificates and power of attorney to him with the request to make the transfer upon the books of the bank would not be sufficient to discharge the seller from liability as a stockholder. (Richmond

v. Irons, 121 U.S., 27.)

(i) Where a shareholder of a national bank makes a bona fide sale of his stock, and goes with the purchaser to the bank, indorses the certificate, and delivers it to the cashier of the bank, with directions to make the transfer on the books, he has done all that is incumbent upon him to discharge his liability, and he is not liable, though the cashier failed to make the transfer, upon the subsequent suspension of the bank, for an assessment made by the Comptroller of the Currency, under Revised Statutes, section 5151, to pay the bank's debts. (Hayes v. Shoemaker, 39 Fed. Rep., 319.)

#### 7. Subscriptions to increase of capital stock:

(a) Where one subscribes for shares in the increase of the capital of a national banking association in a certain amount, such subscription and payment are upon the implied condition that the increase shall be in the exact amount so fixed; and if such amount is changed, the subscriber may avoid the subscription and recover the amount paid in. (Eaton v. Pacific Bank, 144 Mass., 260.)

(b) And the certificate of the Comptroller of the Currency that the amount of the increase in another sum has been paid in, which amount includes what was paid by the dissenting subscriber, will not be conclusive upon such

subscriber. (Ibid.)

### 7. Subscriptions to increase of Capital Stock—Continued.

(c) But if such subscriber has assented to or ratified the change he will be held a shareholder. (Delano v. Butler, 118 U. S., 634.)

(d) National banks have no authority to increase their capital stock except as provided by Revised Statutes, sec. 5142, and act of Congress May 1, 1886; and where an increase is attempted to be made without obtaining the consent of two-thirds of the stock, the payment in full of the amount of such increase, and the certificate and approval of the Comptroller of the Currency, as required by those statutes, the proceedings are invalid, and preliminary subscriptions to such increase can not be enforced. (Armstrong v. Stanage et al., 37 Fed. Rep., 508.)

(e) A subscriber who has made payments on his subscription to the proposed increase, believing that the statutory requirements would be complied with, is entitled to have the amount thereof allowed as a claim against

the assets of the bank in the receiver's hands. (Ibid.)

f) When the previous proceedings looking to an increase in the capital stock of a national bank have been regular and all that are requisite, and a stockholder subscribes to his proportionate part of the increase and pays his subscription, the law does not attach to the subscription a condition that it is to be void if the whole increase authorized be not subscribed; although there may be cases in which equity would interfere to protect him in case of a material deficiency. (Aspinwall v. Butler, 133 U. S., 595.)

(g) The Comptroller of the Currency has power by law to assent to an increase in the capital stock of a national bank less than that originally voted by the directors, but equal to the amount actually subscribed and paid for by

the sharcholders under that vote. (Ibid.)
(h) Where one subscribes for shares in an increase of capital stock of a national bank and pays for the same without waiting to see whether the whole amount of the increase is taken, he is bound by such subscription and payment, though the amount of the increase is afterward reduced by the bank and the Comptroller of the Currency. (Butler v. Eaton, 141 U. S., 240.)

#### 8. Specific Performance of contract to sell:

A specific performance of a contract to sell the stock of a national banking association will not be enforced in favor of a purchaser who places his claim for equitable relief upon the ground that he desires to obtain control of the association. Such an object is contrary to public policy. (Foll's Appeal, 81 Penn. St., 434.)

#### V. SHAREHOLDERS.

#### 1. Estopped to deny incorporation:

A shareholder who has held himself out to the world as such is estopped to deny that the association was legally incorporated. (Casey v. Galli, 94 U. Š., 673; Wheelock v. Kost, 77 Ill., 296.)

#### INDIVIDUAL LIABILITY:

(a) The question whether there is a deficiency of assets, and when it is necessary to enforce the individual liability of shareholders, is for the Comptroller to determine; and his decision in this matter is final and conclusive. (Kenncdy v. Gibson, 8 Wall., 498; National Bank v. Case, 99 U. S., 628; Casey v. Galli, 94 U. S., 673.)

(b) The amount contributed by each shareholder should bear the same proportion to the whole amount of the deficit as his own stock bears to the whole amount of the capital stock at its par value. And the solvent shareholders can not be made to contribute more than their proportion to make good the deficiency caused by the insolvency of other shareholders. (United States v. Knox, 102 U. S., 422.)

(c) A shareholder who disposes of his stock will continue to be liable thereon until the transfer is noted on the books of the association. (Bowdell v. Farmers and Merchants' National Bank of Baltimore, U. S. C. C. (D. Md.,

1877); Browne's N. B. Cas., 147.)

(d) The individual liability of a shareholder adheres to his estate after his death until his place as a member of the association is taken by some new shareholder. (Davis v. Weed, U. S. D. C. (Dist. Conn.), reported 44 Conn., 569.)

(c) The receiver has a valid claim against the estate generally of a deceased shareholder who died prior to the insolvency of the bank, but whose stock has not been transferred. (Richmond v. Irons, 121 U.S., 27; Davis v. Weed, supra.)

### 2. Individual liability—Continued.

(f) And the fact that the title to the stock of a deceased shareholder vests in his administrator does not relieve the estate from the burden of an assess-

ment. (Daris v. Weed, supra.)
(g) Nor will the fact that the administration is complete, and all the assets have been distributed, defeat an action brought to recover the assessment.

(Ibid. But see Witter's v. Sowles, 32 Fed. Rep., 30.)

(h) The United States district court has jurisdiction of an action at law brought by the receiver of a national bank to recover an assessment made upon a stockholder, and the action may be maintained in such event against the executor of a deceased stockholder. (Stephens v. Bernays, U. S. C. C., E. D. Mo.)

(i) One who appears on the books of the association as the owner of shares of its stock is individually liable, though he hold the stock merely as collateral security. (National Bank v. Case, 99 U. S., 628; Moore v. Jones, 3 Woods, 53; Bowdell v. Farmers and Merchants' National Bank of Baltimore, supra; Hale v. Walker, 31 Iowa, 314; Wheeloek v. Kost, supra.)

(j) And a subscription to stock of a national bank and payment in full on the subscription and entry of the subscriber's name on the books as a stockholder constitutes the subscriber a shareholder without taking out a cer-

tificate. (Pacific National Bank v. Eaton, 141 U.S., 227.)

(k) But a pledgee of shares of stock in a national bank who in good faith and with no fraudulent intent takes the security for his benefit in the name of an irresponsible trustee for the avowed purpose of avoiding individual liability as a shareholder, and who exercises uone of the powers or rights of a stockholder, incurs no liability as such to creditors of the bank in case of its failure. (Anderson, Receiver, v. Warehouse Company, 111 U. S., 479.)

(1) And where stock has been transferred as collateral security for a loan, with the understanding that in case of default in the payment of the loan the shares shall be sold, the transferee, upon default made, and before the bank closes its doors, may sell the stock for a nominal consideration, though his purpose be to avoid a personal liability; and such a transaction can not be set aside as a fraud upon the creditors of the association. (Ma-

gruder v. Colston, 44 Md., 349.)

Note.—The court put the decision upon the ground that the sale was in pursuance of a stipulation which formed a part of the contract between the original owner and his transferee. See also Holyoke Bank v. Burnham, 11 Cush., 187, upon the authority of which the Maryland case was decided. (m) If the trustceship of one who holds stock in trust does not appear upon the

books of the association he will be individually liable. (Daris v. Essex Baptist Society, U. S. D. C. (Dist. Conn.), reported 44 Conn., 582.)
(n) A transfer of shares for the purpose of avoiding liability, though made

"out and out" is void. (National Bank v. Case, supra; Bowden v. Santos,

1 Hughes, 158.)

(o) And where a shareholder, who has knowledge of the insolvent condition of the bank, transfers his shares, without consideration, to a person unable to respond to the assessment, the transfer may be set aside and the individual liability of the transferrer enforced. (Bowden v. Johnson, 107 U. S., 251.)

(p) The real owner of the stock is liable as a stockholder, though when he purchased the stock he had it transferred upon the books to another. (Davis v. Stevens, 17 Blatch., 259.)

Note.—The case of the owner of the stock is thus different from that of a

pledgee. (See Anderson v. Warehouse Company, supra.)
(q) Where shareholders have assessed themselves to the amount of the par value of the stock for the purpose of restoring impaired capital, the contributions made in pursuance of such assessment, though all used in paying the debts of the association, will not so operate as to discharge the shareholders from their individual liability. (Delano v. Butler, 118 U. S., 634.)

(r) The individual liability of the shareholders of an insolvent association may be enforced for the purpose of paying all of its liabilities, and not merely for the purpose of paying its "debts," technically so-called. (Stan-

ton v. Wilkeson, 8 Ben., 357.)

(8) The individual liability of the stockholders must be restricted in its meaning to such contracts, debts, and engagements of the association as have been duly contracted in the ordinary course of its business. And, therefore, creditors of an association who make settlements after the association is put into liquidation and receive from the president payment of their

#### 2. Individual liability—Continued.

claims in paper of the association, or the individual notes of the president himself, indorsed or guaranteed in the name of the association, are not to be considered as creditors of the association entitled to subject the stockholders to individual liability; for these are new contracts. (Richmond v.

Irons, 121 U. S., 27.)
(t) The individual liability of the stockholders is enforcible only in behalf of all the creditors, and any security given by a stockholder for his liability in this respect should likewise be for the benefit of all the creditors. Accordingly, a mortgage of all the individual property of a stockholder, made after the bank has closed its doors, for the purpose of securing a single depositor, is void as against a judgment obtained against such stockholder in an action by the receiver to recover the amount of his individual liability. (Gatch v. Fitch, 34 Fed. Rep., 566.)

(u) Where a married woman is by the State law capable of holding stock in a national bank in her own right, she is liable to an assessment upon her shares, though the law of the State does not authorize married women to bind themselves by contracts for the payment of money. The law annexes her obligations by its own force; no act or capacity to act on her part is required. (Witters v. Sowles, 35 Fed. Rep. 640; S. C. 32 Fed. Rep., 767.)

(v) Married women, who are permitted by the laws of the State in which they reside to become shareholders in national banks, are liable to assessments

under the national banking laws. (In re., First National Bank of St. Al-

bans, 49 Fed. Rep., 120.)
(w) The coverture of a married woman, who is a shareholder in a national bank, does not prevent the receiver of the bank from recovering judgment against her for the amount of an assessment levied upon the shareholders equally and ratably under the statute. (Keyser v. Hitz, 133 U. S., 138.)

(x) While it is undoubtedly the rule as regards stockholders that one put upon the books as a stockholder without his consent can not be held for any liability in respect to such stock, yet where the person to whom the stock is transferred is a director of the bank, and is concerned in the management of its affairs, he must be presumed to have knowledge of the fact that the stock stood in his name, and if he has not repudiated the transfer to himself is liable as the holder of such stock. (Brown v. Finn, 34 Fed. Rep., 124.)

(y) In such case the mere return of the dividends paid upon the stock to the person by whom the transfer was made will not be a sufficient repudiation

thereof. (Ibid.)

(z) A person who received dividends on shares of stock standing in his name on the books of a national bank is estopped from denying his liability on the ground that he returned the same by check to an officer of the bank. He is presumed to be the owner of the stock when his name appears upon the books of the bank, and the burden of proof is upon him to show that

he is not in fact the owner. (Finn v. Brown, 142 U. S., 56.)

(aa) The State statute of limitations applies to a suit brought by the receiver of a national bank against a sharcholder to recover an assessment upon his stock to pay the debts of the bank. (Butler v. Poole, 44 Fed. Rep., 586.)

### 3. WHEN LIABILITY DISQUALIFIES FROM VOTING:

The provision of section 5144, Revised Statutes, which disqualifies shareholders whose liability is past due and unpaid" from voting at meetings of shareholders, applies only to liability for unpaid subscriptions for stock. (United States ex rel. v Barry, 36 Fed. Rep., 246.)

#### 4. Right to inspect books:

Code of Alabama, 1886, section 1677, which provides that stockholders of all corporations have the right to have access to and inspection and examination of the books, records, and papers of the corporation at all reasonable and proper times, applies to national banks located within the State; and mandamus will lie against the officer having custody of the books to enforce the right. (Winter v. Baldwin, 7 So., Rep., 734.)

#### VI. OFFICERS.

#### 1. TENURE OF OFFICE:

(a) The officers of a national banking association can hold their positions only by the tenure specified in section 5136, Revised Statutes, viz, the pleasure of the board of directors. (Harrington v. First National Bank of Chittenango, S. C. N. Y., 1873, Thomp. N. B. Cas., 761; see also Taylor v. Hutton, 43 Barb., 195.)

### 1. TENURE OF OFFICE—Continued.

(b) Directors of national banking associations may remove the president, both under the law of Congress and the articles of association, where the latter so provide. The power exists, though the association has adopted no bylaws. (Taylor v. Hutton, supra.)

### 2. Bonds of officers:

(a) It is not necessary that national banking associations shall signify their approval of the official bonds of their officers by memoranda entered upon the journals or minutes of the directors. The acceptance is to be presumed from the retention of the bond, and from the fact that the officer is permitted to enter upon or continue in the discharge of his duties. (Grover v. The Lebanon National Bank, 10 Bush., 23.)

(b) Where the sureties of an officer can reasonably be presumed to have been deceived by the statement of the condition of the bank published just prior to the execution of the bond, and to have been led to think that there was no deficit, whereas there had been a misapplication of a large part of the funds by the officer whose bondsmen they became, which fact would have been ascertained had the directors exercised ordinary diligence, the sureties are discharged from their liability. (Grover v. The Lebanon National Bank, supra.)

### 3. Directors must act as a board:

The election of an individual as a director does not constitute him an agent of the corporation with authority to act separately and independently of his fellow members. It is the board duly convened and acting as a unit that is made the representative of the association. The assent or determination of the members of the board acting separately and individually is not the assent of the corporation. The law proceeds upon the theory that the directors shall meet and counsel with each other, and that any determination affecting the association shall be arrived at and expressed only after a consultation at a meeting of the board, attended by at least a majority of its members. (National Bank v. Drake, 35 Kans., 564.)

#### 4. Borrowing money of association:

An officer may, in the ordinary course of business, borrow money of the association. (Blair v. First National Bank of Mansfield, U. S. C. C. (N. D. Ohio), 1877, 10 Chicago Legal News, 84.)

### 5. Liability for violations of law:

(a) All directors who participate in and assent to a loan in excess of one-tenth of the capital of the bank, in violation of section 5200, Revised Statutes, will be liable to the bank for all damages sustained by it in consequence of such loan. (Witters v. Sowles, 31 Fed. Ren. 1.)

such loan. (Witters v. Sowles, 31 Fed. Rep., 1.)

(b) If a cashier, without authority from the directors so to do, makes a loan in excess of one-tenth of the capital of the association, he will be liable, in case of loss, for the amount of the excess. (Second National Bank of Oswego v. Burt, XIV New York Weekly Digest, 290. Reversed in court of appeals on ground that transaction was discount of bill of exchange drawn against actually existing values, 93 N. Y., 233.)

(c) The directors of a national bank will not be held liable for loss occasioned to the bank through the frauds of a co-director in which they had no part, and which were perpetrated without their connivance or knowledge. It is not sufficient to charge them with liability that the frauds might have been prevented by the exercise on their part of a proper degree of supervision over the affairs of the bank. (Movius v. Lee, U. S. C. C. (N. D. N. Y.), 30 Fed. Rep., 298.)

(d) But directors of a national bank must exercise ordinary care and prudence in the administration of the affairs of the bank, and this includes something more than officiating as figureheads; they are entitled under the law to commit the banking business as defined to the duly authorized officers, but this does not absolve them from the duty of reasonable supervision nor ought they be permitted to be shielded from liability because of want of knowledge of wrongdoing if that ignorance is the result of gross inattention. (Briggs v. Spaulding, 141 U. S., 131.)
(e) Directors of a national bank are "officers" within the meaning of Revised

(e) Directors of a national bank are "officers" within the meaning of Revised Statutes, United States, section 5209, which makes it a misdemeanor for bank officers to make false entries in any book, report, or statement of the bank, with intent to deceive any of its officers. (United States v. Means et

al., 42 Fed. Rep., 599.)

#### 5. LIABILITY FOR VIOLATIONS OF LAW-Continued.

(f) The personal liability of directors of a national bank for violation of Revised Statutes, United States, section 5204, by declaring dividends in excess of net profits, and of section 5200, for loaning to separate persons,

firms, or corporations amounts exceeding one tenth of the capital stock, can not be enforced in an action at law. (Welles v. Graves, 41Fed. Rep., 459.)

(g) Under Revised Statutes, United States, section 5239, providing that if the directors of a national bank shall violate any of the provisions of the title relating to the organization and management of banks, the franchises of the bank shall be forfeited, such violation, however, to be determined by a proper court of the United States in a suit therefor by the Comptroller, and that in cases of such violation every director participating therein shall be personally liable for all damages which the bank, its shareholders, or any other person shall have sustained in consequence thereof, the Comptroller can not authorize the receiver to bring suit, under section 5234, to enforce such personal liability, until it has been adjudged by a proper court that such acts have been done as authorize a forfeiture of the charter.

(h) The right to maintain an action under Revised Statues, United States, section 5239, to recover from a bank director the damages sustained by his bank in consequence of excessive loans made by him while serving in the capacity of director, is not affected by the fact that the Comptroller has or has not procured a forfeiture of the bank's charter. (Stephens v. Overstolz, 43

Fed. Rep., 771.)

(i) For services performed by the district attorney in bringing a suit against a national bank, and obtaining a forfeiture of its charter, he is not entitled to more than \$10, the fees prescribed by section 824, there being no other law of the United States giving a compensation to a district attorney for such services. (Bashaw v. United States, 47 Fed. Rep., 40.)

(j) A stockholder of an insolvent national bank for which a receiver has been appointed can not maintain an action at law against the directors for the purpose of making them personally liable for the mismanagement of the bank, but the action must be brought by the receiver. (Howe v. Barney,

45 Fed. Rep., 668.)

(k) Revised Statutes, United States, sections 5234 and 5239, prescribing the method of enforcing the liability of the directors of national banks for violation of the banking law, are exclusive of other remedies, and a creditor of an insolvent bank for which a receiver has been appointed, can not sue its directors for the purpose of making them personally liable for the mismanagement of the bank. (National Exchange Bank v. Peters et al., 44 Fed. Rep., 13.)

### 6. DIRECTORS OF CONVERTED BANKS:

(a) When a State bank is converted into a national banking association all of the directors at the time will continue to be the directors of the association until others are appointed or elected, though some of them may not have joined in the execution of the articles of association and organization certificate. (Lockwood v. The American National Bank, 9 R. I., 308.)
(b) And semble, that the directors of a bank at the time of its conversion into

a national banking association are not required to take the oath of direct-

ors. (Ibid.)

· (c) But even were the oath required, a majority of all who were directors at the time of the conversion, and not merely a majority of those who take the oath, are necessary to constitute a quorum. (Ibid.)

### 7. RETIREMENT OF DIRECTORS:

(a) The law providing no particular mode by which a director is to resign from the board, an oral resignation would be as good as any. (Movius v. Lee, 30 Fed.Rep., 298.)

(b) The president being the head of the board, a resignation to him is a resig-

nation to the board. (Ibid.)

(e) A director is not prohibited from resigning during the year. The apparent purpose of the provision in regard to the term of office is to make it conform to the time of the new election, and not to absolutely require every director to serve the full term. (Ibid.)

#### VII. INTEREST.

#### 1. What interest associations may take:

(a) The provision in section 30 of the act of 1864 "that where, by the law of any State, a different rate is limited for banks of issue organized under State laws, the rate so limited shall be allowed for associations organized in any such State under the act," is enabling, and not restrictive; and, therefore, a national banking association in any State may stipulate for as high a rate of interest as by the laws of such State a natural person may, although State banks of issue are restricted to a less rate. (Tiffany v. National Bank of the State of Missouri, 18 Wall., 409.)

(b) But it is not to be inferred from Tiffany v. National Bank of Missouri that whatever by the laws of the State is lawful for natural persons in acquiring title to negotiable paper by discount is lawful for national banks. (National Bank v. Johnson, 104 U. S., 271.)

(c) The interest which a national banking association may charge is limited to the rate allowed to the banks of the State generally; and the fact that a few of the State banks are specially authorized to take a higher rate is not a warrant for a national banking association to do so. (Duncan v. First National Bank of Mount Pleasant, U. S. D. C. (W. D. Penn., 1878), 11 Bank Mag., 787; Gruber v. First National Bank, 87 Penn. St., 468.)
(d) Where the State law does not limit the rate of interest which may be

charged on loans to corporations, a national banking association located in that State can not charge more than 7 per cent interest on such loans.

(In re Wild, 11 Blatch., 243.)

(e) Where by the statutes of the State parties are authorized to contract for any rate of interest, national banking associations in that State may likewise contract for any rate, and are not limited to 7 per cent. (Hinds v. Marmelejo, 60 Cal., 229; National Bank v. Bruhn, 64 Texas, 571.)

### 2. On claims against insolvent and liquidating Associations:

(a) A depositor in a national banking association which has become insolvent is entitled to interest on his deposit. (National Bank of Commonwealth v. Mechanics' National Bank, 94 U.S., 437.)

(b) He is entitled to interest from the date of the suspension of payments; and no demand upon the association is necessary. (Chemical National Bank v.

Bailey, 12 Blatch., 480.)

(c) Claims, when proved to the satisfaction of the Comptroller, are upon the same footing as if put in judgment, and therefore bear interest; and the fact that, under certain circumstances, there might be thus a compounding of interest will not defeat the right to interest. (National Bank of Commonwealth v. Mechanics' National Bank, supra.)

(d) But where a creditor has obtained judgment against an insolvent national banking association for the full amount of his claim and interest, he is not entitled to interest upon the face of the judgment, but only upon the amount of the claim at the time of the failure. (White v. Knox, 111 U. S., 784.)

The creditors of an insolvent national banking association in the hands of a receiver are entitled to interest on their claims during the period of ad-

ministration. (Chemical National Bank v. Bailey, supra.)
(f) The assessments made by the Comptroller upon the shareholders of an insolvent association bear interest from the date of the order. (Casey v.

Galli, 94 U. S., 673.)
(g) In the case of book accounts in favor of depositors, interest begins to run against an association in liquidation from the date of the suspension of business. (Richmond v. Irons, 121 U. S., 27.)

#### 3. Usury:

(a) The usury laws of the States do not apply to national banking associations. (Farmers and Mechanics' Bank v. Dearing, 91 U. S., 29; Central National Bank v. Pratt, 115 Mass., 539; First National Bank v. Gorlinghouse, 22 Ohio St., 492; Davis v. Randall, 115 Mass., 547; Hintermister v. First National Bank, 64 N. Y., 212.)

(b) And the remedies provided by the State for the taking of usury can not be resorted to. (Farmers and Mechanics' Bank v. Dearing, supra; Wiley v. Starbuck, 44 Ind., 298.)

(c) The taking of illegal interest by a national banking association does not render the contract void. (Farmers and Mechanics' Bank v. Dearing, supra.)

### 3. Usury—Continued.

(d) It does not invalidate an indorsement or a guaranty of the notes upon which the usurious interest was paid. (Oates v. First National Bank of Montgomery, 100 U. S., 239; Lazear v. National Union Bank of Baltimore, 52 Md., 78.)

(e) But usury destroys the interest-bearing power of the obligation; and there will be no point of time from which it can bear interest. (Lucas v. Govern-

ment National Bank, 78 Penn. St., 228.)

(f) The usury works a forfeiture of the entire interest accruing after maturity and before judgment, as well as that which accrues before maturity. (Shunk v. The First National Bank of Gallion, 22 Ohio St., 508.)

(g) The discounting of business paper by a national banking association at a

higher than the legal rate is usurious, though the law of the State fixes up limit to the rate which natural persons may take for the discount or purchase of such paper. (Johnson v. National Bank of Glorersville, 74 N. Y., 329; affirmed in National Bank v. Johnson, 104 U. S., 271.)

(h) By charging more than legal interest on overdrafts, a national banking association loses the right to recover any interest at all. (Third National Bank of Philadelphia v. Miller, 90 Penn. St., 241.)

(i) The liabilities of antecedent parties to a note or bill will not be affected by the usurious character of the transaction between the payee and the association; and the association may recover the full amount of the note or bill from the maker or acceptor. (Smith v. The Exchange Bank of Pittsburg, 26 Ohio St., 141.)

(i) Usurious interest which has been paid to a national banking association can not be applied by way of payment or set-off in any action by the association to recover the amount of the loan. (Barnet v. Muncie National Bank,

98 U. S., 855.)

(k) Nor can the penalty for taking the usurious interest be recovered by way of counter-claim in such action, but a separate action must be brought

therefor. (Ibid.)

Note.—This case overrules portions of the decisions in Lucas v. Government National Bank, supra; Overholt v. National Bank, 82 Penn. St., 490; Cake v. The First National Bank of Lebanon, 83 Penn., St., 303.

(1) A director is not by reason of his position estopped from setting up the defense of usury in an action brought against him by the association.

(Bank of Cadiz v. Slemons, 34 Ohio St., 142.)

(m) Where a national banking association has discounted notes for another bank at a usurious rate of interest, the fact that the other bank has charged illegal interest on those notes to its customers will not affect its right to set up the defense of usury in an action by the association. (Third National Bank of Philadelphia v. Miller, supra.)

(n) The amount which may be recovered from the association as a penalty is twice the amount of interest paid, and not simply twice the amount in excess of the legal rate. (Crocker v. First National Bank of Chetopa, U. S. C. C. (Eighth Circuit), 3 Am. L. T. [N.S.], 350; Overholt v. National Bank of Mount Pleasant, 82 Penn. St., 490; see also Barnet v. Muncie National Bank,

(o) The purchase of accepted drafts by a national bank from the holder without his indorsement at a greater reduction than lawful interest on their face value is a discounting of those drafts, within the meaning of Revised Statutes, United States, section 5197, which prohibits such bank from taking interest on any loan or discount made by it at a greater rate than is allowed by the laws of the State where it is situated. (Danforth et al. v. National State Bank of Elizabeth, C. C. of Appeals (Third Circuit), 48 Fed. Rep., 271.)

#### VIII. INSOLVENT ASSOCIATIONS.

#### 1. NOT SUBJECT TO BANKRUPT ACT:

National banking associations were not subject to the bankrupt act while that act was in force. (In re Manufacturers' National Bank, 5 Biss., 499.)

#### 2. What constitutes insolvency:

The term "insolvency," as used in section 5242, Revised Statutes, forbidding transfer of the assets of national banking associations after, or in contemplation of, such insolvency, has the same meaning as it had when applied to traders in the bankrupt act; that is, it does not mean an absolute inability of a debtor to pay his debt at some future time, upon a settlement and winding up of his affairs, but a present inability to pay in the ordinary course of business. (Case v. Citizens' Bank of Louisiana, 2 Woods, 23; Market Bank v. Pacific National Bank, 30 Hun, 50.)

#### 3. Assets a trust fund:

Upon the appointment of a receiver all the assets of the association become in his hands a trust fund which the statute of limitations does not touch or affect. (Riddle v. First National Bank, U. S. C. C. (W. D. Penn.), 27 Fed. Rep., 503.)

Note.—But this point was not necessary to the decision of the case, for suits

against insolvent corporations are by a law of Pennsylvania expressly ex-

cluded from the operation of the statute.

#### 4. United States has no priority:

(a) Section 3466, which gives the United States a priority for all claims it has against insolvent debtors, does not apply to the ease of an insolvent national banking association. (Cook County National Bank v. United States, 107 U. S., 445.

(b) And as against the proceeds of the bonds deposited to secure circulation the United States can set off no claim, except for money advanced to re-

deem the notes. (Ibid.)

(c) And upon the failure of an association its 5 per cent redemption fund can not be retained by the Treasurer to pay taxes due to the United States, but the fund passes to the Comptroller as an asset of the association. (Jackson v. United States, 20 Ct. Cls., 298.)

### 5. CLAIMS FOR TORTS:

Claims arising out of the nonfeasance or malfeasance of the association should be paid ratably with the debts, technically so called. (Turner v. First National Bank of Keokuk et al., 26 Iowa, 562.)

#### 6. Preferences:

(a) A preference, to be within the meaning of section 5242, Revised Statutes, must be given to an existing creditor to secure a pre-existing debt. transfer by an insolvent bank to secure a contemporaneous loan is not a violation of the law. (Casey v. La Société de Credit Mobilier, 2 Wood, 77.) (b) Revised Statutes, United States, section 5242, which prohibits all transfers

by any national banking association made after the commission of an act of insolvency, or in contemplation thereof, with the view to a preference of one creditor over another, is directed to a preference, not to the giving of security when a debt is created; and if the transaction be free from fraud in fact, and is intended merely to adequately protect a loan made at the time, the creditor can retain property transferred to secure such a loan until the debt is paid, though the debtor is insolvent, and the creditor has reason at the time to believe that to be the fact. (Armstrong v. Chemical National Bank, 41 Fed. Rep., 234.)

(e) A banker's lien for the amount of the balance of its general account does not exist when the securities have been deposited with the bank for a

special purpose, or for the payment of a particular loan. (Ibid.)

(d) Revised Statutes, United States, section 5242, which invalidates all transfers of the notes, bonds, or bills of exchanges of a national bank, after the commission of an act of insolvency, with the view to the preferences of one creditor over another, does not prohibit a bank which has in good faith accepted the draft of a national bank the day before the latter's insolvency, and afterward paid the same, from applying the proceeds of collections made by it, on paper in its hands belonging to the insolvent bank, to the payment of the draft, since its lien on such collections runs from the date of the acceptance. (In re Armstrong, 41 Fed. Rep., 381.)
(e) The insolvency need be in the contemplation of the bank only. It need not

be known to the person to whom the transfer is made. (Case v. Citizens'

Bank of Louisiana, supra.)

(f) After the directors of an insolvent association have voted to close its doors, any transfer of assets whereby a creditor secures a preference must be presumed to be made with an intent to prefer. (National Security Bank v.

Price, 22 Fed. Rep., 697.)

(g) Where the officers of an association which is in danger of insolvency, for the purpose and in the expectation of preventing a failure, make a pledge of securities to a depositor to induce him not to withdraw his deposit, such a pledge is not a preference within the meaning of section 5242, Revised Statutes, and will not be set aside when the association afterward is declared insolvent. (Roberts v. Hill, 23 Fed. Rep., 311.)
(h) Where an insolvent association receives a deposit a short time before clos-

ing its doors, its officers knowing of the insolvency at the time, the receipt of such deposit is a fraud upon the depositor, and no title passes to the

### 6. Preferences—Continued.

association, and therefore the depositor may reclaim the whole amount of the deposit; and as he claims under his original title, and not under a transfer from the association, such reclamation does not amount to a preference. (Cragie et al. v. Hadley, 99 N. Y., 131.)
(i) A trust was not impressed upon funds deposited on day the bank closed its

doors in the absence of proof that the deposit had not gone into the general fund of the bank and lost its identity before reaching the receiver.

North River Bank, 14 N. Y., 261.)

(j) But a creditor will not have a lien upon the funds of the association because checks given in settlement of balances were fraudulent, and were given at a time when the bank was hopelessly insolvent and its officers were contemplating flight. (Citizens' National Bank v. Dowd, 35 Fed. Rep., 340.)

(k) Where the proceeds of an item indorsed "for collection and return" were mingled with other moneys of the bank, if it was a breach of trust it was a

conversion, and plaintiff became a simple contract creditor, with no preference at law. (Philadelphia National Bank v. Dowd, 38 Fed. Rep., 172.)
(1) Where by agreement and custom a national bank received drafts from its

correspondent indorsed "for collection for the," and credited it to them as cash, with the understanding that any unpaid draft should be charged back, and where the collecting bank failed before collection, the proceeds of the draft coming into the hands of a receiver, the correspondent bank has the rights of a general creditor only. (First National Bank v. Armstrong, 39 Fed Rep., 231.)

(m) Where plaintiff and defendant banks for several years had acted as agents for each other in the collection of checks, notes, and drafts, the practice being for each to credit the other for checks when received and for drafts and notes when advised of their payment, and a check was returned unpaid after being credited, the amount thereof charged back again, but amounts actually collected being mingled with the general funds of either bank, and where plaintiff sent defendant a note "for collection and credit" which on maturity was paid by a check and credit was immediately given on the books, but defendant failed and the check passed into the hands of a receiver—Held, that in view of the course of dealing the two banks stood in the relation of debtor and creditor with respect to the amount of the check, and it became part of the assets of the bank. (Frank-lin County National Bank v. Beal, 49 Fed. Rep., 606.)
(n) Whether the title to a check deposited with a bank passes to the bank

before collection, so as to immediately create the relation of debtor and creditor between it and the depositor, is a question of fact, depending upon the circumstances and course of dealing in each particular case.

(City of Somerville v. Beal, 49 Fed. Rep., 790.)

Where a bank in accordance with its custom credited checks deposited by a customer at the close of each day's business, retaining the right to subsequently charge off the same if returned unpaid from the clearing house, and the bank became insolvent on a succeeding day, title in the checks passed to the bank so as to create the relation of debtor and creditor.

(Ibid.)

(o) Where a national bank collected all papers sent to it by complainant under an arrangement which constituted the bank the agent of complainant, the latter can recover, on the ground of a trust, from a receiver of the bank such portion only of the proceeds of its paper sent to the bank as it shows has passed into the receiver's hands, either in its original or some substituted form. (Commercial National Bank v. Armstrong, 39 Fed. Rep., 684.)

(p) Where checks and drafts sent from one bank to another indersed "for collection" and credited "subject to payment" according to the dealings between the banks, and part of them were paid to the receiver of the latter bank after its failure and the balances were credited to it by the payors, the amount paid the receiver should be accounted for as a trust fund, but the balance as a general debt. (First National Bank v. Armstrong, 42 Fed.

Rep., 193.)

(q) Negotiable paper with restrictive indorsement credited by agent on date of receipt "subject to payment," although account is subject to be drawn upon, title is not transferred, and upon the insolvency of the agent before receiving notice of the collection of the item, the owner is entitled to the proceeds in the hands of the collecting agent. (Fifth National Bank v. Armstrong, 40 Fed. Rep., 46.)

### 6. Preferences-Continued.

(r) The drawers of a draft deposited with a bank for collection, and by it forwarded to a correspondent bank, are entitled to the amount as against the receiver of the forwarding bank, which was insolvent, and known to be so by its officers when it received the draft, and suspended payment before the proceeds were withdrawn from the collecting bank. (Importers and Traders' National Bank v. Peters et al., 123 Court of Appeals, N. Y., 272.)

(s) When a bank which has received a draft for collection sends it to another bank for that purpose, and on being advised that the latter bank has collected the draft credits the depositor and then becomes insolvent without having received the money from the collecting bank, the depositor remains the owner of the draft, and is entitled to its proceeds from the collecting bank against the receiver and the creditors of the insolvent bank. (Armstrong v. National Bank of Boyertown (Court of Appeals, Ky.), 11 S. W. Rep.,

(t) A bank which collects a draft sent to it by another bank for that purpose, with directions to remit the proceeds to a third bank for the owner's account does not thereby become a trustee, so that the fund can be followed into the hands of a receiver, although it had become mixed with the other cash of the bank before his appointment; especially when it appears that the business was carried on, and money paid out, for several days after the collection was probably made. (Merchants and Farmers' Bank v. Austin et al., 48 Fed. Rep., 25.)

#### 7. Basis for estimation of dividends:

In estimating the dividends to be paid out of the assets of an insolvent association, the value of the claims at the time when the insolvency is declared is to be taken as the basis of distribution. (White v. Knox, 111 U.S., 784.)

#### 8. SET-OFF:

(a) A person liable upon a note to an insolvent national bank may set off against his indebtedness the amount of his deposits with the bank. (Platt v. Bentley, Thomp. N. B., Cas., 758.)

(b) But a debtor can not set off the amount of a deposit assigned to him after the act of insolvency committed. (Venango National Bank v. Taylor, 56

Penn. St., 14.)

(e) Funds received on the discounting of a note and deposited with the discounting bank, subject to the check of the depositor and which had been drawn upon by him, but were intended by him to meet the note when due, can not be pleaded as a set-off in an action on the note brought by the receiver of the discounting bank who received the note before maturity. (Armstrong v. Scott, 36 Fed. Rep., 63.)

(d) The endorser of a note discounted by a national bank and which matures after the bank becomes insolvent and a receiver is appointed is entitled to set-off against the note the amount of his deposit in the bank at the time of its failure. (Circuit Court of Appeals (Third Circuit), 51 Fed. Rep.,

506.)

Note.—This affirms Yardley v. Clothiev, 49 Fed. Rep., 337, and overrules Armstrong v. Scott, 36, Fed. Rep., 63, and Stephens v. Schuchmann, 32 Mo.

-App., 333.

(e) The commercial paper of a national bank becomes overdue and dishonored after the commission of an act of insolvency and appointment of a receiver, and is subject to all equities between the bank and the original party to whom it was payable. (U. S. D. C. (N. D. III.), May, 1890.)
(f) A set-off under Illinois statute in favor of the maker of a note or bill is

f) A set-off under Illinois statute in favor of the maker of a note or bill is available if the paper is assigned after due, whether arising out of the same transaction or otherwise. (*Ibid.*)

#### 9. CLAIM FOR BREACH OF CONTRACT OF LEASE:

Where a national bank has leased a banking house for a long term of years, and subsequently becomes insolvent, but during the time it continued business had not defaulted in paying the rent, the lessor has no claim against the receiver by reason of the insolvency or dissolution of the corporation or the forfeiture of its franchises, or by the refusal of the receiver to take under the contract and pay the rent. (Fidelity Safe Deposit and Trust Co. v. Armstrong, 35 Fed. Rep., 567.)

#### IX. RECEIVER.

#### 1. OFFICER OF THE UNITED STATES:

A receiver, when appointed by the Comptroller, with the concurrence of the Secretary, is an officer of the United States. (Stanton v. Wilkeson, 8 Ben., 357.)

### 2. Whom he represents:

He represents the bank, its stockholders, and its creditors; but he does not in any sense represent the Government. (Case v. Terrell, 11 Wall., 199.)

### 3. How far subject to Comptroller's orders:

(a) The clause of section 50, act of 1864, which prescribes that the receiver shall be "under the direction of the Comptroller," means only that he shall be subject to the Comptroller's direction, not that he shall not act without orders. He may bring suit to collect assets without having been instructed to do so by the Comptroller. (Bank v. Kennedy, 17 Wall.)
(b) The receiver of a national bank is the instrument of the Comptroller, and

may be removed by him. (Kennedy v. Gibson, 8 Wall., 505.)

#### 4. Power of courts to appoint:

(a) The power of the Comptroller to appoint a receiver is not exclusive; it does not oust the courts of equity of their authority in the matter; and therefore a court of competent jurisdiction may place the bank in the hands of a receiver in cases where, according to the rules of equity, it may pursue such a course with regard to insolvent corporations generally. (Irons v. Manufacturers' National Bank, 6 Biss., 301; Wright v. Merchants' National Bank, 1 Flippin, 561.)

(b) Where a bank has gone into voluntary liquidation, and the Comptroller has no power to appoint a receiver, a proper court, in a case where such action is necessary to protect the interests of a creditor, will appoint a re-

ceiver for it. (Irons v. Mannfacturers' National Bank, supra.)

(c) Where a national bank is insolvent and in process of voluntary liquidation, and its affairs are being greatly mismanaged by its managing agents, to the injury of its creditors and stockholders, and some of the creditors and stockholders are being favored to the injury of others, a receiver may be appointed in such a case, even where the bank only has been made a defendant. (Elwood v. First National Bank, 21 Kans., 673.)

### 5. Debtors of association can not question legality of appointment:

The legality of the appointment of the receiver can not be questioned by the debtors of the bank when sued by him. The bank may move to have the appointment set aside, but the debtors can not. (Cadle v. Baker, 20 Wall., 650; see also *Platt* v. *Beebe*, 57 N. Y., 339.)

#### 6. Receiver's decision not final:

The decision of a receiver rejecting a claim is not final. The claimant still has the right to sue. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383.)

#### 7. SALE BY:

(a) The receiver can not sell the real or personal property of the bank without an order from a court of competent jurisdiction. (Ellis v. Little, 27 Kans., 707.)

(b) Nor can be sell upon the terms in conflict with the order. (Ibid.)

(c) And under an order permitting him to sell the property of the bank he can not exchange, trade, or barter it for other property. (Ibid.)

(d) A sale made by a receiver under order of a court is to all intents and purposes a judicial sale. (In re-Third National Bank, 9 Biss., 535.)

#### 8. Contracts of:

(a) As the power of a receiver of a national bank appointed by the Comptroller is limited, a person dealing with him in his official capacity is bound as a matter of law to have knowledge of his authority to act, and if contracts and agreements are entered into with the receiver in excess of his authority as conferred by law, the parties contract at their own peril and the estate of the bank can not be charged for the default or inability of a receiver acting outside of his functions as receiver and beyond the duties which it involves. (Ellis v. Little, 27 Kans., 707.)

(b) The receiver can not charge the estate of the bank by any executory contract, unless authorized so to do by the provisious of the national banking law and the order of a court of competent jurisdiction obtained upon the

terms of said law. (Ibid.)

### 9. Expenses of receivership for association which has gone into Liquidation:

Where after an association has gone into liquidation a receiver is appointed at the instance of the creditors, the expenses of such receivership must be paid by the creditors. The shareholders can not be made individually liable for such expenses. (Richmond v. Irons.)

#### X. TAXATION.

### 1. WHAT MAY BE TAXED:

(a) A State can not tax the capital stock of a national bank as such. tax must be assessed upon the shares of the different stockholders. (Collins

v. Chicago, 4 Biss., 472.)

(b) Under Revised Statutes, United States, section 5219, which declares that nothing in the national banking act shall prevent all the shares of stock of a national bank from being included in the assessment of the personal property of the owners of such shares, an assessment of the entire stock of a national bank in solido against the bank its self is invalid. (National

Bank of Virginia v. City of Richmond et al., 42 Fed. Rep., 877.)

(c) The assessment of the entire capital stock of a national bank in solido against the bank itself is invalid. The bank may pay the tax assessed upon the shares of its different stockhelders, and it will have a lien thereon when it pays such tax until the same is satisfied; but if for any cause the tax levied upon the different stockholders is not paid by the bank, the property of the individual stockholders will be liable therefor. (First National Bank of Leoti v. Fisher, 45 Kans. 726, April 11, 1891.)

(d) The individual stockholders of a national bank are allowed the same deductions from the assessment against them upon their shares of stock as other taxpayers in the State, owning moneyed capital, are allowed. (*Ibid.*) (e) The term "moneyed capital" as used in Revised Statutes, United States,

respecting State taxation of shares in national banks embraces capital employed in national banks and capital employed by individuals when the object of their business is the making of profit by the use of their moneyed capital as money. (Talbot v. Silver Bow County, Montana, 139

U. S., 438)

(f) Laws, New York, chapter 596, section 3, which provide that the stockholders in banks and trust companies organized under the authority of the State or of the United States shall be assessed for the value of their shares of stock, but which omits to provide for the taxation of the shares of stock in other private corporations, does not contravene Revised Statutes, United States, section 5219, which forbids the taxation of shares of national banks at a greater rate than is assessed on other "moneyed capital" in the hands

of the individual citizens of the State. (Palmer v. McMahon, U. S. S. C.).
(g) The shares of a national bank are taxable to the owners, and the bank is not liable primarily or as the agent of the shareholders, under the act of Congress or the various laws of the State or Territory, for the payment of a tax levied upon such shares; but if such bank, through its proper officers, voluntarily lists such shares as the property of the bank for taxation, and the taxing officers of the State or Territory in pursuance of such erroneous listing tax the same in the name of the bank, equity will not relieve the bank from the payment of such tax by enjoining its collection in the absence of a proper application to all the statutory tribunals authorized to hear such matter and determine and grant the proper relief. (Albuquerque National Bank v. Peoria et al. (S. C., N. Mex.), January 28, 1892.)

(h) The entire interests of the shareholders may be taxed without any deduction for that portion of the capital which is invested in United States securities. (Van Allen v. The Assessors, 3 Wall., 573.)

(i) New shares issued by a national banking association can not be taxed until the increase of capital has been approved by the Comptroller of the Cur-

rency. (Charleston v. People's National Bank, 5 S. C., 103.)

(j) The manifest intention of the law is to permit the State in which a national bank is located to tax, subject to the limitations prescribed, all the shares of its capital stock without regard to their ownership; and, therefore, a national bank may be taxed upon the shares which it holds in another national bank. (Bank of Redemption v. Boston, 126 U.S., 60.)

(k) The undivided surplus of a national banking association, unless invested in Federal securities, may be lawfully taxed by the State. (North Ward National Bank of Newark v. City of Newark, 10 Vroom, 380; First National Bank v. Peterborough, 56 N. H., 38.)

### 1. WHAT MAY BE TAXED—Continued.

(1) But, of course, if the surplus is taken into consideration in estimating the taxable value of the shares, it is not to be taxed separately. (North Ward

National Bank v. City of Newark, supra.)

Note.—But it has been held in Maryland that the stock of an association represents its whole property, and where a tax is assessed upon the shares a separate tax upon the real or personal estate amounts to double taxation; and, therefore, where the organic laws of the State prohibit double taxation, such a tax upon the property of an association is void. (County Commissioners v. Farmers and Mechanics' National Bank, 48 Md., 117; see also National State Bank v. Young, 25 Iowa, 311, wherein it was held that the State could tax only the shares co nomine and the real estate.)

(m) The surplus fund of a national banking association is not excluded in the valuation of its shares for taxation. (Strafford National Bank v. Dover, 59

N. H., 316.)

(n) Where shares of stock are assessed at their actual cash value, without any deduction for the real estate owned by the association, the real estate should not be taxed eo nomine. (Commissioners of Rice County v. Citizens' National Bank of Faribault, 23 Minn., 280.)

(0) Real estate owned by a bank constitutes part of its assets, within the meaning of Code of Mississippi providing that banks shall pay a privilege tax, whose amount varies with their "capital stock or assets," in lieu of

all other taxes. (Vicksburg Bank v. Worrell, 7 So. Rep., 219.)
(p) The State can not tax the circulating notes of national banking associations. (Horne v. Greene, 25 Miss., 452; contra, Board of Commissioners v. Elston, 32 Ind., 27; see also Ruffin v. Board of Commissioners, 69 N. C., 498; Lily v. The Commissioners, 69 N. C., 300.)

### 2. RATE:

(a) Where the State banks are taxed upon the capital, no tax can be imposed upon the shares of national banking associations; for, as the capital of the State banks may consist of the bonds of the United States, which are exempt from State taxation, a tax on capital is not equivalent to a tax on shares. (Van Allen v. The Assessors, 3 Wall., 573; Bradley v. The People, 4 Wall., 459.)

(b) But though the tax upon the State banks is not eo nomine a tax on shares, yet if it is equivalent to such a tax the shares in the national banking associations located in that State may be taxed. (Frazer v. Seibern, 16 Ohio St., 614; Van Slyke v. State, 23 Wis., 656; Boynoll v. State, 25 Wis., 112.)

(c) Where by local legislation different rates are prescribed for different classes of moneyed capital, the rate imposed upon shares of national banks should approximate as closely as may be the rate imposed upon other moneyed capital of the same or similar class, viz, shares of State banks. (City National Bank v. Paducah, U. S. C. C. (Sixth Circuit, 1877), 5 Cent. L. J., 347.

(d) Congress meant no more than to require of the States, as a condition to the exercise of the power to tax the shares in national banks, that they should, as far as they had the capacity, tax in like manner the shares of banks of issue of their own creation. (Lionberger v. Rouse, 9 Wall., 468.)

(e) Therefore, where a State has previously contracted with the banks which

it has chartered that they shall not be taxed above a certain rate, a tax upon national-bank shares at a greater rate is not invalid if this rate is not greater than that assessed upon all the moneyed capital within the

State, except that of the State banks. (Ibid.)

(f) Any system of assessment of taxes which exacts from the owner of the shares of a national banking association a larger sum in proportion to the actual value of those shares than it does from other moneyed capital, valued in like manner, taxes the shares at a greater rate, notwithstanding that the percentage of tax on the valuation is the same as that applied to other moneyed capital. (Pelton v. Commercial National Bank, 101 U.S., 143.)

#### 3. VALUATION:

(a) In estimating the value of the shares for the purpose of taxation reference may be had to all the property and values of the bank. (Saint Louis National Bank v. Papin, U. S. C. C. (Eighth Circuit), 3 Cent. L. J., 669.)
(b) If no excessive valuation is complained of, and a correct result is arrived

at, equity will not restrain the collection of a tax because the method of

computation was erroneous. (Ibid.)

(c) The shares may be valued for taxation at an amount exceeding their face value, if this amount is not at a greater rate than the valuation set upon other moneyed capital in the State. (Hepburn v. School Directors, 23 Wall., 480.)

### 3. VALUATION—Continued.

(d) Under the statute of New York, shares in national banking associations should be taxed at their real or market value. (People v. The Commissioners

of Taxes and Assessments, 94 U. S., 415.)
(e) Where shares in national banking associations are purposely valued proportionately higher than the other moneyed capital in the State, the assess-

ment is void. (Pelton v. National Bank, 101 U.S., 143.)
(f) And the collection of what is in excess of the rate imposed on the other

moneyed capital may be enjoined. (Ibid.)

(g) It is not required that the State should abandon systems of taxation of their own banks, or of money in the hands of their other corporations, which they may think the most wise and efficient modes of taxing their own corporate organizations, in order to make that taxation conform to the system of taxing the national banks upon the shares of their stock in the hands of the shareholders; all that is necessary is that the system of State taxation of its own citizens, of its own banks, and of its own corporations shall not work a discrimination unfavorable to the holders of the shares of the national banks. (Davenport Bank v. Davenport, 123 U. S., 83.)

#### 4. Exemptions:

(a) The intention of Congress was that the rate of taxation of the shares should be the same as, or not greater than, the tax upon the moneyed capital of the individual citizen which is subject and liable to taxation. (Peo-

ple v. The Commissioners, 4 Wall, 244.)
(b) Therefore, it is not a ground of objection to the validity of a tax on shares that, while deductions for United States bonds are made from the personal estates of individuals and the capital of State corporations, no deductions are made on account of the capital of national banking associations invested in such bonds. (*Ibid.*)

(c) The fact that by the statutes creating them, which statutes were passed prior to the national banking law, State banks are entirely exempt from taxation will not render a tax upon the shares of national banking asso-

ciations void. (City of Richmond v. Scott, 48 Ind., 568.)

(d) And a State tax upon shares in national banking associations is not rendered invalid by an exemption of the shares of other corporations, the capital of which consists of property required to be listed for taxation as such. (McIrer v. Robinson, 53 Ala., 456.)

(e) Merely a partial exemption of other moneyed capital will not invalidate a tax upon shares in national banking associations. (Hepburn v. School

Directors, 23 Wall., 480.)

(f) But though Congress did not contemplate that there should be an absolute equality (which in the nature of things is impossible), yet it did intend that there should be a substantial equality; and therefore, if the exemptions in favor of other moneyed capital are so palpable as to show that there is a scrious discrimination against capital invested in the shares of national banking associations, the tax will be declared unlawful. (Boyer v. Boyer, 113 U.S., 690.)

(g) A State law which does not permit a deduction to be made from the assessed value of bank shares for all debts due by the holder thereof, while authorizing such a deduction to be made from the assessed value of moneyed capital otherwise invested, is void. (People ex rel. Williams v. Weaver, 100 U. S., 539, reversing S. C., 67 N. Y., 516, and overruling People v. Dolan, 36 N. Y., 59.)

(h) In the assessment and taxation of shares of national-bank stock, the owners thereof, having no other credits or moneyed capital, are entitled to deduct their bona fide debts from the value of such shares of stock. (Was-

son v. Bank (Ind.), 8 N. E. Rep., 97.)

(i) Revised Statutes, section 5219, providing that shares of national-bank stock may be taxed as part of the personality of the owner, and that each State may tax them in its own manner, except that the taxation shall not be at a greater rate than is imposed on other "moneyed capital" owned by citizens of the State, and that the shares of uonresidents shall only be taxed in the city wherein the bank is located, do not authorize the taxation of the stock of a bank in solido by the city in which it does business, but only the shares of individual owners residing in the city are taxable, and they must be taxed separately, in order that the owner may deduct from their value the amount of his personal indebtedness, where the State laws or municipal ordinances permit such deductions, and require equality of taxation. (First National Bank of Richmond v. City of Richmond et al., 39 Fed. Rep., 309.)

#### EXEMPTIONS—Continued.

(j) The main purpose of Congress in fixing limits to State taxation on investments in the shares of national banks, was to render it impossible for the State in levying such a tax to create and foster an unequal and unfriendly competition by favoring institutions or individuals carrying on similar business and operations and investments of a like character; and the language of the law is to be read in the light of this policy. And, therefore, the exemption of shares of stock in corporations, the business of which does not come into competition with that of the national bank (e. g., railroad companies, mining companies, manufacturing companies, and insurance companies), does not invalidate a tax upon national-bank shares. Capital thus employed is not "moneyed capital" within the meaning of the act of Congress. (Mercantile Bank v. New York, 121 U.S., 138.)

(k) Bonds issued by a State, or under its authority by its public municipal bodies, although they undoubtedly represent moneyed capital, yet as from their nature they are not ordinarily the subject of taxation, are not within the reason of the rule established by Congress for the taxation of nationalbank shares, and the fact that the State exempts them from taxation does not deprive it of the right to tax shares of stock of national banks in the

(Ibid.)

(1) Although deposits in savings banks constitute moneyed capital in the hands of individuals within the terms of any definition which can be given of that phrase, yet they are not within the meaning of the act of Congress in such a sense as to require that, if they are exempted from taxation, shares of stock in national banks must thereby also be exempted from taxation; for it can not be supposed that savings banks come into any pos-

sible competition with national banks. (Ibid.)

(m) Under act Louisana, 1888, section 27, relating to taxation of national bank shares, making no deduction for that part of the bank's property entering into their value which consists of nontaxable State and national securities, which deduction may, under the act, be made by individuals, a tax on national bank shares violates Revised Statutes of the United States, section 5219, prohibiting the assessment of such shares at a greater rate than moneyed capital in the hands of individual citizens, and it is immaterial that the same discrimination is made against other corporations. (Whitney

National Bank v. Parker, 41 Fed. Rep., 402.)
(n) The taxation of national-bank shares by the statute of Indiana without permitting the owner of them to deduct from their assessed value the amount of his bona fide indebtedness as he may in the case of other investments of moneyed capital, is a discrimination forbidden by the act of

Congress. (Britton v. Evansville National Bank, 105 U. S., 322.)

#### 5. Collection of tax from the association:

(a) A State tax upon shares is valid, though the tax is collected from the bank. (National Bank v. Commonwealth, 9 Wall., 353.)

(b) And the State may require the banks to pay a tax rightfully laid upon the

shares. (Ibid.)

(c) And where the tax on shares is payable by the association the collection of the tax may be enforced by distraint of its property. (First National

Bank v. Douglas County, 3 Dill., 330.)

(d) But where the tax laws of the State make the bank the mere agent for paying the tax on shares, and direct it to retain so much of the dividends as will answer that purpose, other agents being required to pay taxes for their principals only when they have under their control the property, money, or credit of such principals, the bank can not be made liable unless it has the control of the property, etc., of its shareholders, or has dividends in its possession, or has failed to retain them. (Hershire v. First National Bank, 35 Iowa, 272.)

(e) Act Lonisiana, 1888, section 27, providing that shares in banks shall be assessed to the shareholders, but requiring the bank to pay taxes so assessed, and authorizing it to collect the same from the shareholders, imposes a tax, not upon the bank, but upon its shares, as permitted by act of Congress, providing that a State may determine the manner of taxing the shares of national banks located in the State. (Whitney National

Bank v. Parker, 41 Fed. Rep., 402.)
(f) No suit for the collection of a tax under State statutes imposed upon the shares of stock of a national bank can be maintained against the receiver of an insolvent national bank where the property represented by the shares has disappeared; for, there being nothing from which the receiver can be

### 5. COLLECTION OF TAX FROM THE ASSOCIATION--Continued.

reimbursed, the tax will fall upon the assets of the bank, which belong to its creditors, and thereby violate the rule that a State can not tax the capital stock of a national bank. (City of Boston v. Beal, 51 Fed. Rep., 306.)

#### 6. LICENSE TAX:

(a) National banking associations can not be subjected to a license or privilege tax. (Mayor v. First National Bank of Macon, 59 Ga., 648; City of Carthage v. First National Bank of Carthage, 71 Mo., 508; National Bank of Chattanooga v. Mayor, 8 Heiskell, 814.)

(b) A State law prohibiting the establishment of banking companies in the

State without the authority of the legislature was not intended to apply to banking corporations created by anthority of Congress, since such corporations may be legally established in the State without the consent of the

legislature. (Stetson v. City of Bangor, 56 Me., 274.)

### 7. Powers of taxing officers:

(a) Municipal officers can not assess a tax upon the shares of national banking associations until authorized to do so by some law of the State. (Stetson v. City of Bangor, 56 Me., 274.)

(b) The officers of a national banking association can not be compelled to exhibit to the taxing officers of a State the books of the association showing the deposits of its customers. (First National Bank of Youngstown v. Hughes, U. S. C. C. (N. D. Ohio, 1878), Browne's N. B. Cas., 176.)

(c) Code Alabama, 1286, S. 1677, which provides that stockholders of all private corporations have the right to have access to, and inspection and examination of the books, records, and papers of the corporation, at all reasonable and proper times, applies to national banks located within the State, and the rights of stockholders are not curtailed nor the statute in conflict with Revised Statutes, United States, which provide that national banks shall not be subject to visitorial powers other than those authorized by Congress or vested in the courts of justice. (Winter v. Baldwin, Ala., 7 So., 734.)
(d) The only remedy for the making of a false return to the auditor by the

cashier of a bank, of the resources and liabilities of the bank for the purposes of taxation, is afforded by revised statutes of Ohio, section 2679, which provides that the auditor may examine the books of the bank, and any officer or agent of it under oath, and make out the statement; and any officer of the bank may be fined not exceeding \$100 for failing to make the statement, or for willfully making a false one. (Miller v. First National Bank, 21 N. E. Rep., 860.)

(e) A national banking association is not exempt from examination by internalrevenue officers when it has in its possession any articles subject to an internal-revenue tax. Such an examination is not the exercise of a visitorial power, and therefore is not prohibited by the provision of section 5241, Revised Statutes, that the national banks shall not be subject to any visitorial powers except those authorized by the national-bank act or vested in the courts of justice. (United States v. Rhawn, U. S. D. C. (E. D. Penn.). Thomp. N. B. Cas., 358.)

(f) Where by the tax laws of a State a perpetual lien for taxes attaches to property only by virtue of a levy thereon, and such levy is not made prior to the insolvency of the bank, the taxing officers of the State will be restrained, at the instance of the receiver, from levying upon the property of an insolvent national bank, and selling it, for the purpose of collecting

a tax. (Woodward v. Ellsworth, 4 Colo., 580.)

(y) A State may require the cashiers of national banking associations located within its territory to transmit lists of the shareholders to the taxing officers of the various towns in which the shareholders reside. (Waite v. Dowley, 94 U.S., 527.)

### 8. Enforcement of taxes:

A tax duly assessed upon shares may be enforced in accordance with the general laws of the State on that subject. (Weld v. City of Bangor, 59 Me., 416.)

#### 9. LOCATION OF ASSOCIATION FOR TAXING PURPOSES:

An association which opens an office for the purpose of receiving deposits in another place than that in which it was organized does not become "located" in that place for purposes of taxation. (National State Bank of Camden v. Pierce, U. S. C. C. (E. D. Penn.), 18 Alb. L. J., 16.)

#### XI. JURISDICTION.

Note.—The jurisdiction of the Federal courts in national-bank cases was very materially changed by the proviso to the fourth section of the act of July 12, 1882. The proviso is as follows:

"Provided, however, That the jurisdiction for suits hereafter brought by or against any association established under any law providing for national banking associations, except suits between them and the United States, or its officers and agents, shall be the same as, and not other than, the jurisdiction for suits by or against banks not organized under any law of the United States which do or might do banking business where such national banking associations may be doing business when such suits may be begnn. And all laws and parts of laws of the United States inconsistent with this proviso be, and the same are hereby, repealed."

The jurisdiction of the United States circuit courts in suits by or against na-

tional banks is thus defined by section 4, act March 3, 1887:

"Sec. 4. That all national banking associations established under the laws of the United States shall, for the purposes of all actions by or against them, real, personal, or mixed, and all suits in equity, be deemed citizens of the States in which they are respectively located; and in such cases the circuit and district courts shall not have jurisdiction other than such as they would have in cases between individual citizens of the same State.

"The provisions of this section shall not be held to affect the jurisdiction of the courts of the United States in cases commenced by the United States, or by direction of any officer thereof, or eases for winding up the affairs of

any such bank."

#### 1. Jurisdiction of Federal courts prior to the act of July 12, 1882:

(a) National banking associations may sue in the Federal courts. The word "by" was omitted from section 57 of the act of 1861 by mistake. (Kennedy

v. Gibson, 8 Wall., 505.)

(b) A national banking association may sue and be sued in the circuit court for the district in which the association is located, irrespective of the amount in controversy and the citizenship of the parties. (County of Wilson v. National Bank, 103 U. S., 770; Mitchell v. Walker U. S. C. C. (W. D. Penn., 1879), Browne's N. B. Cas., 180; Commercial Bank of Cleveland v. Simmons, U. S. C. C. (W. D. Ohio), 10 Alb. L. J., 155.)

(c) But where the amount in controversy does not exceed five hundred dollars, the association can not sue in a Federal court outside of the district in which it is established. (St. Lonis National Bank v. Brinkman U. S. C. C.

(D. Kans.), 1 Fed. Rep., 45.)

(d) A national banking association located in one State may bring an action in the circuit court of the United States sitting within another State against a citizen of that State. (Manufacturers' National Bank v. Baack, 8 Blatch.,

147.)

(c) When a national bank is sucd in a Federal court the suit must be brought in the district in which the bank is located. And service upon an officer of the bank in another district will not give the court of that district jurisdiction of the cause. (Maine v. Second National Bank of Chicago, 8 Biss., 26.)

(f) A United States district court has jurisdiction of a suit in equity by or against a national banking association located within the district. (First National Bank of Pittsburg v. Pittsburg and Castle Shannon Railroad Company, 1 Fed. Rep., 190.)

(g) A circuit court has no jurisdiction of a suit by a private person to compel the Comptroller of the Currency and the Treasurer of the United States to disclose what disposition has been made of the United States bonds deposited with the Treasurer by a national banking association, and for a decree directing those officers as to their duty regarding such bonds. (Van Antwerp v. Hulburd, 7 Blatch., 425; Van Antwerp v. Hulburd, 8 Blatch., 282.)

(h) Section 380, Revised Statutes, which provides that "all suits and proceedings arising out of the provisions of law governing national banking associations, in which the United States or any of its officers or agents shall be parties, shall be conducted by the district attorneys of the several districts under the direction and supervision of the Solicitor of the Treasury, does not enlarge the jurisdiction of the circuit court, and can not be held to confer jurisdiction in such suits or proceedings upon a court not having, independently of this section, authority to entertain them. (Van Antwerp v. Hulburd, 7 Blatch., 426, supra.)

### 1. JURISDICTION OF FEDERAL COURTS, ETC.—Continued.

(i) National banking associations, being corporations organized under the laws of the United States, are entitled as such to remove into the circuit court of the United States suits brought against them in the State courts. (Cruikshank v. Fourth National Bank, 21 Blatch., 322; see also Remoral Cases, 115 U. S., 1.)

(j) A United States district court has jurisdiction to authorize a receiver to

compromise a debt. (Matter of Platt, 1 Ben., 534.)
(k) An action at common law to recover a debt due to the bank may be instituted by a receiver in a United States district court, he being an officer of the United States within the meaning of section 563, Revised Statutes.

(Platt v. Beach, 2 Ben., 303; Stanton v. Wilkeson, 8 Ben., 357.)

(I) The power of a national banking association to take a mortgage upon real estate is a question which the party raising it should be permitted to litigate in a Federal court; and he should not be sent into the State courts to try this question on the distribution of surplus moneys in a foreclosure suit, or in a suit brought by the party holding the alleged invalid mortgage. (In re Duryea, U. S. D. C. (S. D. N. Y.), 17 National Bankruptcy Register, 495.)

### 2. Jurisdiction of Federal courts subsequent to act of July 12, 1882:

(a) The tenth subdivision of section 629, Revised Statutes, which confers upon the circuit court of the United States jurisdiction of all suits by or against any national banking association established in the district for which the court is held, has been repealed by the proviso to section 4 of the act of July 12, 1882. (National Bank of Jefferson v. Fare et al., U. S. C. C. (E. D. Tex.), 25 Fed. Rep., 200.)

(b) The object of this proviso was to deprive the United States courts of jurisdiction of suits by or against national banking associations in all cases where banks organized under State laws could not likewise sue or be sued in such courts. (National Bank of Jefferson v. Fare et al., supra.)

(e) But the proviso does not affect the right of the receiver of an insolvent association to sue in a Federal court. (Hendee v. Connecticut and P. R. R. Co., 26 Fed. Rep., 677.)

(d) Nor would the act of July 12, 1882, take from the circuit court jurisdiction of a suit brought against a director for negligent performance of his duties; for, as such suit rests upon the requirements of the United States laws, and by-laws made pursuant thereto, it is a case arising under the laws of the United States. (Witters v. Foster, U. S. C. C. (D. Vt.), 28 Fed. Rep., 737.)

(e) In an action against a national bank in a circuit court of the United States, if all the parties are citizens of the district in which the bank is situated, and the action does not come under section 5209 or section 5239 of the Revised Statutes, the circuit court has no jurisdiction. (Whittemore v. Amoskeag National Bank, 134 U.S., 527.)

(f) The Federal courts have jurisdiction of an action between a national bank located in one State and a citizen of another State. (First National Bank v. Forest, 40 Fed. Rep., 705.)

(g) An action between a receiver of an insolvent national bank and a depositor does not present a Federal question under Revised Statutes of the United States, section 5242, avoiding preferences to creditors of such an insolvent bank. (Tehan v. First National Bank et al., 39 Fed. Rep., 577.) On motion to remand to State court.

(h) A receiver of an insolvent national bank is an officer of the United States within the meaning of section 563, Revised Statutes of the United States, which gives the district courts jurisdiction of "all suits at common law brought by the United States, or any officer thereof authorized by law to sue." (U.S. D. C. (E. D. Mo.), Feb. 24, 1890.)

### 3. JURISDICTION OF STATE COURTS:

(a) State courts have jurisdiction of suits by and against national banking associations. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383; see also Ordway v. Central National Bank, 47 Md., 217, and Clafflin v. Houseman, 93 U. S., 130.)

(b) Where a national banking association is sued in a State court, the suit must be brought in the city or county in which the bank is located. (Cadle v. Tracev. 11 Blatch., 101: Crocker v. Maine National Bank, 101 Mass., 240.)

Tracey, Y1 Blatch., 101; Crocker'v. Maine National Bank, 101 Mass., 240.)
NOTE.—But the New York court of appeals has held that the provision of the
national banking law as to the jurisdiction of State courts is permissive
only, and not mandatory, and that a State court, in a proper case, may entertain a proceeding against a national bank located in another State.

## 3. JURISDICTION OF STATE COURTS-Continued.

(Cooke v. The State National Bank of Boston, 52 N. Y., 96; Robinson v. National Bank of New Berne, 81 N. Y., 385; see also Adams v. Daunis, 29 La. Ann., 315.) And in Talmage v. Third National Bank, 27 Hun, 61, the supreme court of New York said: "The words of restriction to the place where said 'association is situated' apply to the county and municipal courts, and not to the State courts. In the State courts of general jurisdiction a national banking association can be sued whenever an individual can be for the same cause." In Cooke v. The State National Bank, Chief Judge Church questioned the constitutional right of Congress to deprive the State courts of jurisdiction in such cases.

(c) A State court can entertain an action brought to recover of a national banking association the penalty for taking usury. (Ordway v. The Central National Bank, 47 Md., 217; Hade v. McVay, 31 Ohio St., 231; Bletz v. Columbia National Bank, 87 Penn. St., 87.)

(d) The State courts have jurisdiction of an action brought by a shareholder on behalf of himself and other shareholders to recover of the directors of an insolvent association damages for injuries resulting from their negligence and misconduct. (Brinckerhoff v. Bostwick, 88 N. Y., 52.)

(e) A State court has no power to make an order directing the receiver of a national bank, who has been appointed by the Comptroller of the Currency, to pay a judgment obtained against the bank before the receiver was ap-

pointed. (Ocean National Bank v. Carll, 7 Hun, 237.)
(f) State courts have no jurisdiction of the case of an embezzlement of the funds of the association by one of its officers. (Commonwealth v. Felton, 101 Mass., 204; Commonwealth ex rel. Torrey v. Ketner, 92 Penn. St., 372.)
(g) The defense of usury may be set up in action brought in a State court.

(National Bank of Winterset v. Eyre, 52 Iowa, 114.)

#### 4. United States can not be subjected to jurisdiction of court:

Neither the Comptroller nor the receiver by putting in an appearance to a suit can subject the United States to the jurisdiction of a court. (Case v. Terrell, 11 Wall., 199.)

### 5. CITIZENSHIP:

A national banking association is for jurisdictional purposes a citizen of the State in which it is located. (Davis v. Cook, 9 Nev., 134.)

#### XII. SUITS.

#### 1. By and against associations:

(a) Suit may be brought against a national banking association though it is in the hands of a receiver. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383; Security National Bank v. National Bank of the Commonwealth, 2 Hun, 287; Green v. The Wallkill National Bank, 7 Hun, 63.)

(b) Where the tax on shares is collected from the association it may bring a suit to enjoin the collection of an illegal tax. (Cummings v. National Bank, 101 U. S., 153; Pelton v. Commercial National Bank, 101 U. S., 143; Boyer v. Boyer, 113 U. S., 143.)

(c) A State law authorizing national banking associations which have been converted from State banks to use the name of the original corporation for the purpose of prosecuting and defending suits is not in conflict with the national banking law, and therefore proceedings based upon a judgment obtained before the conversion may be instituted by such association in its former corporate name. (Thomas v. Farmers' Bank of Maryland, 46 Md., 43.)

(d) The conversion of a State bank into a national bank, with a change of name, under the national bank act does not affect its identity or its right to sue upon liabilities incurred to it by its former name. (Michigan In-

surance Bank v. Eldred, 143 U. S., 293.)

(e) A national banking association is a foreign corporation within the meaning of a State statute requiring corporations created by the laws of any other State or country to give security for costs before prosecuting a suit in the courts of the State. (National Park Bank v. Gunst, 1 Abb. N. C., 292.)

(f) As a national banking association can acquire no title to negotiable paper purchased by it, it can maintain no action thereon in a State where the person suing must be owner of the paper. (First National Bank of Rochester v. Pierson, 24 Minn., 140.)

### 4. BY AND AGAINST ASSOCIATIONS-Continued.

(g) But in a State where the holder may sue without respect to the ownership, an association may bring suit upon paper so acquired. (National Pember-ton Bank v. Porter, 125 Mass., 333; Atlas National Bank v. Savery, 127 Mass., 75).

(h) Suits brought by a receiver can not be settled or compounded upon an order of the Comptroller; this can be done only with the authority of the court. (Case v. Small, 2 Woods, 78.)

(i) An action for money against a national bank whose corporate existence is admitted is not a suit arising under the laws of the United States. (Ulster County Savings Institution v. Fourth National Bank, 8 N. Y., 162.)

#### 2. By shareholders:

(a) A shareholder of a national banking association can not maintain an action against the directors to recover damages sustained for neglect and mismanagement of the affairs of the association whereby it became insolvent and its stock was rendered worthless. Such an action can be brought only by the corporation itself. (Conway v. Halsey, 15 Vroom, 462.)

(b) But where the receiver refuses to bring an action against negligent directors to recover the amount which the shareholders have been compelled to contribute to pay the debts of the association, an action against such directors may be brought by a sharcholder on behalf of himself and the

other shareholders. (Nelson v. Burrows, 9 Abb. N. C., 280.)

(c) And when the receiver is a director, and one of the parties charged with misconduct and against whom a remedy is sought, the action may be brought by a shareholder on behalf of himself and the other shareholders. (Brinckerhoff v. Bostwick, 88 N. Y., 52.)

### 3. BY RECEIVERS:

(a) A receiver may sue either in his own name or the name of the bank. (Na-

tional Bank v. Kennedy, 17 Wall., 19.)

(b) Suits and proceedings under the act in which the United States or their officers or agents are parties, whether commenced before or after the appointment of a receiver, are to be conducted by the district attorney under the direction of the Solicitor of the Treasury. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383.)

(c) But section 380, Revised Statutes, is directory merely, and the employment of private counsel by the receiver can not be made a ground of defense to

a suit brought by him. (Ibid.)

(d) Receivers may sue in the courts of the United States by virtue of the act, without reference to the locality of their personal citizenship. (Ibid.)

(e) The provisions of the codes that every action must be brought in the name of the real party in interest, except in the case of the trustee of an express trust or of a person authorized by statute to suc, does not apply to the receiver of a national banking association suing in a Federal court held in a State which has adopted the code procedure; for the right of the receiver to sue is derived from the national banking law. (Stanton v. Wilkeson, 8 Ben., 357.)

(f) Under section 1001 of the Revised Statutes, no bond for the prosecution of the suit, or to answer in damages or costs, is required on writs of error or appeals issuing from or brought to the Supreme Court of the United States by direction of the Comptroller of the Currency in suits by or against insolvent national banking associations or the receivers thereof. (Pacific

National Bank v. Mixter, 114 U. S., 463.)

#### 4. By creditors of insolvent association:

(a) The creditors of an insolvent association must seek their remedy through the Comptroller, in the mode prescribed by the statute; they can not proceed directly in their own names against the stockholders or debtors of the bank. (Kennedy v. Gibson, 8 Wall., 498.)
(b) The writ of mandamus can not issue in a case where its effect is to direct

or control the head of an executive department in the discharge of an executive duty, involving the exercise of judgment or discretion. (United

States ex rel. Boynton v. Blaine, 139 U.S., 306.)

### 5. For usury:

(a) The penalty for all illegal interest paid to a national banking association within two years prior to the commencement of proceedings may be recovered in a single action, whether the amount was in one payment or in several. (Hintermister v. First National Bank, 64 N. Y., 212.)

#### 5. For usury-Continued.

(b) Where a bankrupt has paid usurious interest, his assignee may bring an action against the association to recover the penalty. (Wright v. First National Bank of Greensburg, 8 Biss., 243; Crocker v. First National Bank of Chetopa, 4 Dill., 358; 3 Am. L. T. N. S., 350.)

(c) The party who paid the usurious interest is the only party to the note who is entitled to sue for the penalty. (Lazear v. National Union Bank of Mary-

land, 52 Md., 78.)

(d) Under Revised Statutes, United States, 5198, providing that a suit against a national bank for taking usurions interest must be commenced within two years from "the time the usurious transaction occurred," the limitation begins to run from the time when such interest is paid. (National Bank v. Carpenter, N. J., 19 A., 181.)

#### 6. TO ENFORCE LIABILITY OF SHAREHOLDERS:

(a) When the full personal liability of shareholders is to be enforced the action must be at law. (Kennedy v. Gibson, 8 Wall., 505; Casey v. Galli, 94 U.S. 673.)

U. S., 673.)

(b) And it may be at law, though the assessment is not for the full value of the shares; for, since the sum each shareholder must contribute is a certain exact sum, there is no necessity for invoking the aid of a court of equity. (Bailey v. Sawyer, 4 Dill., 463.)

(c) But the suit may be in equity. (Kennedy v. Gibson, supra.)

### 7. EXECUTION:

A judgment against a national bank in the hands of a receiver only establishes the validity of the claim; the plaintiff can have no execution on such judgment, but must wait pro rata distribution. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383.)

### 8. ATTACHMENTS:

(a) When a creditor attaches the property of an insolvent bank he can not hold such property against the claim of a receiver appointed after the attachment suit was commenced. Such creditor must share pro rata with all others. (First National Bank of Selma v. Colby, 21 Wall., 609; Harvey v.

Allen, 16 Blatch, 29.)

- (b) No State court can issue an attachment against the funds of a national bank. Although the provision forbidding attachments was evidently made to secure equality among the general creditors in the division of the proceeds of the property of an insolvent bank, its operation is by no means confined to cases of actual or contemplated insolvency; but the remedy is taken away altogether and can not be used under any circumstances. The effect of the provision in section 5242, Revised Statutes, is to write into all State attachment laws an exception in favor of national banks, and all such laws must be read as if they contained an exception in favor of national banks. (Pacific National Bank v. Mixter, 124 U. S., 721.)
- Note.—This case overules the decision of the New York court of appeals in Robinson v. National Bank of New Berne (81 N. Y., 385), where it was held that the national banking law does not prohibit attachments against the property of national banks, except in cases where an act of insolvency has been committed, or is contemplated. See also National Shoe and Leather Bank v. Mechanics' National Bank, 89 N. Y., 467; Raynor v. Pacific National Bank, 93 N. Y., 371; Southwick v. First National Bank of Memphis, 7 Hun, 96.
  - (c) Nor can an attachment be issued by a circuit court of the United States; for as by the law of Congress all power of issuing attachments against national banks before judgment has been eliminated from State statutes, there can be no laws of the State providing for such a remedy on which the circuit court can act. (Ibid.)

#### 9. ABATEMENT:

An action brought by the creditor of a national bank is abated by a decree of a district or circuit court dissolving the corporation and forfeiting its franchises. (First National Bank of Selma v. Colby, 21 Wall., 609.)

### 10. ESTOPPEL:

(a) A shareholder against whom suit is brought to recover the assessment made upon him by the Comptroller will not be permitted to deny the existence of the association, or that it was legally incorporated. (Casey v. Galli, 94 U. S., 673.)

#### 10. Estoppel—Continued.

(b) Where one sued by a national bank is accustomed to deal with it as such, and does so deal with it in respect to the matter in suit, he is estopped from denying its incorporation. (National Bank of Fairhaven v. The Phanix Warehousing Company, 6 Hun, 71.)

### 11. SUITS AGAINST LIQUIDATING ASSOCIATIONS:

A national bank which has gone into voluntary liquidation will continue to exist as a body corporate for the purpose of suing and being sued until its affairs are completely settled. (National Bank v. Insurance Company, 104 U. S., 54; Ordway v. Central National Bank, 47 Md., 217.)

### 12. TRANSITORY AND LOCAL SUITS:

The provision of the banking law, section 5198, Revised Statutes, which requires that actions brought against national banking associations in State courts shall be brought in the county or city in which the association is located, applies only to transitory actions; it was not intended to apply to actions local in their character. (Casey v. Adams, 102 U. S., 66.)

#### 13. Survival of suits:

Whether a suit against a director for negligent performance of his duties, as required by the statutes of the United States and the by-laws of the association, will survive against the executor or administrator depends upon State laws. (Witters v. Foster, U. S. C. C. (Dist. Vt.), 25 Fed. Rep., 737.)

### XIII. EVIDENCE.

#### 1. CERTIFICATE OF COMPTROLLER:

(a) The certificate of the Comptroller of the Currency that an association has complied with all the provisions required to be complied with before commencing the business of banking is admissible in evidence upon a plea of nul tiel corporation; and such certificate, together with proof that the association has been acting as a national banking association for a long time, is amply sufficient evidence to establish, at least prima facie, the existence of the corporation. (Mix v. The National Bank of Bloomington, 91 Ill., 20; see also Merchants' National Bank of Bangor v. Glendon, 120 Mass., 97.)

(b) The certificate of the Comptroller that the association has complied with all the provisions of law touching the organization of associations removes any objection which might otherwise have been made to the evidence upon which he acted. (Casey v. Galli, 94 U. S., 673; Thatcher v. West River National Bank, 10 Mich., 196.)

(c) And in a suit against the association or its shareholders such certificate of the Comptroller is conclusive as to the completeness of the organization.

(Casey v. Galli, supra.)

(d) À letter from the Comptroller directing the receiver to institute suit, if not objected to at the time, is sufficient evidence that the Comptroller has decided that the enforcement of the individual liability of the shareholders is necessary. (Bowden v. Johnson, 107 U.S., 251.)

#### 2. EVIDENCE OF INSOLVENCY:

(a) It is not necessary that the facts upon which the Comptroller bases his action in appointing a receiver should be established by what is competent legal evidence; but he is left to be satisfied as best he can be, under the peculiar circumstances of each case, of the facts and the necessity for the exercise of his authority. (Platt v. Beebe, 57 N. Y., 330.)

(b) A return of nulla bona upon an execution issued against the property of a national bank is proof of its insolvency. (Wheelock v. Kost, 77 Ill., 296.)

### 3. Necessity for assessment by Comptroller:

It is not essential, in an action to enforce the individual liability of the shareholders of an insolvent national banking association, to aver and prove that the assessment was necessary; for the decision of the Comptroller on this point is conclusive. (Strong v. Southworth, 8 Ben., 331; Kennedy v. Gibson, 8 Wall., 505; Casey v. Galli, 94 U. S., 673.)

#### XIV. CRIMES.

### 1. UNDER UNITED STATES LAWS:

(a) The willful misapplication of the moneys and funds of a national banking association, made an offense by section 5209, Revised Statutes, must be for the use or benefit of the party charged or of some person or company other than the association. (United States v. Britton, 107 U. S., 655.)

(b) The exercise of official discretion in good faith, without fraud, for the ad-

vantage or the supposed advantage of the association, is not punishable; but if official action be taken in bad faith, for personal advantage and with fraudulent intent, it is punishable. (United States v. Fish, 24 Fed. Rep., 585.)

(c) It is not necessary that the officer should personally misapply the funds of the association. He will be guilty as a principal offeuder though he

merely procures or causes the misapplication. (*Ibid.*)
(d) A loan in bad faith, with intent to defraud the association, is a willful

misapplication within the meaning of the statute. (Ibid.)

(e) It is no defense to a charge of embezzlement, abstraction, or misapplication of the funds of a national banking association that the funds were used with the knowledge and consent of the president and some of the directors. The intent to defraud is to be conclusively presumed from the commission of the offense. (United States v. Taintor, 11 Blatch., 374.)

(f) Where the president, charged as a trustee with the administration of the funds of the bank in his hands, converts them to his own use without authority for so doing, he embezzles and abstracts them within the meaning of section 5209, Revised Statutes. (In the matter of Van Campen, 2 Ben., 419.)
(g) If, with intent to defraud the association, an officer allows a firm in which

he is a member to overdraw its account, he will be guilty of misapplying

the funds of the association. (Ibid.)

(h) As the national banking law makes the embezzlement, abstraction, or willful misapplication of the funds of a national banking association merely a misdemeanor, a person who procures such an offense to be committed can not be punished under a State statute which provides that a person who procures a felony to be committed may be indicted and convicted of a substantive felony. (Commonwealth v. Felton, 101 Mass., 204.)

(i) Au indictment charging defendants with aiding and abetting a director in a willful misapplication of the money of an association must state facts to show that there has been such misapplication committed by the director.

(United States v. Warner, 26 Fed. Rep., 616.)
(j) Allowing the withdrawal of the deposit of one indebted to the association can not be charged as a misapplication of the money of the association.

(United States v. Britton, 108 U.S., 193.)

(k) It is not a willful misapplication of the moneys of the association within the meaning of section 5209, Revised Statutes, for a president who is insolvent to procure the discounting by the association of his note not well

secured. (Ibid.)

(1) To constitute the offense of a willful misapplication of the moneys, funds, or credits of the association within section 5209, Revised Statutes, it is not necessary that the person charged with the offense should have been previously in the actual possession of such moneys, funds, and credits under or by virtue of any trust, duty, or employment committed to him. Nor is it necessary to the commission of this offense that the officer making the willful misapplication should derive any personal benefit therefrom. When the funds or assets of the bank are unlawfully taken from its possession, and afterward willfully misapplied by converting them to the use of any person other than the bank, with intent to injure and defraud, the offense as described in the statute is committed. (United States v. Harper, 33 Fed. Rep., 471.)

(m) This criminal act may be done directly and personally, or it may be done indirectly through the agency of another. If the officer charged with it has such control, direction, and power of management by virtue of his relation to the bank as to direct an application of its funds in such manner and under such circumstances as to constitute the offense of willful misapplication, and actually makes such direction or causes such misapplication to be made, he is equally as guilty as if it was done by his own

(Ibid.)

(n) Any entry on the books of the bank which is intentionally made to represent what is not true or what does not exist, with intent either to deceive its officers or defraud the association, is a false entry within the meaning

of the statute. (United States v. Harper, supra.)

### 1. UNDER UNITED STATES LAWS-Continued.

(o) It may be made personally or by direction. (Ibid.)

(p) The erasure of figures already written in the books of a national bank and the substitution of other figures which falsify the state of the account constitute a "false entry" within the meaning of section 5209, Revised Statutes, by which it is declared to be a misdemeanor to make "any false entry in any book, report, or statement of the association, with intent to injure or defraud," etc. (United States v. Crecelius, 34 Fed. Rep., 30.)

(q) Where false entries are made by a clerk at the direction of the president, the latter is a principal. (In the matter of Van Campen, supra; United States

v. Fish, supra.)

(r) Prior to the act of February 26, 1881, a notary public holding his commission under a State had no authority to administer the oath required by section 5211, Revised Statutes; and therefore a cashier who made oath before such notary to a false statement of the condition of his association was not

guilty of perjury. (United States v. Curtis, 107 U. S., 671.)
(s) To constitute the offense of willful abstraction by an officer, defined by the statute, it is necessary that the money or funds of the association should be withdrawn by the officer or by his direction; that such taking or withdrawing should be without the knowledge or consent of the bank, or of its board of directors; that the money or funds so taken or withdrawn should be converted to the officer's own use, or for the benefit and advantage of some person other than the association, and that this should be done with intent to injure and defraud the association. (United States v. Harper, supra.)

(t) A report of condition of a national bank, whether called for by the Comptroller of the Currency or not, which is a report in the usual form made by an officer of the bank in his official capacity, if it contains a false entry made with intent to deceive, is within Revised Statutes, United States, section 5209, which declares such false entries to be a misdemeanor. (United States v. Hughitt, 45 Fed. Rep., 47.)

(u) Where false entries were made by a bookkeeper in a statement requested by a national bank examiner purporting to give the balance due to depositors, which statement it was the duty of the examiner to make and not the bookkeeper, an indictment for making "false entries in a statement of the association" will not be sustained. (United States v. Eqe, 49 Fed. Rep., 852.)

(v) In an indictment of an officer of a national bank under section 5209, Revised Statutes, United States, for making false entries in a report to the Comptroller of the Currency, it is no defense that such entries were made by a clerk and verified by the officer without actual knowledge of their truth, since it was his duty to inform himself. (United States v. Allen, 47 Fed. Rep., 696.)

### 2. Under State Laws:

(a) An officer of a national banking association can not be punished under State laws for embezzling the funds of the association. (Commonwealth ex rel. Torrey v. Ketner, 92 Penn. St., 372; Commonwealth v. Felton, 101 Mass., 204.)
(b) But where the offense committed by an officer is properly a larceny of the

funds, and not an embezzlement, he may be indicted under a State law.

(Commonwealth v. Barry, 116 Mass., 1.)
(c) And an officer may be punished under State laws for making false entries in the books of the association with intent to defraud it. (Luberg v. Com-

monwealth, 94 Penn. St., 85.)

(d) The officers of a national banking association may be prosecuted under State statutes for fraudulent conversion of the property of individuals deposited with, and in the custody of, the association. (Commonwealth v. Tenney, 97 Mass., 50; State v. Fuller, 34 Conn., 280.)

### 3. TERM "UNITED STATES CURRENCY" IN PENAL STATUTES:

The circulating notes of national banking associations are included in the phrase "United States currency" when used in a penal statute. (State v. Gasting, 23 La. Ann., 1609.)

Number of Banks Organized, in Liquidation, and in Operation, with their Capital, Bonds on Deposit, and Circulation Issued, Redeemed, and Outstanding on October 31, 1892.
